Police "Raid" Enlivens Program of Dancing, Boxing, Singing and More Dancing.

Automobile men from far and near broke away Friday night from the big show at the Ice Hippodrome long enough to indulge in the annual "jinks," which was put on at the East Side Woodmen hall. Nothing serious was permitted and the entertainment was lively and at times even boisterous. Hawaiian dancers, some clever boxing bouts, singing, more dancing and general carefree hilarity made up the program. The festivities were made vivid by

Paris, March 1.—German delegates are expected to reach Paris the latter part of March or the first part of April to sign articles preliminary to peace whether the work on the covenant of the League of Nations is completed or not. This became known when the functions of the special committee appointed at Thursday's session of the council of 10 were outlined. The committee was designated for formulating this document. Its functions are not only to coordinate the labors of the various committees and some sub-committees, but also to take care

of such questions as are not touched upon by them. Further, its duty is to bring the various representatives together and practically draft the clauses of the preliminary treaty. All the committees must report between March 8 and March 15 and the results are expected to be presented to President Wilson immediately upon his arrival here. A draft of the treaty will then be prepared, the Germans will be notified to come and the conference will be moved

to Versailles. The Germans are not expected to appear before any commissions or the council of 10, but the full conference, where they will be given a chance to present their claims. The presentation will be brief and formal, probably only a matter of record. The 'signatures are expected to be affixed the same day. While the peace thus achieved is known as a preliminary peace it is nevertheless an actual state of peace. Among the Americans it is believed that the allies cannot maintain a blockade of Germany after such signature is attached. It also means that all frontier questions affecting Germany will have to be settled by that time or the German rights waived. The Zionists in presenting claims for

the Jews, declared to the conference that financing would be necessary and suggested an international loan.

Milk producers and distributors, pledged their peace pact at a dinner in the Imperial hotel Friday night.
