#### Christmas Spirit Is Brought Home In Patriotic Way

Mr. and Mrs. George E. Rastall of 3520 Forty-second street south-east adopted the suggestion that War Savings Stamps be substituted for cash as Christmas gifts. Mr. Rastall presented Mrs. Rastall, yesterday, with a \$1000 War Savings certificate. Then Mrs. Rastall presented Mr. Rastall with a \$1000 War Savings certificate.

Thus they became possessed of a property worth constantly the amount invested, drawing 4 per cent interest compounded quarterly, a property that will constantly increase in value until the date of maturity. January 1, 1923, and that can be cashed at any time in the interim that emergency may dictate.

At the same time, Mr. and Mrs. Rastall were expressing to each other the Christmas spirit they were helping close the W. S. #### Total . . . . . . . . . . . . . . Death of Portland Soldier in German Prison Is Reported

Roland Beaver, who was captured at Chateau-Thierry by the Germans in July, died of spinal miningitis September 29 in the prison camp at Rastatt, according to information received by his brother, Charles W. Beaver. The Beaver brothers were members of the 30th infantry that stopped the Germans at Chateau-Thierry. Roland was captured while on duty in a listening post, and Charles, after making his way through the barrage, found his brother's helmet and belt. It was only recently that he learned of the fate of his brother. Charles Beaver suffered four wounds in the engagement, and received for his bravery the Croix de Guerre and the Forageur. The Beaver brothers resided at 242 Blandina street in Portland. They enfisted at Vancouver in January, 1918,

#### How To Develop **Good Teeth**

YOUR teeth need exercise daily. By masticating the hard masticating the hard and rougher sort of food they can best be kept in condition. Hard crusts and other coarse and fibrous foods which require thorough chewing before they can be awallowed, are especially good, not only for children but for adults also. It helps to produce a good circulation of blood and in children develops the muscles and expands the laws, so the proom is provided for the incoming larger teeth. Children should be allowed to eat only at regular hours. A child should be taught to chew his food very thoroughly.

Proper training and care of the teeth in childhood establish habits they will appreciate in after years. A few minutes longer with the tooth-brush each morning and night—a visit to a good dentist at intervals—will save lots of measurements and avoid poor health which will surely follow neglect of the mouth and teeth.
