Growder Issues Statement to Clear Up Misunderstanding Among Older Men.

Washington, Sept. 5,-Provost Marshall General Crowder has issued a statement ssigned to clear up the uncertainty which seems to exist among some of the older men involved in the extension in the draft ages to include men between is and 45. In it he says:

"A man is considered to be included within the new age limits unless on or pefore registration day, September 2, he has reached his 46th birthday. If his ige is 45 years and 364 days on Septemper 12, he must register

"The minimum age limit of 18 years on the other hand is intended to include any young men who on or before Sep-tember & shall have reached his 18th

"For these reasons it is important that all men who have the slightest doubt as to whether they are included within the new age limits ascertain as soon as possible before his registration day the date of his birth and his age on his last birthday. The burden is on the man who fails to register to show that he does not come within the new limits."

A communication to the county commissioners from C. W.
