GIRLS AND WOMEN HELD RESPONSIBLE

Hundreds of Hands Needed to Gather Fruit Crops; Easy Work and Good Pay.

Upon the shoulders of the girls and the women of Portland and its vicinity has been placed the saving of the blackberry and prune crops of the Willamette valley. There are no men to pick the fruit, there is no other help available. Unless the girls and women of Portland answer the girls and women of Portland answer the call that has been sent out by J. W. Brewer, arm labor specialist of the department of agriculture, thousands of dollars will be lost by the fruitgrowers and thousands of dollars' worth of food will be lost at a time when fruit is badly

needed.

Mabel B. Plowman, 331 Jefferson street, has been working with girls and women in charge of picking squads all all summer, and she claims they are as efficient as men, or even more so. She asserts they can make more money in this way than in any other; that the work is not hard; that it is an opportunity as well as a duty.

Just now 100 girls are needed in the Newberg district to pick blackberries. Four camps are to be established, with 25 in each camp. Three cents a pound picker with experience can gather 200 pounds a day. One with little or no experience can pick 100 pounds easily. And prune picking pays even better, with the crop following hard upon the

This fruit is needed by the government, first of all, to make jam for the soldiers. Some fruit must be furnished the men in service, and none better than Oregon blackberries is to be found anywhere. In camp the girls have a supervisor and a cook for each division of 25. all the girl has to bring with her is her bedding. Board is at the rate of 50

ing their country," says Mrs. Plowman, "and those who have been wishing they were men to help win the war can find something to do right at home, with none of the discomforts attendant upon the life of a soldier, and with splendid remuneration

"Many of the girls who are aiding in the work are doing so from a sense of duty rather than for the money they earn, but the work affords a fine chance

"The girls make splendid workers. None better could be obtained. But we need more of them; many more of them. In the Newberg district 100 must be put to work if the berries are to be saved, and Lebanon needs as many more. Many fruitgrowers have told me girls come to their aid. We must have girls and women if the fruit crop of the Villamette valley is to be saved."

GREAT NORTHERN **ABOUT TROUBLES**

Abbott Suffered Six Years-Finds Relief by Taking Tanlac

"Beore I started taking Tanlac I had such a constant misery in my back that I could hardly get up out of my chair," said William Abbott, who has been car clerk for the Great Northern railroad for the past 10 years and lives at 527 Northrup street, the other day.

"About six years ago," he continued, "I began to feel the first twinges of rheumatism, which affected me from my waist down and gradually got worse till it became a chrenic affliction and I was hardly ever free from pain. I lost my appetite, nothing I would force down tasted right, and I became so badly constipated that my head would ache most all the time. My kidneys, too, worried me night and day and I grew so nervous and irritable that it's a wonder I didn't make needle mad with me so nervous and irritable that it's a wonder I didn't make people mad with me.
During the past year I suffered from
several attacks of lumbage that caused
my back to hurt so bad they almost
put me out of business. I was so restless at night that I could hardly sleep
and would wake up every merning long
before it was time for me to get up at
5 o'clock.

"I kept reading so much in the papers about the good Tanlac was doing others that I finally decided to try a bottle and in two days after I had started on it I actually felt my appetite beginning to pick up. By the time I had finished my second bottle I was feeling like a new man, that rheumatism is just about some and those Tanlac feeling like a new man, that rheumatism is just about gone and those Tanlac Tablets have relieved my constipation. I sleep so sound now that it takes the alarm clock to wake me up and I feel just fine in every way. I am improving so fast that I believe a few more bottles will make me entirely well, and as it is I wouldn't hesitate a minute to recommend Tanlac to anybody suffering like I was."
