

SHIPPERS ASKED TO CONTINUE MINIMUM CAR LOADING RULES

Benefits of War Time Regulation Is Seen and Extension to Permanent Use Urged.

Coincident with the withdrawal of food administration regulations governing minimum carload for licensed commodities, local officials of the United States railroad administration are sending broadcast to shippers an appeal to voluntarily maintain loading practices established during the war.

The policy of the railroad administration in regard to car loading is set forth as follows by W. C. Kendall, manager car service section:

"The heavier loading of freight cars, the campaign for which has had the valued aid and support of the several departments of the government, as well as the hearty cooperation of shippers, has been a very material factor in accomplishing the following:

- "1. An increased car supply.
- "2. Lessened congestion of railroads, particularly at their terminals.
- "3. Improved service made possible by lessened congestion.

"Taking full advantage of car carrying capacity means more than the mere conservation of equipment. It not only saves equipment for freight which could not otherwise move promptly, but also minimizes congestion and makes possible greatly improved service.

"If it be thought that the improved car supply which exists at the present time makes it less necessary to load cars to full capacity it should be borne in mind that a return to the old practice of light loading would speedily bring about another car shortage and congestion, by reason of the increased number of cars required to carry a given tonnage. Numerous shippers have volunteered the information that it is their purpose to make the fullest use of equipment maintaining the record established during the war, regardless of tariff minimums. They apparently realize the advantage gained which prevents useless waste and a return to transportation conditions which formerly prevailed.

"Railroad administration will continue its efforts to closely supervise the use of all commodities, in order that demands for service may be promptly met and we ask the continued cooperation of all shippers to that end. Reports of all instances of light loading will be made to the car service section as heretofore."

Bonanza Farmers Pledge Big Sum to Get Branch Road

Klamath Falls, Jan. 15.—At a meeting of farmers of the Bonanza neighborhood, 25 miles east of here, Friday, more than \$12,000 of the appropriation of \$18,000 necessary yet to insure the building of the Strahorn railway from Dairy, the terminus under the present contract with the city of Klamath Falls, to Bonanza, seven miles, was pledged. Many of the farmers declared that if more were needed they would give twice the amount pledged.

Arrangements were also completed for the payment of uniform wages on the work by the provisions of which farmers could arrange to do a portion of the necessary work themselves if they preferred, in lieu of paying out the money for others to do it.

People of Pacific Coast Are Behind President Wilson

Montesano, Wash., Jan. 15.—"The United States is body and soul with the president," writes A. B. Holloway of Montesano, Wash., to Robert Lansing, secretary of state, at Washington, D. C.

"The people of the Pacific coast and the entire country are behind the president and never before have the people of the nation been so united in their support to their president," writes Mr. Holloway.

"The great mass of the people in this country cannot get out and speak; they are busy and have not the means or ability to be heard, but they will stand by and are ready to sanction the president's policy. They want Germany to pay for all she has caused and not be permitted to squeeze out of her debt."

Clackamas Grand Jury Called Oregon City, Jan. 15.—The grand jury has been called for January 20 by Circuit Court Judge J. U. Campbell upon the request of District Attorney G. L. Hedges.

should be thoroughly investigated by the grand jury if there is any truth to them."

Such accusations, so ill founded as these are a detriment to the business in this state being conducted by orientals, is the opinion of Moy Back Hin, the Chinese consul.

IF too thin, your dress-maker or tailor can supply the deficiencies, but the overweight carry a burden they can not conceal.

There is but one alternative—reduce! To do so it is no longer necessary to go in for starvation, dieting and exhaustive exercising. There is now a safe, sure, easy, pleasant way. Just take one little harmless Marmola Prescription Tablet after each meal and at bed time and you'll literally see your fat vanish. Each tablet contains an exact dose of the same harmless ingredients that made the original Marmola prescription capable of reducing the overweight body at the rate of two, three, or four pounds a week without the slightest ill effects. Ask your druggist for Marmola Prescription Tablets, or send to the Marmola Co., 67 Garfield Building, Detroit, Mich., and you will receive for 10c a full case—enough to start you well on your way to happiness. Try it.

Chinese Consul One of Protestants Who Answers Critics Regarding Female Help.

Moy Back Hin, Chinese consul for Oregon, denies reports presented at the recent convention of the State Federation of Labor to the effect that Chinese restaurants and cafes of this city are employing white girls for the purpose of overcoming the prejudice against orientals.

Such statements as these say Mr. Hin, "can have no other effect than to engender race prejudice which does not now exist, and at the same time inflict upon all law abiding orientals in this state engaged in like business, a great wrong."

M. D. Goon, chairman of Portland Chinese Restaurants and Cafes association, brands the statement as "malicious, false and not founded on one iota of truth."

"The statement that a virtual white slave traffic among the girls was being managed and abetted by the oriental proprietors, is false in toto; a fabrication which has its origin in a biased and malicious mind," declares Mr. Goon.

"The girls employed by the oriental cafes in this city receive the same treatment as those employed by white owners, claims Mr. Goon. "They are treated well, are well paid, cared and provided for."

"We court the fullest investigation by the Girls' Welfare League or other leagues of this city or state," said Mr. Goon.

"If such charges had any truth in them I would upon my own initiative present the question to the grand jury for an investigation," said Mr. Hin.

"Such charges as have been reported against the oriental cafes in this city

should be thoroughly investigated by the grand jury if there is any truth to them."

MANY A HOUSEHOLD

has gone to pieces on the rocks of extravagance and carelessness when a budget system and a checking account would have prevented it.

It is the experience of most housekeepers that when they pay all expenses by check, they are not so likely to spend money for little silly trifles. They think twice before writing a check for a small amount.

And many a business woman has more money at the end of the month under the checking system than she would have if she had had the actual money in her possession.

A checking account is a sane, sensible, businesslike method of paying bills, and should be adopted by everyone who wants to administer his personal affairs successfully.

This bank solicits your savings or checking account.
