HUNS THREATEN TO RETALIATE FOR SALE OF PROPERTY IN U. S.

Alien Property Custodian Adver-
tises Sale of 11 Great Ger-
man Corporations.

New York, Oct. 18.—(U. P.)—A note of protest from Germany against the manner in which enemy alien-owned concerns are being converted into wholly American institutions by the United States has been received through the Swiss legation. It was learned today.

The action of the United States in confiscating German-owned corporations and their ensuing sale are declared by the Germans to be consciously aimed to do "lasting injury to German economic existence."

The taking over and sale of German-owned ships is termed an attempt "to shackle through measures of force the opportunities of German shipping interests to develop in the future." The German government threatens to take retaliatory measures against property owned by Americans in the empire if the enemy alien property custodian persists in continuing his practice. The American property is worth about \$12,000,000. The United States already

has confiscated \$800,000,000 worth of enemy owned property.

A. Mitchell Palmer, the alien property custodian, has returned only one answer to the Teutonic protest. He has fixed the date on which 11 enemy alien corporations are to be sold at auction. They are said to be worth about \$100,000,000.

Some 200 enemy owner enterprises now in the care of Palmer will be sold to American citizens as rapidly as they can be prepared for sale.

An auction of high grade sheep and cows on the old Porter ranch near Shedd Wednesday brought \$12,500.

The Motive in Saving

does not matter so much, for it will differ with the temperament of the individual. One man will save for sheer love of money; another to provide a competence in old age; a third to advance in the world, and a fourth to provide comfortably for his family.

Whatever the motive that prompted the saving in the first place, it must be strong enough to make you persevere at it, or else saving must be made so much a matter of system and regularity that it will be continued almost mechanically.

Get into the habit of depositing some per cent of your salary at each payday; it may be 5, 10 or 15 per cent, but the point is to keep it up week after week until your savings amount to a respectable sum.

This bank opens a savings account with one dollar, so that there can be no excuse sufficient to keep any person from becoming a depositor.
