VERY SHARP ADVANCE IN CHEESE PRICE IS FORECAST HERE Hyman H. Cohen FRUIT MARKETS IN A GOOD POSITION ON FRONT STREET TRADE

Cantaloupes Have Some Effect Upon Sale of Apples but Peach Situation Generally Keen-Pears Are Arriving Year ago, 10
Total this week. 238

The week ends with a very strong tone all through the fruit markets.

Prices are not only generally remaining high with the possible exception of cantaloupes, but Year ago

all through the week with practically no price hanges from those in effect at the closing of. the previous week. Receipts of Oregon stock are increasing, but the volume is not gaining as quickly as might be expected. California peaches are likewise in

only fair supply and this has a tendency to Oregon Crawfords are arriving in small supply with average sales along the street at \$1.40 @ 1.50 per box for large size and well colored

Carload of Rogue River pears, the first of the season from there, came forward Friday but was not sold by the broker receiving it. Small offerings are coming from Rufus and are quoted around \$3.00 per box while the bost California Bartletta are firm at \$3.25@ 3.50 per box. Apples are moving out fairly well but the head eat glut of cantaloupes and the lower prices age thereof are hurting the sale somewhat.

FIRST MUSCAT GRAPES ARE IN Offerings of first muscat grapes of the season were shown on display during the day when Mc-Ewen & Paine received the initial aupply of the season from California. Sale was made at \$2.25

A temporary advance in the buying price of Spain—Harvesting returns show great varia- advance in potatoes to \$2.60 @ 2.75 per cental for fancy tion. Some districts have fine crops but general 112% stuff was shown during the day but late Friday ally the harrest can be classed only as moder-purchases of this same stock were made down ate. This is comparatively favorable, as the to \$2.40. General indications point to a lower early outlook was very pessimistic.

Very liberal supplies of tomatces from The Dalles are coming forward to the local market, Demand continues favorable with the best stock commanding 90c @ \$1.00 a box. Local garden year. stock sold as high as \$1.25 in a limited way.

Weather bureau advises: Protect shipments during the next 36 hours against the following "A" degrees, and south to Ashland, 85 degrees. Maximum temperature at Portland tomorrow, about 72 degrees.

Barley Trading in Interior Sections Is of Small Volume

Crop Is Not Only Small but Initial Sales Indicate a Poor Qualify in Places.

NORTHWEST GRAIN RECEIPTS

Wheat, Barley, Flour, Osts. Hay. 41 405 127 25 48 18 117 Year ago.... For peaches the demand continued strong

Early trading in bariey at Pacific Northwest country points has been of extremely small volume. With a very short crop in the three states this season and with a rather poor quality of the initial offerings, the trade is wondering just where it is going to get the major portion of its requirements for milling.

On account of the great shortage of cheese at manufacturing centers and the extreme prices in effect at eastern points, it is generally believed that local makers will be able to maintain the higher figures reported as due.

It cost about 30c a pound at this time to land eastern cheese in the local trade and as the

ments will be secured.

Gradual reopening of all the mills of the Northwest is announced but the output of mill-stuffs is still scant. None is being offered gen-erally on the open market; most of the millers have back orders on hand that will take them at least a month to fill.

For some time Tillamook has been back or-dering its business. It has not had a sufficient supply for some time to fill its orders. This alone shows the extent of the present strength of the trade generally.

Broomhall cabled: Italy-Harvesting continues to make rapid headway and is described as being good to aver-age. There have been some complaints from northern Italy, owing to excessive dampness. In southern Italy, however, an abundant crop is predicted and where harvesting has taken place the returns confirm this prediction.

France-The appearance of winter cereal crop is excellent. Harvesting has commenced in many localities with the fine promised outturn being attained. Insufficient rain has caused some de terioration in spring crops but despite the dry SLIGHT CHANGE FOR POTATOES erally favorable nature.

A temporary advance in the buying price of Spain—Harvesting returns show great varia-

General cattle range: DALLES TOMATOES COME FREELY pected that the yield of barley and cats will be

slightly below the average.

Farmers residing around Beaverton report much damage to the cabbage crop by cut worms. Some fair supplies were received during the day but they were a mere drop as compared with the demand.

SALMON RUN IS FAIR SHOWING According to latest reports from the lower Columbia the run of saimon is quite fair. The fish are of extremely good quality and canners are taking care of all offerings. Local market for fresh fish firm.

BRIEF NOTES OF PRODUCE TRADE Country killed hogs are scarce and firm at unchanged prices.

Veals are steady to firm at former prices. Chicken trade has about cleaned up. Eastern oysters are quoted at an advance. Gasoline is up 1c a gallon here.
