SPARTACANS FIRE **ON STREET CROWD**

Sharp Fighting at Franzuer Barracks; Spartacans Plan Riots to Hinder Election.

London, Jan. 15.—(I. N. S.)—Bullets were fired into a Berlin street crowd ast night by Spartacans who were hiding on the roof of a building, said n Exchange Telegraph dispatch from Copenhagen today. Fighting broke out again and a sharp

ttack was made against the Franzer harracks. The fighting lasted an hour. Leaders of the Spartacus group are planning to precipitate further riots in an effort to hinder the national elecions, but the government is taking strong measures to put down the dis-

Russia's Part Is Considered By Lowell Mellett Paris, Jan. 15 .- (U. P.) -Representa-

tion for Russia at the peace congress was expected definitely to be determined upon at today's session of the inter-allied war council. The associated powers have reached

the obvious conclusion that discussion of world peace would be absolutely futile without the vast poulation of Russia being considered. They also are understood to realize that the Serbs.

Russian problem cannot be solved withpeople themselves.

A program for official investigation of actual conditions in Russia was to be discussed fully today. This, it was believed, will result in a committee being sent into that country which would report directly to the conference. Upon the report would be based some program of recognition for the soviet government and other factions that they might send

accredited representatives to Versailles. Formal action was also to be taken today on the question of granting repre-sentation to the British dominions. This not only carries out the league of na-tions idea, but is significant as bringing additional western thought into the conference. America's entrance into the war transformed the issues from European to world wide scope and now Old World political ideas are in contact with those of the New World. Canadian and American ideals, for instance, are closely allied.

Provisional agreement has already been reached regarding delegates for the British dominions. It only remains for this agreement to be confirmed. Under the present scheme Great Britain and her colonies would vote separately, the latter being drawn in only when questions directly affecting them are discussed, thereby eliminating the very remote danger of a "packed convention."

The only countries, in fact, whose representation has not been at least ten tatively fixed, are the two which made separate peace settlements with the central powers-Russia and Roumania. There seems to be no obstacle in the way of granting delegates to the latter, the number being the chief matter un-Russian representader consideration. tion obviously will take more time and discussion.

Opposition Not Held Final

The feeling prevails now that Foreign Minister Pichon's bitter opposition to even partial recognition of the Russian soviet government, based on a suggestion of the British government favoring such recognition, need not be considered as final. In this connection, it was authentically reported today that there is nothing mysterious in the fact that the American delegation knew nothing of the British proposal until Pichon's published statement.

The proposal was forwarded Washington through the usual channels. Counsellor Polk of the state department erroneously assumed that President Wilson would be advised directly, which undoubtedly would have been the case if this particular subject had come up in the course of the diplomatic con-

But this was only one angle of the problem, which the various governnents are constantly exchanging views Furthermore, it was explained Wilson was not in contact with the sctivity, and at a meeting here today British representatives when the subject became ripe, being in Italy at that

The "mystery" therefore is regarded as an unfortunate slip up.

AND EMPLOYERS HAVE MET ON 50-50 BASIS

Eight Hour Day, Minimum Wage . Price and Square Deal Are Points Agreed Upon.

That two conditions existing between employers and employes which are instrumental in assuring prosperity have been fairly met on a 50-50 basis by the employers and employes of the lumber industry of the Northwest, is the attitude shown of both employers and employes who recently completed their peace time organization of the Loyal Legion of Loggers and Lumbermen.

An eight-hour day and no reduction of wages below a stated minimum and square deal to all, were points agreed upon by the 12 delegates representing employers, and the 12 delegates representing the employes, is the spirit of a statement adopted Tuesday by the dele-gates representing over 190,000 lumber employes of the Northwest.

The statement adopted and signed the employes is as follows: "At a meeting of the board of di

ectors of the Loyal Legion of Loggers and Lumbermen, composed of 12 employes who are chairmen of their disrict committees and 12 employers from the same districts, both the employes and employers were unanimous in their intention to continue the organization on a 50-50 basis.

"As the legion was organized a little more than a year ago, by General Brice Disque and every member pledged himself to be loyal and patriotic, and, through the efforts of his labor, endeavor to meet the requirements of the government for the period of the war. The employer and employe alike have been successful in meeting these re-quirements and have been highly commended by the army officers and officlais of the United States government. "Now that the war is over it is the
