Yakima Boy Killed, Is Word From Chum

Yakima, Aug. 29.—The death of William Wharton in action on the French front was announced here today in a letter received from Sergeant Robert Freeman by his mother, Mrs. W. P. Freeman. The official notice from the war department has not yet been received and the parents hope there has been some mistake, but Freeman and Wharton were bunk mates and the private word has evidently outrun the official notice. Young Wharton was a son of W. S. Wharton of this city, 20 years old and member of company C when that organization was at the Mexican border two years ago.

Considerable progress has been made in the region of Juvigny (five miles north of Soissons). As I cable the Americans have crossed the railroad northwest of Chavigny and are steadily pushing forward. The attack followed artillery preparation of a most vigorous character, the gun flashes piercing the early morning sky, shaking the ground and resounding with deafening roar through the valleys. A large number of tanks operate on the flanks of the infantry with tremendous effectiveness.

Shots Again Exchanged

Nogales, Ariz., Aug. 29.—(U. P.)—One round of 18 shots from an American machine gun was fired across the border about 10 o'clock Wednesday night as the American answer to Mexican shots. It was announced here today. During the night some 100 shots were fired across the border. The Americans did not reply until about 40 shots had come across the line from the Mexican side. This morning entire quiet prevailed during the hours immediately following daylight, due to General Cabell's ultimatum that if the Mexicans did not cease their "foolishness" he would "take everything I have" across the line and "take everything you have over there." That ultimatum was delivered last night to the Mexican consul from Nogales, Sonora. The Mexicans insisted negro troops had started the firing, but General Cabell quickly showed them no negroes were on the border. Additional American reinforcements have arrived. There are numbers of soldiers here patrolling the streets. This morning the Mexicans and at daybreak this morning the indications were that a considerable force was accumulating.

MARSHAL FOCH FERDINAND F O C H,

BRUSH FIRE BURNS ON COUNCIL CREST

Spectacular Blaze Had Burned Over About 3 Square Miles of Territory Up to Noon.

A spectacular fire burned about three square miles of brush on the west slope of Council Crest Wednesday night and this morning. At noon the fire was still burning. About 4:30 o'clock Wednesday the alarm was sounded and Chief Dowell ordered engines 17, 22 and 15 to respond. When they arrived the fire was raging furiously and the wind was scattering the sparks and creating new fires. The three companies laid all their hose in one length from the nearest Portland Heights hydrant but could not reach the fire, so the drivers returned for another supply. It required 6000 feet of hose to reach the fire and save two houses. Fire Marshal Grenfell said this is the longest line of hose he ever heard of. Major Delch sent about 50 military police to aid the city firemen, and the latter gave the police considerable credit this morning for the assistance they gave. The police helped drag the hose over the hills and fought the fire with water buckets. The military units under control late this morning and the three companies were ordered in. Engine 5 was ordered out to extinguish the blaze. More men were hurried to the fire at noon today when the breeze had fanned the flames into new life. The 6000 feet of hose was long enough to reach the burning brush farther along. Men armed with shovels, rakes and other equipment for fighting brush a fire at close range were loaded upon motor trucks and sent to the threatened area for fear the blaze would eat through to the villages beyond or into the green timber.
