Fannie Ward in 'Yellow Ticket' At Liberty

Big Photoplay Shows as Special Feature Shows Motion Pictures of G. A. R. Parade.

TIMES have changed considerably since Michael Morton wrote his "Yellow Ticket," the old regime has gone from Russia and the Jews have it to be thankful for that there is no longer officially sanctioned police persecution of their race, but with that, the picture of the famous play, which on the speaking stage was a phenomenal success at the Liberty today held the audience gripped as if by the same terrible power that held poor Anna Mirrel.

The story in film is as told on the stage, only it is amplified. The settings are accurate and the photography very good. In addition to the feature picture, as a special attraction the Liberty is showing excellent pictures of the G. A. R. parade taken yesterday.

BIG SURPRISE IS SPRUNG

Vampires fare badly in screen dramas. They enjoy a hectic period of prosperity, ruin and death stalks in their wake; then comes retribution, and either the "vamp" atones for her sins by a life of piety and sacrifice, or she "shuffles off" in a highly dramatic fashion. So with Gladys Brockwell, the star of the Fox picture, "The Bird of Prey" which opened this afternoon at the Strand.

The great Southwest furnishes the locale for the man-wrecking exploits of Miss Brockwell. This vampire wrecks homes, forces men to suicide, and plays a mighty part in the affairs of state. Then comes the inevitable end—which seems inevitable until a big surprise is sprung on the spectator.

On the vaudeville program, Timmons and Smallfield, "The Zoo Cross Girl and the Fiddling Tommie," are a particularly bright spot on the bill, their comedy patter, songs and music earning warm applause from opening-day crowds.

That the goat, usually a stubborn animal, can be educated and that he is a natural comedian are proved during the performance of Snider's goats.

George Rand & Co. in a comedy sketch that tickles the risibilities, and Beatrice Carmen, comedienne, who contributes her quota of laughs to a comedy vaudeville bill, are other Transcontinental Road Show offerings.

THAT CHANGE IN WOMAN'S LIFE
Mrs. Godden Tells How It May be Passed in Safety and Comfort.
Fremont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run down condition, so it was hard for me to do my work."

was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared.—Mrs. M. Godden, 825 Napoleon St., Fremont, Ohio.

Bed Time Tales

The Exhibition at the Possum Kindergarten.

WHEN all the little Forest Folk arrived at the Kindergarten, Father Possum shook hands with Bobby Skunk and said, "We welcome you, Captain Skunk, and all the brave little soldiers in your Company, and the others."

And Bobby Skunk had to point his loaded gun at Mr. Red Fox, to make him stand back in the line with the Company. And Benny Mink tried to get close to the little baby Possums, so he could run off with one for his supper; and Mr. Porcupine pricked Benny Mink with the sharp end of one of his quills; and Benny gave a cry of pain, and jumped back into line.

And after many other wonderful tricks and stunts, Teddy Possum stood up in the center of the green carpet, as they all heard the music by the frogs, and said, "My mother wishes to say good-night, and thank you for your kind attention; and she will now show you how my twelve little brothers and sisters were lost and found."

Lyric Theatre To Reopen Sunday

THE Lyric theatre, after being closed four weeks for vacation for the members of the Lyric Musical Stock company and to allow Keating and Flood to entirely renovate the theatre, will reopen next Sunday. Director Ben Collier opens the summer in Southern California visiting his fruit ranch and also looking over some of the musical stocks down south with the view of gathering some new ideas, plays and people.

The opening bill is entitled "Setting the Pace," and he writes that Portland has literally set the pace for musical comedy everywhere. No other city in the world furnishes such clean, high class entertainment of this kind as does Portland and this is an acknowledged fact everywhere. So completely has the Lyric been gone over, repainted, decorated and furnished that it will seem like a new playhouse to old patrons when they first enter it.

The favorites of last season, including Dillon and Franks, the most popular team of funmakers that has ever appeared here, will be seen in the cast, with many new faces in the Rosebud chorus, new scenery and costumes.

Chicago, Aug. 21.—(U. P.)—Dr. Victor E. Lager, lieutenant in the dental reserve, was a suicide here today. Melancholia induced by his failure to see active duty was the cause assigned by friends.

WOMAN'S CLUBS

One billion three hundred and fifty million cigarettes and almost a billion cookies are two of the enormous orders for supplies just placed by the Y. M. C. A. for distribution to the American troops in France, and which give some idea of the magnitude of the service rendered by the red triangle organization.

A small realization of the little comforts of home is being sent to the front in the form of a chocolate and 7,500,000 jars of jam and marmalade. These goods have been contracted for and will be exhausted before Christmas.

St. David's parish Red Cross auxiliary will resume sewing in the parish house Thursday at 10 o'clock.

Teddy Possum gave an exhibition of swinging from the tops of the tallest trees, by hanging by his wonderful rope-tail.

all heard the music by the frogs, and said, "My mother wishes to say good-night, and thank you for your kind attention; and she will now show you how my twelve little brothers and sisters were lost and found."

A wonderful sight was now about to be seen. No mother in America, among all the Wood Folks, could do the marvelous trick that Teddy Possum, the mother of Teddy Possum was about to perform. And the three companies began to push and crowd, like Humans at a Circus; and Bobby Skunk, Grandpa Frog and Grandpa Turtle had a awful time in preventing a panic. And Grandpa Turtle nearly killed one of his armored soldiers, who stood up on the back of another Knight, so he could see better.

Tomorrow—The Greatest Trick in America.

PICTURE IS DASHING ONE

Roy Stewart, who is fast growing in popularity as a portrayal of western roles, is the hero in a first class photoplay entitled "Fath Endurist," which opened at the Columbia today. The play combines all the elements that are looked for by audiences in plays of its kind—highly intense dramatic action, no waste motion, human interest, a colorful climax and a leavening of humorous situations.

Stewart possesses the fascinating air of a real dardevil and has the ability to adapt himself to the dramatic situations with as much ease as he does to the saddle on the broncho he rides. In rough outline the story opens with Stewart in the role of Jeff Flagg, a cowboy, a captive of a yegman who is breaking into a railroad station. Jim Lee rescues him and a friendship ensues that grows into a partnership in the ranching business. A copper mine nearby prevents expansion of their business and Jim pulls out. Jeff has fallen in love with Helen Dryer, stenographer for the mining company. She is insulted by the company manager and her brother kills the manager, Jeff taking the blame. Jeff flies but is recognized by a scar on his arm and in a fight with the sheriff, who it turns out is Lee, the latter shoots the scar off. Later Jeff returns to the mine—and, of course, gets the girl.

Britain's Bulwarks, an educational picture and a corking good comedy, entitled "Damaged Good," completes the bill.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing appetites, replacing sagging, drooping, ugly hollows and angles by the soft curved lines of health and beauty, there is a widespread ignorance of the fact that phosphorus, which is the element which keenly feel their excessive thinness.

"Thinness and weakness are usually due to starved nerves. Our bodies need more phosphate than is contained in moderate foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphorus known among druggists as bitro-phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction. Food elements, bitro-phosphate quickly produces a welcome transformation in the appearance of the individual in weight frequently being astonishing.

This increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear, dull eyes become bright, and pale cheeks glow with the bloom of perfect health.

Hot weather means danger for your baby!

WHEN, in the stifling, still summer days, the thermometer crawls up to the nineties and your baby lies listless in his little hot bed, or tosses restlessly about, then is the time, above all others, for you to be careful with his feeding.

When you cannot nurse your baby any longer he must have milk in some form. Give him the food that for half a century has proved always safe, winter and summer: Nestlé's Food.

You mothers—who are reading this—you know that raw cow's milk is too hard for your baby to digest. BUT there is much that is good in milk—much that your baby needs. So in Nestlé's Food we take the pure milk of healthy cows and make the curds easier to digest, adding just the right amount of sugar and cereal. It comes to you a dry powder in air-tight cans. It can't sour or spoil.
