Limited With High Price Offered -Higher Than Other Years.

A further advance of 1c a pound was forced in cube butter extras during the factory would give an outlet for those advance in prints near.

That the butter market is stronger is indicated by the greater scramble for cubes shown in the local territory. Very little of this stock is at present offering, although there has been an ad-vance in the price recently over the basis for

Prints were unchanged for the day, but the trend of the local and other Pacific Northwest markets was very firm. Leading creamery interests are very much inclined to go slow about making further advance for butter in fear of a decreased consumption of this dairy product and a rtionate increase in the use of elecmargar ine. Every time the butter market is advanced, they say, the demand is curtailed and the product of the meat packers goes into greater consump-

What to do with the surplus potatoes that usually abound in the Pacific Northwest has worried not only growers but those in the trade.

There usually is a good demand for the better class potatoes but the call for cull stock is generally poor and esurplus is shown. In any year the operation of a starch

Broomhall cabled:
United Kingdom—Wintery weather has prevailed. Plowing is still in arrears. Native wheat offerings are very liberal, and in addition stocks of flour have assumed huge proportions.

Denmark—Area under wheat crop is reported at 126,000 acres vs. 142,000 last year. Rye acreage is 553,000 vs. 536,000 last year.

South Africa—Fearing that free imports will bring down the level of values, farmers of South Africa have asked the government to afford them protection by fixing wheat values.

Argentine—Weather continues fine. Prospects for the growing corn crop are still favorable, but some rain in parts would not be unwelcome. Labor troubles are still serious, and the scarcity of experienced workers continues to restrict loadings. The port of Buenos Aires is greatly congested, and the outlook continues unfavorable.
