TIGHT SKIRTS UPSET R. R. SCHEDULES

Philadelphia, March 24.—(I. N. S.)—That tight skirts delay the trains by adding 17 seconds to the average stop is the allegation contained in a complaint filed by the South Jersey Commuters' association with Charles Markham, regional railroad director, whose main offices are in this city.

The protest explains that this extra time concession is necessary to the female sex because the steps of the old Pullman cars used on the Trenton division of the Pennsylvania railroad are of a height from the station platform that makes imperative a tortoise like movement on the part of the hobbled women as passengers entering and leaving the trains.

According to hearsay of the Jersey commuters the brakemen are taking considerable interest in the fact that women must literally be lifted to the platform in alighting.

Garden Hints

Watercress grows abundantly in most of the streams around Portland. It is very easily started from cuttings. The stalks that are too tough for eating may be set in the edge of a running stream. The growth is very rapid, but in swift water it washes out in the winter. It is easily propagated from seed, sown on an upturned sod at the edge of the stream. It should never be grown in stagnant water, for being eaten raw, it would not be wholesome. Cress is very rich in iron and certain mineral salts, and so is a valuable addition to the early spring diet.

Peas should be planted every few weeks for succession. Instead of all at once, for they must be eaten at just the right time. Be sure that they are planted in large enough quantities, for no gardener ever had quite enough early peas.

New Zealand spinach, while not properly speaking, spinach, makes excellent late spring and summer greens. Spinach has a bad habit of going to seed as soon as the weather turns warm. The ground will hold up all summer, as the leaves are picked off the stalk and then allowed to grow again.

As soon as sweet peas are all up, cultivate them very carefully. It is best to do this by hand the first time for the young sprouts are very tender. A little later they should be thinned; the plants removed may be transplanted if the work is carefully done.

Small round carrots, sometimes known as French forcing carrots, are best for first planting, while not so large as the long varieties they are earlier and sweeter.

A Joke on Benny Mink
 ONE afternoon Dick Otter, Sammy Muskrat and Benny Mink went fishing up Murrumbrook. You know that all three of these fishermen have wonderful patience and skill, and none of them are too tough for eating equal them as fishermen. But they had had luck this afternoon and all were hungry, and Benny Mink got very cross and disagreeable and went off alone fishing farther up the brook.

"Now, Dick Otter wanted to get a big joke off on Benny Mink, this afternoon, and he said to Sammy Muskrat, in a most playful way: "Sammy, I've a fine trick to get off on Benny Mink." "What is it?" snickered little Sammy Muskrat.

"Now, listen!" whispered Dick Otter. "Let's call Benny Mink and dare him to rob the nest of Mr. and Mrs. Kingfisher high up on the opposite bank of this big pool." "All right," chuckled Sammy Muskrat. "That will be awfully jolly." And so Dick Otter called out very loud: "Hey, there, Benny Mink, come quick, for we've found something elegant to eat."

And when Benny Mink was running to meet them, Dick whispered to Sammy Muskrat: "Now, you look for some fun. You see, Benny Mink thinks that Mr. and Mrs. Kingfisher have both left their young ones in the nest alone, and that the parents are off fishing, for he told me so. But I saw Mrs. Kingfisher return to her nest just a moment ago."

"Benny Mink reached the two fishermen, Dick Otter, exclaimed: "Benny, we've found a splendid lunch for you. You see that hole on the bank across this big pool? Well, Sammy and I have been over there and listened and smelled at that hole, and we know that the nest inside is full of tender and sweet little Kingfishers!"

"That's good news, indeed, for I'm almost starved for a game dinner," Benny Mink grumbled from ear to ear as he spoke and he smacked his lips with delight. He shouted back, as he descended the bank: "I can get those little birds all right, for I was Mr. and Mrs. Kingfisher fishing way up Murrumbrook."

Benny Mink made a great dive into the pool, and swam under the brook and started to climb up the bank, to reach the hole which led to the nest. But the bank was very steep, little birds all right, for I was Mr. and Mrs. Kingfisher fishing way up Murrumbrook. Benny Mink scrambled and puffed, and slipped back six

times before he reached the hole (which was near the top of the steep bank). And Dick Otter and Sammy Muskrat held on to each other and laughed. For they knew that Benny Mink would never get those little Kingfishers to eat, because Mrs. Kingfisher was there. And they thought that Benny really deserved punishment for the cross way he had acted to them, and Mrs. Kingfisher would give him that punishment, all right!

Tomorrow—Benny Mink Gets a Hot Reception.
