

OLD AGE PENSION IS GOVERNMENT'S INSURANCE PLAN

Applications for Federal Protection Come in at Washington by the Hundreds Daily; Average \$8750 TOTAL WRITTEN 39 BILLIONS

Washington, Jan. 31.—(U. P.)—Provisions approximating the old age pensions are to be included in the new government insurance policies, it was officially stated today. The policies into which the present war time insurance may be converted number ordinary life, 20-payment life, 30-payment life, 20-year endowment, 30-year endowment and endowment "age 62."

In each of the six policies clauses are included which provide for the continuous payment of allowances in event of total disability of the insured during the life of the policy. The holder will draw the regular allowance, although payment of premium may have stopped, it is explained.

The new federal policies also are planned to include participating dividend features, officials said. Reserves of the government bureau—if proposed amendment to the insurance act passes—congress will be invested in government securities, insuring a fund upon which to draw as "profit." It was indicated that the reserves will be invested in bonds of the farm loan banks, which at present are yielding about 4 1/2 per cent.

Death awards since the government entered the insurance field were announced today at \$4,969 aggregating \$294,720,500. During the month of January, including estimates in claims to be received today, the department reported 19,895, amounting to \$102,231,000, Colonel Henry D. Lindsley, chief of the bureau, reported.

Danger of New Hun Militarism Is Held Remote

Paris, Jan. 31.—A sudden reorganization of the German forces is ever possible, but such development should not cause a war, in the view of M. Branting, Swedish Socialist leader, who was interviewed by the Post-Parliamentary correspondent at Bern. M. Branting had traveled through Germany for the purpose of attending the international labor conference at Bern.

The Socialist leader does not believe the restoration of the former emperor, which some papers allege is imminent after the national assembly meets, can occur, but he admits that the German public does not understand just what has happened.

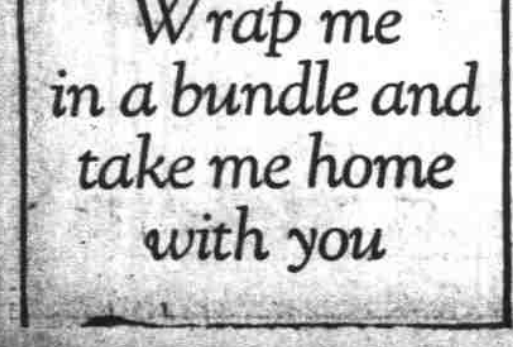

Today Is Last Day Of Grace for Auto License Applicants

Today is the last day of grace for automobile owners who have not made application for their 1919 license plates. Beginning Saturday morning the police have orders to arrest anyone who does not display the new license plates. The only way for tardy ones to protect themselves is to get a temporary license tag or a permit from Harry P. Coffin, safety-first man at police headquarters, or leave the car in the garage. This ruling does not apply to those visiting in the state who have met the requirements of the laws of another state and do not intend to remain here for more than 30 days.

Washington Plans \$500,000 Sum for Relief of Soldiers

Olympia, Jan. 31.—(U. P.)—Half a million dollars will be made available by the Washington legislature for the relief of soldiers from this state during the process of demobilization. A measure providing for this appropriation to be administered by a commission of five members to serve without pay has been agreed upon by leaders of both houses and the governor. The bill was introduced in the house today and will be sent as quickly as possible to the senate. A committee of five legislators will leave here Monday to visit the legislatures of Oregon, Montana and Idaho in an effort to have all Northwest states cooperate in the soldier relief plan.

ISLANDS FORMERLY TEUTON TERRITORY INVOLVE AMERICANS

Senator Lodge Starts Debate With Declaration of Differences With Boers and Australia.

Washington, Jan. 31.—(U. P.)—Senator Lodge, Massachusetts, today threw the senate into discussion of the peace conference's action with respect to German colonies by condemning any plan which involves the United States participation in the management of Pacific Islands or African territory formerly held by the enemy.

"We see... already to have involved ourselves in serious differences with Australia and the Boers," said Lodge. "I don't know just what we are doing and hence speak with some hesitation. The senate is kept in the dark about it all, except for casual and unofficial dispatches.

"But we apparently have agreed to guarantee and sustain a lot of rates and republics made up of Hotentots.

"The people of this country have no concern with the South Pacific or Africa, except, of course, to look after their own interests, as in Guam. Why should we go into an arrangement which involves us in difficulties with the Australians and Boers, whose friendship is important to us, I cannot see.

ARMY GOOF TEST TO BE TRIED OUT TONIGHT AT LINCOLN HIGH

Prof. Kohs Will Apply Brain Puzzle That Helped to Mould U. S. Army.

Are you normal? Do your thoughts run around in your brain with ease or do they crawl through your mind like a Council Crest car slowing down for a curve?

You can find out at the Lincoln high school auditorium tonight at 7:30. What is known in the army as the "goof test," will be given there by Professor S. C. Kohs in charge of the department of psychology at Reed college. It is the army psychological test and everyone is invited to take it. Professor Kohs guarantees, not to tell everybody if he finds any misplaced genius.

When you hear a word which you use every day, can you think on a moment's notice of its antonym, of the word which means just its opposite? Can you look at a familiar name and say at once whether its owner is a great pianist or a prize fighter?

Can you follow instructions without having them repeated several times, or does a sentence read to you mean just a jumble of words until you have had time to study it? Can you think quickly and then without losing time, make your hand do just the thing you want it to?

Bishop Roe Proves Unusual Enthusiast Before Business Men

In Bishop Roe of Alaska, the Progressive Business Men's club found a startling "booster" type at its Thursday afternoon at the Benson hotel.

"As long as people can find fertile and deep soil in the Willamette valley where the climate is congenial and living conditions are favorable, I would not advise them to take up agricultural lands in Alaska," said the bishop. "There are millions of acres in Alaska which will be limitedly productive if settled by a hardy and self denying type of people. Alaska is a country only for strong men."

Bishop Roe suggested that Alaskan mines would furnish an outlet for labor. "I heartily favor the plan of leasing Alaskan coal lands," said he, "but believe the leasing provisions should be modified sufficiently to attract capital. The rates are now too high."

Bishop Roe has spent 24 years in Alaska. Cordial applause greeted Ira L. Riggs, who presided for the first time as president.

Madmen Fly Red Flag And Beat Off Police

Belfast, Jan. 31.—(U. P.)—Madmen armed with iron bars joined striking attendants at the Monaghan lunatic asylum today and helped them beat off attacks of policemen. The red flag was raised above the asylum building. (Monaghan is the capital of the county of the same name in Ulster.)

Help yourself and Uncle Sam at the same time by buying War Savings Stamps.

ITALY AND GREECE BELIEVED AGREED

Dodecanese Islands, It Is Said, Go to Greece for Support of Claims by Italy.

By Paul Scott Newerer
Special Cable to The Journal and Chicago Daily News.
Paris, Jan. 31.—I have reason to believe that Italy and Greece have reached an agreement outside the official conference concerning their respective claims. The first point touches the so-called Dodecanese islands. These islands, which are inhabited by Greeks, were taken from Turkey in the Tripolitan war and held by Italy as a cage of Turkey's spud faith.

The treaty of London of 1916 insured their possession to Italy. Now that country apparently agrees to give these islands to Greece in accordance with the principle of nationality, if Greece agrees to internationalize the straits of Corfu and support Italy's claim to keep possession of the region of Avlona, while Italy agrees to support the Greek claims in the Epirus. Greece will make no objections to Italy's possible desire for a trusteeship over Albania.

Two Portland Men Arrive in U. S. From Overseas Service

New York, Jan. 31.—(U. P.)—From Sitka, Alaska, to Punta Gorda, Fla., and from Eastport, Maine, to San Diego, Cal., and thousands of cities and towns between, came the officers and soldiers who marched off the transport Mongolia today.

More than 97 per cent of the 4281 men aboard were wounded. Less than 900 of these, however, were under medical care when the ship arrived.

Captain F. A. Lieluallen of Portland, Or., was aboard. He had been wounded three times.

Major William S. Knox of Portland, Or., who has been serving with the University of Oregon base hospital unit south of Toul, also arrived today.

Milk Price-Fixing Subjected to Quiz

Washington, Jan. 31.—(U. P. S.)—An investigation of the milk industry and of milk price-fixing by the food administration, to be made by the federal trade commission, was asked in a resolution introduced in the senate this afternoon by Senator Jones of Washington.

Luxury Taxes Will Remain in Measure

Washington, Jan. 31.—(U. P. S.)—An informal agreement to let the luxury taxes in the revenue bill stand as written, but later, when the bill has become a law, to attempt to pass a joint resolution through both houses repealing them, was reached by the conferees on the revenue bill this afternoon.
