

AMENDMENT FOR PROHIBITION VOTED

House Adopts Change in Food Stimulation Bill, 34 to 27; Importation Prohibited.

Washington, Sept. 24.—The wartime prohibition amendment to the food stimulation bill was adopted by the house Monday by a vote of 34 to 27. The bill was then passed and sent to conference by a vote of 171 to 84. The final vote was not taken until after 8 p. m., more than four hours of debate having been insisted upon by advocates and opponents of the measure. The bill as passed prohibits the manufacture and sale of all intoxicants after June 30 of next year. The importation of wines and other liquors from foreign countries will be prohibited as soon as the measure is approved by the president. An amendment to the bill, put in at the request of the state department to permit the importation of wines until May 1 of next year, was rejected by the house by the vote of 59 to 131 upon motion of Mr. Kahn of California. This amendment was requested because of representations made to the state department by the ambassadors of Italy, France, Spain and Portugal, who contended the section forbidding the importation of such wines to be in contravention to the treaty rights with those countries. Nevertheless, Mr. Kahn insisted that if the sale of native wines was stopped on July 1, it was not fair to the American winemakers to permit the markets to be filled with wine from other countries up to within two months of the day when all sales would be stopped.
