Wonderful Change Noted The change that has come over Eastern Oregon and Washington and Montana since three years ago is striking, according to E. C. Quirk, who has just returned from a visit over this section of the country. "Three years ago traveled over the same region," said Mr. Quirk, "and found the towns were absolutely in a crippled condition. On this trip, to my surprise, the activity was very noticeable and things were moving along in excellent shape. People who came here, attracted by the shipyards, are going back to their towns and everyone in the vicinity was talking and feeling in good spirits. This change was noticeable in both lumber, mining and agricultural occupations and everyone

was optimistic. Crop prospects are ex-

Greeters Do Their Bit The Oregon Greeters were called upon Monday night to assist in the serving at the Victory loan dinner at The Audiwhen it became apparent that there was a shortage of help.
