

# YANK ARTILLERY DOMINATES BOCHE IN ARGONNE DRIVE

Spotting of Boche Batteries and Accuracy of American Fire Prevents Huns From Replying.

**YANKS' ADVANCE PERFECT**  
German Command Concentrates Shock Troops, Who Are Swept Aside by Liggett's Men.

By John Edwin Nevin  
Washington, Sept. 27.—(U. N. S.)—American artillery has demonstrated an overwhelming superiority to that of the Germans. To that reason, added to the natural interplay of the American doughboys, is due the great success of the present drive in the Argonne region. Latest reports reaching here today tell of American occupancy of towns and villages heretofore considered as German strongholds. Major General Hunter Liggett's corps, supported by those of two other corps of the first field army, have simply swept through the German line like a knife through cheese. They have advanced more than eight miles along the 20-mile front, and have greatly endangered very important lines of communication.

Officials at the war department expressed great satisfaction over the outlook. They pointed out that not only have all records for rapid advances been broken, but that the number of prisoners and war materials that have been captured is very large.

Advances Is Perfect  
This, too, in the face of the fact that the German high command, anticipating an attack at this present point, had concentrated their picked shock troops, who were aided in their defense efforts by the difficult character of the terrain over which the Americans were compelled to advance, but the obstacles were sufficient to stop the American troops.

With their artillery laying down what is described in advices reaching here today as a most perfect drum barrage, they swarmed over the hills and valleys lying in their path. The advance was perfect. The tanks supported the infantry and officials here say that the entire story of the present fighting, when complete, will show one of the best day's work in the present war.

One of the great results of the present operations, army officers say, is that it brings much nearer the ultimate withdrawal of the Germans. Foch and Pershing are working along, following out a definitely planned program. Beginning yesterday, the French and Americans moved forward on both sides of the Argonne and the advance was continued during the night.

Voussiers Is Objective  
When it is recalled that since taken by the French, has been in the hands of the Germans since the early days of the war, the significance of the present operations will be apparent. At this point the drive is directed against Voussiers, a dozen miles to the north, where the entire lateral system of German railways concentrates. The present movement will very shortly enable the Franco-Americans to get on the flank of the Hindenburg line, where they can smash the enemy's line of communication and force a general retreat.

Naturally, officials here say, the enemy can be depended on to concentrate his maximum strength to prevent this.

**GIRLS! USE LEMONS FOR SUNBURN, TAN**  
Try It! Make this lemon lotion to whiten your tanned or freckled skin.

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quartet of the best freckle, sunburn and tan lotion, and complexion whitener, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands a quarter of an hour before sunburn, windburn, freckles, and how clear, soft and white the skin becomes. Yes! It is heavenless. (Adv.)

**Magnesia Baths For Indigestion**  
Doctor Recommends Them in Place of Drugs, Pepsin, Soda or Artificial Digestants.

"Only those in constant touch with sufferers from indigestion and dyspepsia can fully realize the harm done by the improper use of artificial digestants or drugs like pepsin or soda pills and tablets in the treatment of stomach trouble. It is a well known physicianical trouble is caused by an excess of digestive acids in the stomach, which causes the stomach walls to become inflamed and often causes intense pain or burning.

The forcing of food from stomach to intestines with artificial digestants in such a case is almost criminal folly as serious as the use of a magnesia bath to clean out the stomach. Instead the stomach should be soothed and its normal healthy condition permitted to return. You can give your acid inflamed stomach no finer treatment than a magnesia bath. It is simple, easy and pleasant to take, cannot injure the stomach and is not at all expensive. Just get small bottles of Bismarck Magnesia (either tablets or powder) from your druggist, put the equivalent of two tablets in a glass of water and drink it at every meal for a few days and your stomach will act and feel fine. It must be understood that I do not advise the use of such forms of magnesia as citrates, acetates, sulphates, milk and tump magnesia. One of these might do more harm than good. I believe that nothing but pure Bismarck Magnesia should be used to neutralize an acid stomach. This form is not difficult to obtain. The best Bismarck have it in the form of a compressed tablet or powder form it will instantly neutralize stomach acidity and insure painless, natural digestion for even chronic sufferers from stomach trouble. (Adv.)

However, with the Franco-American artillery absolutely dominating the situation, officers following the situation say that while the advance must of necessity slow up, it can hardly be checked for the present.

## Seven Arrested on Idling Charge in Coffee House Raids

Raids on coffee houses Thursday night by Officers Reek and Irvin of the war emergency squad resulted in the arrest of seven Greeks charged with violating the idling ordinance. It is the opinion of the police that these men are really the proprietors of the establishments, but since they were unable to secure licenses in their own names they have registered these in the names of friends while they loaf around and play cards in their own premises. If these men admit they own the place of business they will have to face charges of violating the license law, otherwise they will be held as idlers. The men all furnished \$100 bail each, pending their appearance this afternoon. They gave the names of Gus Kerumidas, Alex Barbis, Nick Alexopolus, Stergios Liapas, Harry Stametelas, Christ Gatos and Geok Poppakakis.

## Funeral Services For Judge Moore Are Held in Salem

Salem, Sept. 27.—The funeral of the late Justice Frank A. Moore of the Oregon Supreme court was held this afternoon from the First Presbyterian church. A change of plans was made and the services were at the church instead of the supreme court building. The services were conducted by Rev. A. L. Hutchinson, former pastor of the church, assisted by Rev. Thomas S. Anderson. The

**Snow Flakes for Lunch**

BRAIN workers need light, energizing foods. Snow Flakes and milk or cheese make a nourishing, easily digested lunch. Snow Flakes are crisp, delicious, salted crackers. Dr. Atwater's table of food values gives soda crackers 1,815 calories per pound, as compared with steak at 975 calories; eggs 625 calories.

## Ludendorff Blames Defeat at Avre to Poor Organization

Paris, Sept. 27.—(U. P.)—General Ludendorff, in an order dated August 11, declares the defeat at the Avre suffered by the German armies was due to lack of proper organization of a systematic

defense, both in the line and at the rear. The order, which fell into the hands of the French through some captives, it is stated in battle-front dispatches received here today, says: "It is absolutely inadmissible that tanks, after penetrating the advanced lines, should be permitted to push along the roads or beside them for miles." He declared that the principle that a body of troops, even when surrounded, must defend their own ground to the last man and last cartridge, seems to have fallen into oblivion.

## Portland Boy Given Rank of Lieutenant

Robert Pitts Weber, son of H. C. Weber, of Buffum & Pendleton, after one year in the service, won a present which was handed him on his birthday. On September 9, 1917, he enlisted as a private in the machine gun branch of the army. On September 9, this year, his

birthday, he was promoted to a lieutenant. He is stationed at Camp Hancock, Ga. Before joining the army, Weber worked in the general auditor's office of the S. P. & S. railway. He was a prominent member of the Multnomah club, a Mason, and a member of the Royal Arcanum. Mr. Weber received a letter from his son telling of the promotion.

The world's richest iron mine, in Lapland, has been equipped with electrical machinery.
