

MADDOO SAYS RAIL EMPLOYEES NEEDED

Director General Fears Draft Call Will Cripple Government Rail Service.

Washington, Sept. 18.—(U. P.)—Railway employees, like all other workers, must prove their services are essential, to avoid the draft. Provost Marshal General Crowder has ruled that there can be no blanket class exemptions of any kind.

Director General McAdoo, who sought such blanket exemption, today directed regional chiefs to ask deferred classification for every essential employee. His directions follow: "Since the railroads are indispensable and branches of the service to which employees belong are indispensable, I understand that the remaining questions for consideration by the district boards are whether a particular employee can be dispensed with (1) on the ground that the railroad has more of such employees than it needs, or (2) upon the ground that it can readily replace such employees with others."

Would Hamper Rail Service. "Please state to the district board with my full authority that after eight and a half months of a thorough and continuous study of this subject, being constantly in touch with employers of railroad labor, the representatives of railroad employees and the reports of the labor situation generally for the whole country, there is no surplus supply of a labor from which employees can be drawn to replace those who may be taken for military service. Any competent railroad employee taken from an indispensable branch of the railroad service will be subtracted from a force which is already too small and which cannot be adequately replenished. The taking of any railroad employee by any district board would be a step tending to injure the war operations of some railroads. The taking of such steps by numerous district boards would, in the aggregate, constitute a cumulative and far reaching injury to the United States railroad administration and would destroy the purpose for which the government took possession of such control of the roads."

The scarcity of skilled labor employees is due partly to the fact that up to the present time the railroads of the country, in addition to meeting their full share of demands of men for general military service, have been subjected to the peculiar disability that they alone out of all the industries of the country have had to furnish large numbers of men for special military service.

France Calls Skilled Men. "Hundreds of miles of military railroads in France are being operated for the military forces of the United States by men who have been drawn from the ranks of skilled employees and officers in this country. In this way the drain upon skilled railroad labor has already been proportionately greater than the drain upon skilled labor of other industries. And this, in part, accounts for the exceptional shortage of skilled labor which confronts the United States railroad administration. "It must also be clear that employees in these classes cannot be supplied by the employment and training of new employees. Practically without exception, these employments are not suited to women, but able bodied and vigorous men are needed for the discharge of the duties. These men are not available in adequate numbers and will become less and less available as the war progresses. Besides untrained men cannot perform

THIN PEOPLE NEED BITRO-PHOSPHATE

How It Increases Weight, Strength and Nerve Force in Two Weeks' Time in Many Instances.

"Take plain bitro-phosphate" is the advice of physicians to thin, delicate, nervous people who lack vim, vigor and nerve force, and there seems to be ample proof of the efficacy of this preparation to warrant the recommendation. Moreover, if we judge from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and the soft-curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness. Thinness and weakness are usually due to deranged nerves. Our bodies need more

phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric element, bitro-phosphate quickly produces a welcome transformation in the appearance; the increase in weight frequently being astonishing. This increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear, dull eyes become bright and pale cheeks glow with the bloom of perfect health.

CAUTION—Although Bitro-Phosphate is unexcelled for relieving nervousness, sleeplessness and general weakness, owing to its remarkable flesh growing properties, it should not be used by those who do not desire to put on flesh.

the functions and if skilled railroad employees are taken for military service the substitution of untrained employees, even if available, would prove destructive to efficient railroad operation. Cooperation Is Urged "It is desired that the understanding and sympathetic cooperation of the district boards shall be sought in all instances. To the extent that untrained men can be spared from railroad service for military service we ought to spare them. But to the extent that they are needed for railroad service, the district boards should attempt to take them for military service."

ROLL OF HONOR

Latta, Okla.; William Lightner, Carlisle, Pa.; Alex Livingston, Reynoldsville, Va.; Felipe Mala, Bernadillo, N. M.; Frank J. Medlar, Burlington, Vt.; Guy E. Morrill, Springfield, Mass.; Hyman Miller, Brockton, Mass.; Thomas Ross Miller, Oil City, Pa.

WOUNDED SLIGHTLY Private Edvis Kromach, New York, N. Y. WOUNDED IN ACTION—DEGREE UNDERTERMINED Sergeant—Frank John Fifer, Albert W. Va.; Thomas D. Smith, Alton, Ill. Corporal F. A. Bartlett, Okoboko, Wis. Privates—Luigi Aiello, Germantown, Philadelphia, Pa.; W. G. Klein, Chicago Heights, Ill.; George Marquardt, Wadena, Minn.

MISSING IN ACTION Sergeant E. W. Roberts, Shala, Cal.; Private Lucid Anselmi, Pineda, Caserta, Italy; Oliver F. Durham, Naples, Neb.; Elmer E. Frazier, Fort, Ark.; Edward Gowen, San Francisco, Cal.; Arthur Hansen, Sparks, Nev.; John Johnston, La Crosse, Wis.; Edward T. Lacey, Carville, Mich.; Peter Mamo, Surovsky, Velinoboden, Russia; Henry Marked, Bay Point, Cal.; Arthur Mautsch, Alto, Fla.; Edward A. Mitchell, San Francisco, Cal.

Ontario, Sept. 17.—(U. P.)—The following Americans are mentioned in the latest Canadian casualty list: O. W. RYAN, Chelms, Wash. K. S. KEMP, San Diego, Cal. WOUNDED D. A. Stewart, Los Angeles.

Ontario, Sept. 18.—(U. P.)—The following Americans are mentioned in the latest casualty list: KILLED IN ACTION K. S. Kemp, San Diego, Cal. WOUNDED T. L. Kemp, San Diego, Cal.; L. G. Cline, St. Bernard, Cal.; W. G. Gerda, Los Angeles; S. L. Crookston, Spokane, Wash.; R. H. Eaton, Oliver, Vt.; O. L. H. M. Kelly, Bellingham, Wash.; J. Williams, Hayden, Ariz.; S. H. Rollins, Coleman, Cal.; J. R. A. Law, Portland, Or.; L. M. McKim, Outlook, Mont.; L. A. McIntyre, San

Francisco; J. A. Deussen, Portland, Or.; A. Drummond, Pasadena, Cal.; V. M. Campbell, Eureka, Cal. GABERD D. A. Stewart, Los Angeles, Cal. DIED OF WOUNDS K. THISTLE, Loma, Cal. L. E. PERRINS, Fresno, Idaho. Bolsheviki Retake Kazan Peking, Sept. 18.—(U. P.)—Bolsheviki troops have recaptured Kazan, according to dispatches today. Siberian troops are retiring in good order, it was stated. Kazan was reported several days ago to have fallen to the Siberian troops. It is the seat of government of the province of Kazan.

TO RELIEVE CATARRHAL DEAFNESS AND HEAD NOISES If you have Catarrhal Deafness or are hard of hearing or have head noises go to your drug-gist and get 1 ounce of Parmit (double strength), and add to it 1/4 pint of hot water and a little granulated sugar. Take 1 table-spoonful four times a day. This will often bring quick relief from the distressing noise which Catarrhal Deafness should open, breathing become easy and the amount stop-dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one who has Catarrhal Deafness or head noises should give this prescription a trial.—Adv.

Physicians agree that nearly nine-tenths of the cases of stomach trouble, dyspepsia and indigestion are caused by an excess of hydrochloric acid in the stomach. "Acid Stomach" is an exceedingly dangerous condition because the acid irritates and inflames the delicate stomach walls and lining, causing the partially digested food to sour and ferment and develop gas, bloating, nausea and heartburn. Acid stomachs should be neutralized. Do not treat with digestive pills or drugs, but give the stomach a magnesia bath to clean out the dangerous acid accumulation and then all pain and discomfort will quickly stop. To give the stomach a genuine magnesia bath go to any drug store and get about 2 oz. of pure bisulphated magnesia powder and take a teaspoonful in a cup of hot water. This makes an agreeable drink and washes down into your acid inflamed and burning stomach where in less than ten minutes it soothes and cools the heated walls and takes up or neutralizes every trace of excess acid much as a sponge or blotting paper might do. With the removal of the acid from the stomach every symptom of indigestion will stop. Magnesia baths are being taken daily by thousands of former dyspeptics who now eat as they please without a sign of indigestion. Adv.

This makes an agreeable drink and washes down into your acid inflamed and burning stomach where in less than ten minutes it soothes and cools the heated walls and takes up or neutralizes every trace of excess acid much as a sponge or blotting paper might do. With the removal of the acid from the stomach every symptom of indigestion will stop. Magnesia baths are being taken daily by thousands of former dyspeptics who now eat as they please without a sign of indigestion. Adv.

BY A SPECIALIST Physicians agree that nearly nine-tenths of the cases of stomach trouble, dyspepsia and indigestion are caused by an excess of hydrochloric acid in the stomach. "Acid Stomach" is an exceedingly dangerous condition because the acid irritates and inflames the delicate stomach walls and lining, causing the partially digested food to sour and ferment and develop gas, bloating, nausea and heartburn. Acid stomachs should be neutralized. Do not treat with digestive pills or drugs, but give the stomach a magnesia bath to clean out the dangerous acid accumulation and then all pain and discomfort will quickly stop. To give the stomach a genuine magnesia bath go to any drug store and get about 2 oz. of pure bisulphated magnesia powder and take a teaspoonful in a cup of hot water. This makes an agreeable drink and washes down into your acid inflamed and burning stomach where in less than ten minutes it soothes and cools the heated walls and takes up or neutralizes every trace of excess acid much as a sponge or blotting paper might do.
