Salem, Or., Aug. 8. — Twenty-one boards, commissions, departments and state-aided societies have submitted to the state tax commission tentative budgets covering their financial needs for the next two years, and it is evident the tax commission has set for itself a very trying job if it is going to pass on each item listed as a means of arriving at the amount of revenue it intends to provide for in an initiative bill to be submitted to the people at the general election next fall. Nearly all of them are asking for increases in appropriations.

### "Frog" Pet Name Yank Gives French

With the American Forces in France, July 9 (By Mail).—(U. P.)—A French soldier is always spoken of by the American soldier as a "frog." The appellation approaches a term of affection. For the American admires the Frenchman as a fighting man. American officers hold the highest admiration for French officers. But conversation referring to the French among doughboys sounds something like this: "Hear what the frogs did last night? Hopped over here on our left and grabbed 200 prisoners. Some fighters, those frogs." "I hear Shorty has been called for speeding," a second will chime in, referring to a motorcycle courier. "Guess he was hittin' it up a bit. He said he passed a frog who was makin' 75, so he musta been goin'."

### DEPRIVATIONS MUST BE PREPARED FOR, IS WARNING TO PEOPLE

Chairman Baruch of Industries Board Says That Future Will Bring Many Trials.

Washington, Aug. 8. — "The United State must prepare for deprivations," is the warning of Bernard Baruch, chairman of the war industries board, and closer in touch with the effect the war program will have on industry than any other man in the country.

"Up to this time no man nor woman has lacked for anything because of war conditions," he continued. "It will be otherwise in the future. "Just what the new war program is to be we are not yet sure, but it involves a tremendous expansion over anything we have considered up to this time.

Production Will Run Short. "The increased size of the army means a shortage of production. Millions of men will be taken from productive activities into the army. Their places cannot all be filled by skilled workers and there must be a period during which the industrial substitutes are learning their duties and acquiring skill.

"Then the demands of the military establishment for supplies are increasing even faster than its personnel. No one has any idea of the increased demand for military supplies unless he can check up on the flow of requisitions and estimates from the government through this department.

Everything Subject to Demand. "And the problem is not alone one of fuel and steel for ordnance and ships, but includes clothing, shoes, foodstuffs—everything that man is accustomed to utilize for his comfort and living.

### LEMON JUICE TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion beautifier, at very, very small cost. Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless. (adv.)

"Civilian requirements and the non-essential industries must yield to the needs of the military establishment. There is but one important thing before us—to win this war.

"I should not hesitate to take anything anyone might have for his own advantage if the taking would benefit the whole of society and help win the war. Every man's life is at the call of the nation and so must be every man's property.

"We are living today in a highly organized state of socialism. The state is all; individual is of importance only as he contributes to the welfare of the state. His property is his only as the state does not need it. He must hold his life and his possessions at the call of the state."
