

# ENGINEERS STORM GERMAN POSITION

### Called to Attack for First Time, American Contingent Makes Fine Showing.

By Newton C. Parks  
With the American Army Northwest of Verdun, Oct. 17 (Night).—(L. N. S.)—Engineers were called upon today to attack the Germans for the first time, and they met with brilliant success. They stormed Hill No. 299, the keystone of the German line northeast of Verdun, hurling the enemy from the crest and the northern slope.

The infantry had been attacking all day long on both sides of the hill under heavy machine-gun fire. When the troops had become thoroughly exhausted the engineers were thrown into the struggle.

Drive Enemy From Crest  
They climbed straight up the slope of the hill, driving the Germans from their strong position on the crest. Then they dug in and rested a few hours, when they resumed the assault. The Germans were quickly driven from the northern slope.

This was the largest number of engineers engaged in any fight on the American front, and it was the first time that an all-engineer unit was called upon to attack, although they had occasionally been used to plug up holes in the line.

During the defensive stage of the fighting near Soissons, engineers were on the firing line and fought well.

German Resistance Stiff  
A great deal of time was spent in consolidating the new American positions, in "mopping up" Bois de Chauvency and in rounding up German prisoners in Bois de Chatillon. The German resistance in the sector of Grand Pre has been very stiff and the Americans were compelled to yield ground slightly in Bois de Loges.

## FINAL PLEA FOR LOAN IS ISSUED BY M'ADOO

(Continued from Page One)

In France are quick to obey the order to charge the enemy.

Buy Liberty bonds on the installment plan if you cannot buy for cash. Every year, and every month, you. If every patriotic citizen will do his duty today victory for the fourth Liberty loan is certain. The continued victories of our armies in Europe, the certain defeat of our enemies and the glorious triumph of the cause of liberty depend upon what the American people do in the

## FEELS BETTER NOW THAN HE HAS FOR SIX LONG MONTHS

### Tanlac Overcomes His Prejudice Against Medicine and He Praises It Highly

"Although I was always prejudiced against medicines of all kinds, I am sure glad to endorse Tanlac for the wonderful way it has fixed me up," said O. S. Osborne, an iron moulder at the German American Iron Works, and living at 393 Grand avenue, Portland, the other day.

"I never had been sick in my life till about four months ago," he continued, "and when my digestion went all to pieces it was a new experience to me. My food would sour and ferment in my stomach and blot me up with gas till I could hardly get my breath. The gas pressure caused my heart to palpitate like a trip hammer and the misery I suffered was almost unbearable. I fell off in weight, and on going to bed I would roll and toss half the night before I could get any sleep at all. Then I would get up in the morning feeling worse than when I went to bed. I had no life or energy about me and just had to drive myself all the time to keep-up with my work."

"As I had never been sick I never had taken any medicines in my life before. But I was feeling so miserable that when I saw so much about Portland people getting relief through taking Tanlac, I decided to try it myself. Before I had finished my first bottle I was feeling so much better that I just kept on taking it, and now I can eat three good square meals a day and nothing hurts me any more. I have no gas nor shortness of breath, and my heart never troubles me with its thumping. I did it. I have gained eight pounds, too, and really haven't felt as well in the past six months as I do today. I have gotten back all my lost energy and can put in as good a day's work as anybody."

Tanlac is sold in Portland by The Qwi Drug company. (Adv.)

## CAMP LEWIS IS PUT UNDER QUARANTINE

CAMP LEWIS, Wash., Oct. 18.—Camp Lewis will be quarantined beginning Saturday morning, according to an order posted today. This action is taken because of the spread of influenza in Seattle, Tacoma and other neighboring cities. The epidemic is subsiding within the camp where there were today 146 influenza cases and 51 pneumonia cases.

The Camp Lewis quarantine will prevent the week-end visit to Portland of several hundred officers and men. Last week Seattle was closed to men from the camp and in consequence they came to Portland in increasing numbers.

remaining two days of the fourth Liberty loan campaign.

Big Rush at Close Expected  
Washington, Oct. 18.—(L. N. S.)—With only two more days to go and \$2,000,000,000 remaining to be subscribed to the fourth Liberty loan if it is to go over the top, treasury officials today were obviously none too optimistic.

They were somewhat encouraged, however, by the early reports reaching the department, showing that during the past 24 hours there has been a marked

speeding up of subscriptions. But the gigantic task of raising a billion today and another billion Saturday still remains.

In some quarters it was believed that the last minute rush of subscriptions would be larger than in any of the three previous drives and that the final avalanche of subscriptions would carry the loan past the \$4,000,000,000 goal.

Michigan has subscribed its quota, \$148,000,000, according to a message to the treasury today.

Although influenza is still retarding sales in the St. Louis district, only one out of seven of the state managers in that district expressed doubt of reaching his quota by Saturday. Missouri reports are slow but encouraging, and Kentucky lacks only 4 per cent of reaching her goal and expects to go over today. Mississippi has 85 per cent and Arkansas 83 per cent, although many workers are ill. The city of St. Louis has 82 per cent of its quota and the entire district lacks but 11 per cent to go over.

The Cleveland district reported official sales of \$350,182,850. The Toledo and Lexington, Ky., areas reached their quotas Thursday. The Toledo area includes 20 counties and has a total of \$41,499,400.

The Lexington area contains 84 counties with a total quota of \$19,000,000. The city of Cleveland has raised \$85,422,800. The Kansas City district showed a total today of \$152,325,700, by states as follows: Colorado, \$22,000,000; Kansas, \$36,000,000; Missouri, \$19,000,000; Nebraska, \$40,000,000; New Mexico, \$9,500,000; Oklahoma, \$22,000,000; Wyoming, \$5,300,000.

San Francisco Is Gaining  
San Francisco, Oct. 18.—(L. N. S.)—San Francisco was still \$27,000,000 short

today of its quota of \$107,000,000. But the campaign leaders say that the city will go over the top. Thursday's subscriptions totaled \$4,398,100.

Los Angeles Far Behind  
Los Angeles, Oct. 18.—(L. N. S.)—Los Angeles must raise a total of almost \$1,000,000 today and Saturday to go "over the top." Today subscriptions stood at \$25,847,150. The city's quota is \$43,000,000.

## MORE WEIGHT, STRENGTH, VIGOR AND NERVE-FORCE

### If You Take Bitro-Phosphate — Says Dr. F. S. Kelle

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and antries by the soft, curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are usually due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back.

Seattle Is Nearing Goal  
Seattle, Wash., Oct. 18.—(L. N. S.)—Seattle is within a million and a half of its goal for the fourth Liberty loan. Today the total stands at \$44,456,550 with the campaign committee confidently predicting the quota of \$46,000,000 will be raised before Saturday night.

Chicago Drive Speeds Up  
Chicago, Oct. 18.—(L. N. S.)—Spurred on by the magnitude of the task which

## Catarrhal Deafness and Head Noises

### TELLS SAFE AND SIMPLE WAY TO TREAT AND BELIEVE AT HOME

If you have catarrh, catarrhal deafness or head noises caused by catarrh, or if phlegm drops in your throat and has caused catarrh of the stomach or bowels you will be glad to know that these distressing symptoms may be entirely overcome in many instances by the treatment of catarrh which you can easily prepare in your own home at little cost. Secure from your druggist 1 ounce of Pareidol (double strength). Take this home and add to it 1/2 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. An improvement is sometimes noted after the first day's treatment. Breathing should become easy, while the distressing head noises, headaches, dizziness, cloudy thinking, etc., should gradually disappear under the tonic action of the treatment. Loss of the tonic taste, defective hearing and mucus droppings in the back of the throat are other symptoms which suggest the presence of catarrh and which may often be overcome by this efficacious treatment. It is said that nearly 90 per cent of all ear troubles are caused by catarrh, and because of this, therefore, be many people whose hearing may be restored by this simple, harmless, home treatment.—Adv.

CAUTION.—Although bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not, owing to its remarkable flesh-growing properties, be used by anyone who does not desire to put on flesh.—Adv.

confronts them, Liberty loan campaigners today had collected \$10,000,000 of the needed \$45,000,000 before noon, in an effort to wipe out the deficiency in Chicago's \$282,000,000 quota.

Two Ships to Take Lumber  
The Esperanza and the Ferris motor schooners owned by A. O. Anderson

and flying the flag of the Pacific Export Lumber company, are lying at the Albatross Engine & Machine works, where their winches are being overhauled, preparatory to loading lumber for Shanghai and Manila. The ships were built by the Peninsula Shipbuilding company in Portland.
