By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and figging of the scalp will stop, and your will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four sunces is all you will need, no matter now much dandruff you have. This simple remedy never fails.—Adv.

#### To Relieve Catarrh, Catarrhal Deafness **And Head Noises**

Persons suffering from catarrhal deafness, or who are growing hard of hearing and have head noises will be hearing and have head noises will be giad to know that this distressing affliction can usually be successfully treated at home by an internal medicine that in many instances has effected complete relief after other treatments have failed. Sufferers who could scarcely hear have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from eitherear. Therefore, if you know of someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand it to them and you may have been the means of saving someone and add to it is plint of hot water and a little granulated sugar; stir until discipled. Take one tablespoonful four times a dest.

Paymint is used in this way not only to reduce by tonic action the local air pressure on the drum, but to correct any excess of secretions in the middle ear, and the results it gives are nearly always quick and effective. In fighting America's battles in every corner of the globe, the marine corps has always upheld its motto, "Semper Fidelis," according to Lieutenant Potter.

Enlistments are for four years. Necessary clothing and medical attention are furnished free. Men reenlisting from any branch of service may be granted a 30-day furlough before transfer to duty. Pay ranges from \$30 per month upward, according to rank and length of service. Chances for promotion are excellent because of vacancies constantly occurring in the non-commissioned and commissioned grades. Recruits are accepted from the ages of 17 to 35 inclusive. Trunk sewers in the southeast portion of the city, in the Peninsula district, in the Fulton Park and Capitol Hill sections, and intercepting sewers on the west, and possibly the east, side would necessitate an expenditure of approxmately \$1,000,000, Mr. Barbur believes. In the districts mentioned trunk sewers are badly needed from a health standdeprive property owners of a means of meeting the large cost involved.

CITY RESERVOIRS INCLUDED Half a million dollars is estimated as the cost of work proposed by Commissioner John M. Mann of the department of public utilities. A huge new reservoir to be located on the west side of the river and one farther out on the east side call for the bulk of the expenditures. Commissioner Mann shows that Portland now consumes 65,000,000 gallons of water per day as against 35, 000,000 as a peak load before, and another reservoir is a necessity for fire protection and insurance of water supply, he maintains.

If anything should happen to one of the two pipes under the river the west side would be in a serious condition, the commissioner declares, and a new and olossal reservoir will provide ample protection, insure a complete supply and raise the fire rating. It will also pre-vent the laying of another conduit, Com-

NEW FIRE STATIONS

Mayor Baker proposes a police station in the central east side, which he claims Portland needs, several new community houses, comfort stations, and improvements to The Auditorium and police station, aggregating an approximate expenditure of \$300,000. Community louses under the tentative plan will be established at Marquam gulch, Sellwood, Albina, the central east side and at other playgrounds. Four or five new comfort stations are also necessary, he believes, as a result of the experiment of those now in Portland.

Six new fire stations and new house and docks for the fire boats are proposed by Commissioner Bigelow. He estimates his improvements to cost \$150,000. New fire houses and docks are necessary, he asserts, because the old ones have almost become fire menaces in themselves. They are totally inadequate for present needs. New stations are proposed at Fourth and Yamhill, Sixteenth and Washington, \$11 Front street near Twenty-second and Nicolai, 1250 Macadam road, and at 1660 East Thirteenth street. A house and new concrete slip will be constructed at the foot of Washington for fireboat No. 1, and a dock and house for No. 2 at Montgomery dock. The house at East Third and Pine may also be moved farther east. REMODEL CITY HALL
