

COVENANT REVISION MEETS PROPOSITION

Proposed Amendment Covering Monroe Doctrine May Be Taken Up Tonight.

Paris, March 24.—(U. P.)—An amendment to the League of Nations covenant covering the Monroe doctrine, advocated by President Wilson and Colonel House, is expected to be taken up at tonight's session of the league commission.

The proposed amendment would prevent any power from acquiring territory in the western hemisphere by conquest, purchase, treaty or otherwise, unless the Americas consented.

This article was reported today to be meeting with opposition from within the commission, especially by the British and French, who have extensive interests in the Americas.

It may be reserved until the constitution is debated by the plenary session. Many of the delegates are understood to favor equality of nations, but not of nationalities.

REEDSPORT FISH CO. BUYS OUT EXTENSIVE ELMORE INTERESTS

Cannery, Storage Plant, Boats, Locations and Timber Land Included in Deal.

Negotiations were closed in Portland today whereby the Reedsport Fish company of Reedsport, Or., acquired by purchase the extensive fishing interests of the Umpqua Packing company of Reedsport. The sellers were the Elmore interests, which were represented in the deal by F. H. Harrison of Astoria, one of the owners, and Thomas Thomas Tongue of Hillsboro. The buyers were represented by Warren Reed and Clyde Chase of the Reedsport Fish company and Attorney J. O. Watson of Roseburg.

The purchase price is said to have been in excess of \$75,000. The properties bought include a salmon cannery, storage plant, boats, fishing equipment, locations, and 260 acres of timber land.

The deal means much to the commercial and industrial future of Reedsport, it is said. During the past year the Reedsport Fish company has sent out by express 1,500,000 pounds of fresh fish. The sardine canning industry is one of the most important of the city. The sardines are of the pilchard variety and are declared to be an excellent fish. The Umpqua Packing company has been enjoying a good business in the past and with the acquisition of the two properties under one ownership, business extensions which will mean distribution of large sums of money in and about Reedsport are assured.

O'LEARY JURY FAILS TO REACH VERDICT AND IS DISMISSED

Business Manager of 'Bull' Freed but One Count Against Editor Prevents an Acquittal.

New York, March 24.—The jury in the case of Jeremiah O'Leary and other defendants, accused of conspiracy to violate the espionage law through articles which appeared in Bull, reported to Judge A. N. Hand, that it had failed to reach an agreement except in the case of only one defendant, Adolph Stern, business manager of the publication, who was acquitted.

The jurymen reported they were for acquittal on four counts of the indictment, submitted to them for decision, but absolutely could not agree on the remaining count. Judge Hand then dismissed the jury.

Release to Be Asked
O'Leary was returned to the Tombs for the night, and it is expected that application for bail will be made sometime today. James W. Osborn, who conducted the prosecution, refused to comment on the possibility of another trial.

The case, which attracted widespread interest owing to O'Leary's flight to the west, where he was apprehended, and his vigorous defense, has lasted for eight weeks. The jury had been out for approximately 55 hours, considerably longer than the usual time allowed to a federal jury to reach a decision.

The defendants with O'Leary and Stern were to agree with No. 1. This count, with Nos. 2 and 5, dealt with the crime of attempting to cause insubordination, mutiny, disloyalty or refusal of military duty by publication of articles in "Bull" magazine.

The count on which the jurymen failed to agree was No. 3. This count, with Nos. 4 and 8, dealt with the crime of attempting to cause insubordination, mutiny, disloyalty or refusal of military duty by publication of articles in "Bull" magazine.
