

OFF FOR THE TACOMA RACES---JOURNAL AUTO REST PARTY

GREAT CROWDS TO ATTEND BIG RACES, EARLY INDICATIONS

Tacoma Speedway Gates to Be Thrown Open Early to Accommodate Picnic Parties.

MANY FEATURES PLANNED

Auto Races, Military Tournament, Tug-of-War and Wild West Soldier Show Are Scheduled.

Because of the great crowd expected at Tacoma for the Fourth of July parade in the morning and the military tournament in the stadium in the evening, as well as the Wild West soldier buckaroo show in the Stadium tonight, the gates of the Speedway will be thrown open as early as 10:30 o'clock

Thursday morning in order that picnic folk may be accommodated early.

Seattle is sending over a large delegation to back up the tug-of-war team which bucks Tacoma in the intercity shipbuilders' \$500 cash prize event. The quintet of great racers—Eddie Hearne, Eddie Pullen, Dave Lewis, Earl Cooper and Cliff Durant—will be the great drawing card, but the tug-of-war will have a following that will be of a particular nature. There is much rivalry between the unions of the two towns in this event and a big crowd of rooters will be on hand backing each team.

The program will start with a band concert at 1 o'clock, the cars entering the track decked in the national colors of the five great allied powers, which will be represented in the races beginning at 2 o'clock. Sponsors will introduce the drivers of the cars to Governor Lister, following the playing of the national anthem of each nation represented. Earl Cooper is lucky in having drawn the United States. Durant is to represent Belgium, Pullen represents France, Lewis drives for England and Hearne for Italy.

Patriotic and spectacular features dominate the program. Expectations that the largest crowd ever assembled in the Tacoma Speedway will be present are being borne out by the early arrivals in Tacoma.

On the back of each ticket to the Liberty Sweepstakes races is the following legend, in such shape that each soldier will be able to score his own races and make notation of the number of laps and the points and money won by each

of the five speed merchants in the greatest contest staged at the Tacoma oval.

Place	25 Miles	Money	Points
1.....	500	100	5
2.....	300	60	3
3.....	200	40	2
4.....	100	20	1
5.....	50	10	0

In addition to these winnings, the driver totaling the largest number of points wins the grand prize of \$3000.

Daily to Quit Chicago Cubs
St. Louis, July 3.—(U. N. S.)—Thomas Daly, third string catcher of the Chicago Cubs, and the only ball player who ever hit a home run in London with the king of England as a spectator, has notified Manager Mitchell of his intention to quit the team. Daly went around the world with the Giants and Sox. Daly will return to his home in Cambridge, Mass., hoping to get a job and play semi-pro ball until called into the army. He is in class 1 of the draft.

The Australian government has organized a bureau of science and industry for the initiation of scientific research in connection with or for the promotion of industries of the commonwealth.

TACOMA SPEEDWAY DRAWS THOUSANDS TO SEE BIG RACES

Cooper, Lewis, Pullen, Hearne and Durant Will Contest for Big Purses Tomorrow.

\$15,000 IN CASH PRIZES

Band Concert, Tug-of-War Between Shipbuilders, Fireworks and Other Attractions Provided

Earl Cooper, Dave Lewis, Eddie Pullen, Eddie Hearne and Cliff C. Durant—the quintet of racing stars entered for the Liberty sweepstakes Fourth of July races at the Tacoma Speedway—each has figured down to a nicety that he is going to win the 25 points necessary to take the first prize money in each of the three races, which means \$3000 on the firsts and the \$3000 going to the winner of the largest number of points—a total of \$6000.

The speedway officials are giving away \$15,000 cash in racing. The first event is at 25 miles, and will probably produce spectacular going. Durant is especially active on the short races, and he has tested his car up to the 100 mile per hour gauge in practice work on the oval, so there will be some great going. Dave Lewis is in the machine driven by Eddie Richenbacher before the latter took to the air service, and he certainly may be expected to push Durant on the short races. It may be that Cooper will step on the gas in the short race, although it is more than likely that he will follow his old game of looking to the longer races to produce the coin for him. Pullen and Hearne will be right there from the start, so there will be action on every curve.

Spectacular Races Promised
Some of the fans are of the opinion that the 50-mile events will prove to be more spectacular than the shorter race. Certain it is that with five drivers starting, and all of them anxious to get the big money on the events, every wheel will be a fast one.

The program at the Speedway starts with a band concert at 1 o'clock in the afternoon, although the gates will be open earlier to accommodate the crowds following the parade in the city.

Included in the afternoon function is the tug-of-war between the shipbuilders' unions of Tacoma and Seattle, for which a cash prize of \$500 is offered to the winner. There will be no division of the purse, so that the sport will be genuine and will result in one side or the other getting most of the glory and all of the coin. There is great rivalry in the union organizations of the two towns and each team will have its own backers.

Other events include the tug-of-war event, and three if the first two result in a tie. The pulls will start just before the 25-mile race, and the second pull will be just before the 50-mile race. The third, if necessary, will be just before the 75-mile race.

Other numbers on the program include daylight fireworks and patriotic music and speeches, the entrance of the decorated cars upon the tracks, accompanied by the sponsors, and similar patriotic numbers.

Crowds have begun arriving in Tacoma for the events already. The fact that there are special Fourth of July programs in Tacoma for the night of the third and the morning and evening of the Fourth, brings many here in advance of the day set in order that they may locate themselves conveniently in advance of the last minute rush. Special arrangements have been made for automobile accommodations at the speedway, cars being allowed to enter the course without extra charge. Portland and other cities of the district have organized caravans and automobile parties for the trip, and certain it is that there will be more people here than ever before for the Speedway numbers.

Thompson Features In Arleta Victory

The Arleta baseball team added another victory to its string Sunday by defeating the Willamette Iron & Steel company team by the score of 20 to 8. The game was played at the W. I. & S. company picnic at Oregon City. The feature of the contest was the pitching and batting of Thompson of the winners. In addition to allowing but four hits, Thompson made three home runs and a single. Manager Brooks of Arleta claims the independent championship of the city and is willing to defend it against all teams. For games telephone Tabor 4866.

The score: R. H. E.
Arleta..... 20 18 1
W. I. & S. Co..... 8 10 2
Batteries—Thompson and Wax; Star, Soyland and Blaser.

Play Golf at Portland
The qualifying round of the Directors cup play of the Portland Golf club will be continued tomorrow at the links at Raleigh station.

Roads to Tacoma In Good Condition For Auto Caravan

Mr. McPhall of the Auto Rest garage returned from an inspection trip of the roads between here and Tacoma and reports them in very good condition. W. C. Baldwin, president of the Tacoma Speedway association, has made special provision for the Journal Auto Rest party. He has blocked out a space of ground within the race course which is to be used exclusively by the Journal Auto Rest party. The caravan will leave here tonight at 12 o'clock after flashlight pictures have been taken. The distribution of identification pennants will continue until midnight tonight. W. C. Baldwin has arranged to take care of the crowd in his usual efficient manner, and has provided the greatest Fourth of July entertainment ever held in the Northwest.

Government Wants Oil Price Stabilized

Washington, July 6.—The national petroleum war service committee has been asked by the oil division of the United States fuel administration to cooperate in the development of a comprehensive plan to stabilize the price of crude oil and to establish definite and fixed differentials for the various qualities of crude. The war service committee is making a thorough study of the subject, and with the assistance of its advisory committee is consulting the various factors in the industry with a view to suggesting a plan which will stimulate maximum output and give reasonable earnings.

Is This Quilt Record
What is believed to be a world's record at pitching quilts has been established by Elias Young, 18 years old, of the South Park Tourist Horseshoe club, who scored 43 points including 47 ringers, in a single game. This record is vouched for by David Eakin, president of the club, and Gus Minus, its secretary.

Fleet Corporation Moved by Trucks

Long distance moving by motor truck, whose advantages have long been familiar to the private householder, demonstrated its advantages to the government recently when the Emergency Fleet corporation removed its office by motor truck from Washington to Philadelphia with the loss of only one working day. Sixty trucks were used, making four round trips between the close of business Friday in Washington and resumption of work in Philadelphia the following Monday morning.

Four Horse Races on Program for Salem

A four horse race is on tap for Fourth of July at Salem which promises to be a hummer. Fred Woodcock thinks his horse, Captain Mack, is a better stopper than Daley D. of the Witt stables, Lena Patch of the O. J. Brown farm at Gresham, and Helen Pittsimmons, owned and fed by George L. Parker. The track is said to be fast.

New Apperson Car Is Given Highest Praise

Along the Atlantic seaboard probably

no one is better known in automobile sales circles than C. T. Silver, metropolitan distributor for the Apperson. In last year he was largely influenced by his impression of the new Apperson '8 with 80 parts less' motor. With his knowledge of motor construction gained through years of experience he was convinced that in this new engine the Apperson Brothers had something which would revolutionize motor performance.

That his judgment did not err is best attested by a letter received at the general offices of the Apperson Bros. Automobile company in Kokomo, Ind., from him the other day. In this Mr. Silver says:

"The performance of the cars with the new '8 with 80 parts less' motor is beyond criticism. In fact, it is uncanny and I am frank to say that regardless of how beautiful the cars may be externally, they will never look as good as they really are."
