ning to erect a big coaling dock in this city. Altogether, I see a great future for Portland, and I am willing to bank

on it to the extent of \$150,000, or more

Mr. Supple is now gathering data rela-

tive to the erection of the cement dry-dock. His decision to build in Portland

was arrived at following an inspection of

Supple's original intention to construct

also a marine railway, but he decided

that, on account of the annual menace

from the flood waters in the Willam-

ette, this enterprise would be imprac-

Pioneer Shipbuilder

Since selling out his interests in the

Supple-Ballin wooden shipbuilding firm,

Supple has been taking life easy. But,

keep away from the waterfront, where

he has spent a great part of his life, as a

boatbuilder. It was as a builder of river

craft that Supple became generally

known to pioneer Portlanders. He has

the distinction of constructing the light-

est draft steamer in the world. The boat

drew less than nine inches of water.

Aside from the sternwheel craft built at

the Supple yards were a number of pro-

Supple entered the ocean going ship-

building game indirectly as a result of

the demands for ships following the out-

break of the war. After the yard had

turned out some half a dozen 4500 ton

wooden steamers of the Ballin composite

type, Supple sold out his interests to

Prune Restrictions Considered

Washington, Aug. 3 .- The food ad-

ninistration has informed Senator Mc-

Nary it is considering the limitation of exports of prunes to 5000 tons and of peaches to 500 tons because of severe

crop shortages. Canada will receive a

share apportioned on a pre-war basis.

Willamette valley growers apparently

are disturbed over the limitation, but

the regulations are not expected to af-

fect the quick sale of the crop.

peller boats.

New York investors.

eccording to his own admission, he can't

# 22,000 SOLDIERS CROSS CONTINENT WITHOUT A HITCH

freight traffic.

had carefully worked out the schedule to
be followed down to almost the second
when the trains would leave here moda day's work.

Movement Is Big Problem The movement of the division started on June 19 and on the evening of June 30. 11 days later, every troop train and

every freight car was on its way. The layman would quickly arrive at the conclusion that the moving of but 2000 men and their equipment every day was a small matter, as it is well known that twice that many men have been sent from here in one day on several oc-

But the problem that confronted both railway officials and officers detailed in the transportation department of the nuartermaster corps was how to assemble the needed cars for the transportation of 22,000 men and the necessary imedimenta without making the regular schedules suffer from lack of rolling

At the time that the division moved out of camp, 12,000 selects were moving in from five states, making a drain on the rolling stock and rendering the problam of furnishing cars for a division floubly hard, when every effort was to be made to maintain the regular freight and passenger schedules.

Sixty-six Trains Required The freight for the division was moved

in two freight trains of 48 cars each. There were 174 kitchen and baggage cars coupled to the troop trains and the

train solved the feeding problem but there were three dining cars attached for the use of officers, who are obliged to pay for their own food.

m., one train leaving camp every hour and a half. Seven trains each day were

The total number of trains used to move the division was 64. In addition to the two freight trains. Each train averaged 500 soldlers.

While it is not permitted to state where the men went from here, the destination being a port of embarkation, in keeping was detrained at the port of embarka- lins is serving the patrons of the mail tion nine days after it had left here.

## Brig.-Gen. Vanderbilt Is Assigned to Camp Lewis

Prominent New Yorker to Command Brigade of 13th Division at American Lake.

### Truant Girls Must Work in Gardens

Chicago, Aug. 3 .- (I. N. S.) -A school especially equipped for the correction of girls who play truant is to be the latest ization on the results obtained and on addition to the public school system. Modeled upon the parental school for boys, the school will be adapted to the interests of girls who find the three r's a weariness to the flesh, and who cannot of themselves resist the lure of the open, even in the confines of the

Small gardens in which the girls will grow flowers and vegetables will give opportunity for them to exercise their body, and there will be sewing, cooking and other household duties for them to

The school will be ready for use when the first girl hears the call of Indian summer floating in to her through the open school room window this fall.
