

CONGRESS PLANS TO END SESSION

Definite Program of Work to Do Before March 4 Is Important.

Washington, Feb. 21.—(I. N. S.)—Out of the jam of legislation in both houses of congress there came today a definite program to be put through between now and March 4, the date for adjournment of the Sixty-fifth congress.

It can be authoritatively stated that the program agreed upon after conferences between house and senate leaders of both parties calls for the passage of these bills:

The civil sundry appropriation bill, which was to be reported to the house by the appropriation committee this afternoon.

The rivers and harbors bill.

The omnibus public buildings bill.

The bill appropriating \$1,000,000,000 to maintain the government's guarantee of \$2.25 a bushel for the 1919 wheat crop.

The oil land leasing bill.

The bill appropriating \$150,000,000 to be added to the original \$500,000,000 revolving fund of the railway administration.

The measure appropriating funds to carry out the program of the shipping board. This may come as an amendment to the civil sundry bill.

Chairman Hurley submitted figures on the achievements of the shipping board to date, together with an estimate of the cost of carrying out the full program to the house appropriations committee today.

Other appropriation bills have little chance of passage. The army and navy appropriations both will remain unacted upon when the present session adjourns, it was predicted today.

PLENTY OF MUD BUT FEWER SICK

(Continued From Page One)

regulations provide. When given their choice many newcomers prefer the tents to the barracks. The same is true of a part of the permanent garrison. There is no question of their warmth. The correspondent visited several on one of the coldest nights Brest has experienced this winter.

This describes the condition the average trainload of soldiers find, but occasionally the failure of transports to arrive on time, resulting in crowding, causing emergency utilization of unfloored tents. In such cases the permanent troops turn out and collect duckboards from storerooms with which temporary floors are made.

Good Food Served the Men

Before the big dock kitchen was completed the kitchen crews also used to turn out and get up meals for the newcomers, no matter what the hour.

The tented areas are well drained, regardless of the rain. The newcomers are warm and dry their first night. The next morning they are given a breakfast of braised beef, cornmeal mush, bread and jam or strup and coffee. They are given a bath which is designed to remove any vermin, and leave all their clothes behind, receiving a complete new outfit. Then they move

BRITISH COLUMBIANS NOW KNOW MEANING OF 'SEATTLE SPIRIT'

Sound Rotarians Rush to Defense of City When "Wee Drappies" of Visitors Disappeared.

Victoria and Vancouver and other British Columbia Rotarians arrived in Portland minus their wee drappies and nursing a grouch at Seattle, according to that infallible authority, General Rumor.

As the story goes when they reached the sacred confines of the Queen City, they were met by minions of the law. Never men cut a throat or scuttled a ship in a more genteel fashion than these persons ransacked the baggage and clothing of the visiting brethren from over the border.

The minions got very little for their pains, for most of the canny Britishers had been through Seattle before and escaped, albeit poorer, wiser and badly singed.

When the Britishers took their Seattle brother Rotarians to task here in Portland and asked them, even granting that it was an exhibition of fellow feeling, if it was Seattle's idea of true hospitality, it is said that the Seattle delegates hastened, with that loyalty which, right or wrong, is known as "Seattle Spirit," to defend the conduct of their home city, saying:

"There is no suspicion among the Seattleites that any of the British Rotarians would try to evade the aluminum corn juice laws or the statutes of the sovereign state of Washington, but that there exists the same shortage of joy water in Seattle that there does in Portland."

EDUCATOR ADDRESSES ROTARIAN CONVENTION

(Continued From Page One)

Influx of these people has kept the ideas of class war in the old country stirred up here, with the result that the doctrine has even spread among our own people. If we could shut the gates of immigration temporarily until we could Americanize the people we have here already, we could soon put an end to this belief in class war.

"There is some conflict of interest in this country over the matter of division of profits; but here, as in other matters, we have the communal interest in seeing fair play, and the American spirit of keeping agreements. We want to solve things on a rational basis rather than on a coercive basis.

Democracy Must Protect Self

"Conflict between employers and employees? Yes. However, the small differences may be settled by commissions representing both sides, and the large differences may be settled by public authority. This talk of revolution is absolutely out of place. Revolution is a thing to be nourished up to the point where democracy arrives. After that point you've got to cease to glorify revolution and to begin to deny it. Democracy is the greatest instrument of the people ever invented. It has the

REDS PLAN ATTACK NATIONS ON WEST

Bolshevik Raising Army of 750,000 to Operate Against Poland, Germany and Austria.

London, Feb. 21.—(I. N. S.)—The Russian Bolsheviks now have an army of 750,000 soldiers, of whom 250,000 are efficient fighters, said a German wireless dispatch picked up here today.

The Bolsheviks are planning an offensive against Poland, East Prussia, Bohemia, Slavonia and Austria-Hungary in the spring, according to reports from Stockholm.

The Russian munitions factories are being speeded up, it is said, and agitators are being sent to England to disseminate Bolshevik principles.

London, Feb. 21.—(U. P.)—General Denekin, Russian Cossack leader, has extended his victories in the Caspian region, reaching Brianskoye and putting the Bolshevik eleventh army completely out of action, according to a Constantinople dispatch to the Times today.

(Brianskoye is on the west shore of the Caspian sea, 300 miles north and west of Baku.)

The Bolshevik official communiqué of Wednesday, received by wireless from Moscow today, said:

"On the Archangel front attacks against our positions in the Washka valley were repulsed with the heaviest enemy losses."

Five Years in Jail for Radicals

Washington, Feb. 21.—The senate judiciary committee Thursday ordered a favorable report on a bill aimed at Bolsheviks, which inflicts heavy penalties on any person found guilty under its provisions. The bill is designed to prevent the display of the red flag and discourage any acts against the United States or other recognized governments. Penalties of five years imprisonment and a fine of \$5000 are provided.

Bill Would Define Labor Strike Right

Olympia, Wash., Feb. 21.—(U. P.)—Recognition of the majority sentiment of organized labor in calling strikes is provided in a senate bill introduced today by Myers of Lincoln county. This measure would create a precedent in defining the rights of labor to bargain collectively and provide for votes on strikes against single employers, general strikes against all employers and sympathetic strikes.

Quinine That Does Not Affect Head

Secure of its tonic and invigorative effect, LAXATIVE BROOKLYN QUININE can be taken by anyone without causing nervousness or ringing in the head. There is only one "Bromo Quinine." E. W. GROVE'S signature on the box. 50c.—Ad.

IRISH QUESTION TO BE CONSIDERED AT TWO-DAY MEETING

Senator Borah of Idaho, Former Governor Walsh, Senator-elect from Massachusetts: Congressman-at-Large Joseph E. McLaughlin of Pennsylvania, who is president of the Ancient Order of Hibernians, and Representatives Thomas Gallagher of Illinois and James A. Gallivan of Massachusetts will attend the meeting in Philadelphia Saturday and Sunday of the representatives of friends of the Irish race.

Senator Borah is scheduled to speak either Saturday or Sunday, and declared today that he will propound the question, "Why was the right of Ireland to freedom, liberty and self-determination ignored by those who framed the League of Nations constitution?"

McLaughlin also declared that today he would call the attention of the house to a resolution adopted by the Pennsylvania legislature declaring for a discussion of the Irish question at the peace conference.

YOUTH IS KILLED BY Mt. Tabor Electric Car at E. 32nd St.

Julius O. Thayer, 17, was almost instantly killed about 11 o'clock Thursday night at East Thirty-second and Belmont streets when struck by a west-bound Mount Tabor car. Eye-witnesses told the coroner that Thayer alighted behind it directly in front of the west-bound car. The head and trunk of the body were badly mangled. Mr. Thayer lived with his father, S. B. Thayer, at 123 East Thirty-third street. His father died several years ago. The father was employed by the Standard Stevedocking company. The coroner said an inquest was problematical.

Inter-Allied Army To Force Hun Hand

Paris, Feb. 21.—(U. P.)—L'intransigent announces that it hears an inter-allied army soon will be formed to keep the field until Germany makes complete financial settlement. The army, according to the newspaper, would include 450,000 French, 350,000 Americans, 350,000 British and 100,000 Belgians.

HOT TEA BREAKS A COLD—TRY THIS!

Get a small package of Hamburg Brest Tea at any pharmacy. Take a tablespoonful of this Hamburg tea, put a cup of boiling water over it, pour through a sieve and drink a teaspoonful at any time. It is the most effective way to break a cold and open up the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore harmless.—Adv.
