

## PAVING 130 MILES OF MARKET ROADS, MARION PROPOSAL

Preparation Made to Submit Bond Issue Measure Providing for \$850,000 at Election in June.

## CHERRIANS PLAN JUNKET

Baseball Bug at Work in Salem and Fast Team in Inter-City League This Season Proposed.

Salem, March 29.—For the purpose of paving 130 miles of market roads in Marion county, a committee of good roads boosters is preparing to submit to the county the question of voting \$850,000 road bonds. The question will be submitted at the same time as the special state election on June 3.

This committee, with leading citizens from various parts of the county, met at the Salem Commercial club Friday and discussed which market road should be paved out of the bond issue. Harley Moore of Woodburn is chairman of this feature of the road program.

Mr. Moore pointed out to those present that at the special state election the question of increasing the limit for which counties may vote bonds for roads from 2 to 6 per cent of the assessed valuation of the county, will be submitted, and he urged all good road supporters to vote for the proposed amendment. "If that amendment to the constitution is adopted," said Mr. Moore, "then, if anybody does not get his particular market road paved out of this first bond issue, the county will be able to vote another bond issue which will provide for the rest of the market roads."

"Another measure which all good road boosters should support is the 1 mill market road tax bill. That measure provides for a state tax levy each year of 1 mill, and the money thus obtained is to be used exclusively for paving market roads."

T. B. Lee is chairman of the general Marion county market roads committee. If the \$850,000 bond issue is voted, it is proposed to pave the market roads in all parts of the county. The paving will be done under the direction of the county road officials.

Plans are now being made by the Salem Cherrians for a junketing excursion this summer. The question was discussed at a meeting of the organization Wednesday night, and it was considered likely that the Cherrians would select Seattle and other Puget Sound points as the goal of the excursion.

The baseball bug is beginning to work in Salem. Otto Klett has announced that he will call a meeting soon for the purpose of perfecting an organization to take part in the league, which it is proposed to form. The team will take the name of Lotus, under which it played two years ago. A number of Salem's fastest players, who were in military service, are beginning to arrive home, and Mr. Klett says he will have material for a good team.

Members of the Woman's Foreign Missionary society of the First Methodist church celebrated the golden jubilee of that organization Tuesday night at the church. The Woman's Foreign Missionary society of the Methodist Episcopal church was organized by eight women in Boston on March 24, 1869, and since then has grown until it is one of the most forceful and important branches of that denomination. At the jubilee celebration Tuesday night there was a huge cake, on which were 50 lighted candles, while surrounding the cake were eight larger candles, representing the eight women who launched the organization. Mrs. A. A. Lee presided at the affair.

Dr. William Wallace Youngson of Portland, grand prelate of grand encampment, K. T., has been invited by DeMolay commandery No. 1, Knights of the Klippers of Salem, to deliver the Easter sermon on April 20. The services probably will be held at the First Methodist church.

Ben Selling of Portland, state chairman of the drive to raise funds for the relief of the starving Armenians and Syrians, is scheduled to speak before the Salem Commercial club at its luncheon next Monday noon. Both Salem and Marion county are lagging behind in the drive to raise the money for this relief, and an effort will be made to arouse a greater interest. Rev. H. N. Aldrich, director of the local committee, reports that Salem still has about \$20,000 to raise and Marion county \$20,000 to complete their quotas. It is planned to raise some of the money by giving local benefit entertainments, the first of which will be given under the auspices of the Tuesday Musical club next Tuesday night.

Permit to sell its capital stock in this state has been issued by Corporation Commissioner Schuldeman to the Alsea River Lumber company, which is a new concern organized by the consolidation of the Napavine Lumber & Manufacturing company of Napavine, Wash., and the Alsea River Lumber company of Eugene, Or. The new corporation has a capital stock of \$800,000, and it is proposed to move the Napavine sawmill plant to the Alsea river, in this state. The plant is valued at \$1,000,000 and it is said the company has 435,000,000 feet of timber accessible to the new location. E. B. Kingman, formerly of Columbus, Mont., is president, and W. E. Miller is vice president and treasurer of the new concern. Mr. Miller was one of the principal officers of the Napavine Lumber & Manufacturing company. The principal office of the new company will be at Eugene.

## Fisherman, Winner In Fistic Battle, Is Loser in Court

Cathlamet, Wash., March 29.—Austrian fishermen at Brookfield, Bitter Lake, to decide their differences by fighting it out with rocks, sticks and fists, with the result that the winner of the fight, Martin Butarovich, was arrested and held before Justice Bradley in the justice court and fined \$25 and costs, \$9.71. The trouble arose over a pending sale of fishing equipment from Butarovich to Dominik Morine. An advance payment of \$80 had been made, but later Morine decided to cancel his agreement and demanded repayment of the money, which Butarovich refused to refund. Morine is a cripple.

## There Begins at This Store Tomorrow a Double Demonstration of

## "Thor" Washing Machines

In one of our Alder Street windows a young woman will give a practical demonstration of Thor Electrical Washing Machines. In our Household Utilities Section a man expert direct from the "Thor" factory will explain the many merits of this well-liked washing machine. The demonstration continues for one week.

With a "Thor" in your home you can do a whole day's washing in one hour. Think of it! No more slopping, drudging and wringing—no wear on the clothes. And the clothes are washed spotlessly clean—all the dirt washed out instead of rubbed out. Linens washed snowy white, laces cleansed beautifully and without harm, likewise the heaviest blankets. The Thor will soon pay for itself by saving time, money and labor.

## Built to Last a Lifetime

The "Thor" has no belts nor chains to slip or break, it is self-cleaning, it has the Thor revolving wooden cylinder—the kind that saves wear on the clothes. Every moving part of the Thor is enclosed.

## Guaranteed

The "Thor" is backed by a liberal, binding guarantee which protects you absolutely. You are given a guarantee bond of the Hurley Machine Company, the oldest and largest manufacturer of electric washing machines in the world.
