

COUNT RANTAU IS VERSAILES

German Foreign Secretary Arrives in Seat of Peace Conference.

Versailles, April 29.—(L. N. S.)—Count von Brockdorff-Rantau, German foreign secretary, and other members of the German peace delegation, arrived here Monday night. The German peace mission is now practically complete. The station was thronged when von Brockdorff-Rantau stepped from the train, a tall, thin figure with the harsh features of a typical Prussian Junker. He started when photographers set off magnesium flashes and stood bareheaded while the Prefect Chatelet said very cordially: "In the name of the department of the Seine and Oise and the government of the republic, I have the mission to salute the German delegation in the name of Colonel Henry, head of the allied military mission, which will be attached to you."

CONFERENCE RESULTS DO NOT SATISFY BELGIANS

Paris, April 29.—(L. N. S.)—The Belgian delegates to the peace conference are profoundly dissatisfied with the results attained thus far with respect to Belgium. They today reaffirmed their claims to the larger part of the initial indemnity Germany will be required to pay, totaling \$25,000,000,000. The original award gives Belgium \$5,000,000,000 of this sum. The Belgian delegates declared that there are 800,000 unemployed in Belgium and that while the country is flooded with manufactured articles there are no plans to give their own people employment. The delegates also deplored the fact that Belgium has not obtained satisfaction on any territorial point. Discussion of her claim to Limburg was adjourned. The Belgian demand for freedom of navigation on the Scheldt was also put off and the suggestion for a rectification of the Prussian front giving Belgium territory with which she could bargain with Holland, was flatly rejected. Furthermore, Brussels, as the home of the League of Nations, was rejected in favor of Geneva.

INDUSTRIAL SITE OWNERS AROUSED

(Continued From Page One) erty owners in Portland are responsible for having driven away many industries desiring to locate here by asking unreasonably high prices for their land. It is this true. "For some years, now, Mocks bottom, in the very center of the city harbor, with nearly one mile of deep water frontage capable of being multiplied many times by dredging slips, occupying 400 acres of area, has been and still is offered to the city dock and port commission at the price of \$150,000, or \$125 an acre, 245 years ago \$2500 an acre was asked for the same property. 600 ACRES AVAILABLE "Swan Island containing 260 acres has recently been offered at \$250,000. "The dock commission has alternately talked of dredging Swan Island or of opening the west side channel and closing the east, or vice versa. Meantime the 600 acres of Swan Island and Mock's bottom, vital to their schemes, are unavailable at prices that no other city the size of Portland can duplicate for central water frontage. "The city commissioners are now advocating a scheme for deepening Columbia slough to 20 feet and widening the same to a very inferior width to what obtains in the Willamette river opposite these other properties and purchasing several hundred acres for cheap industrial sites at a figure already estimated at not less than the amount required to purchase Swan Island and Mock's bottom in the inner harbor. WANTS TO KNOW WHY "The dock commission paid a much higher price for the land at the terminal site, three miles below Mock's bottom, than is asked for the latter even at this late date. At the time individual members of the commission de-

clared if only they had the money they would purchase both Swan Island and Mock's bottom. "The owners of Gull's lake, on the west side of Swan Island, some years ago signed in writing their willingness to share in the expense of dredging the same filled and the Port of Portland passed an unanimous decision in favor of dredging out the west side channel and had a survey completed showing 3,500,000 cubic yards to be removed. "Why is nothing done? Why does Portland remain supine while industries like the American Can company, the California Barrel company and the Standard shippers go to Vancouver and the Portland map shows the huge unoccupied area of Gull's lake, Swan Island and Mock's bottom in the very heart of the harbor? TIME FOR ACTION HERE "The time for action at last has come and however meritorious the deepening and widening of Columbia slough may be for sewage purposes it is hardly to be considered seriously with Gull's lake, Swan Island and Mock's bottom in any scheme connected with the harbor development in the light of the above facts. "John B. Yeon, who owns 30 acres or more in Gull's lake, also believes that this district, or the Swan Island or Mock's bottom property would be preferable for harbor development. Gull's lake property can be purchased at prices ranging from \$8000 to \$20,000 an acre for industrial sites. He points out that it is right in the edge of the city, adjacent to the harbor, and that it is available for all transportation purposes, including street car service for employees. "It is like annexing a new addition to Portland to talk of the Columbia slough project," he said. "That is far out of the city and workmen want to live in town. Gull's lake has many advantages over the Columbia slough project."

State Commission Will Inquire Into Strike at Linton

Linton, Ind., April 30.—(U. P.)—Troops were held in their quarters and Linton waded through a tense atmosphere to its work today pending arrival of a commission appointed by Governor Goodrich to investigate the labor troubles which brought martial law here. Eight strikebreaking telephone operators were taken from the job and the local exchange was closed. The commission confers with business men, telephone officials, the striking operators, and the Central Labor union. The meeting was expected to result in settlement of the difficulty which threw the town into turmoil. Miners from surrounding towns Monday night joined the strike, and from Linton in their demonstrations in favor of the strikers.

Grand Army Post To Present Flag

With patriotic ceremony the Grand Army veterans of A. J. Young post and their wives Thursday afternoon will present to the Sellwood branch library a beautiful American flag and will raise the banner on the library's new pole. Mayor George Baker has promised to deliver a brief address and another special event will be the singing of the pupils from three schools, Sellwood, Llewellyn and the St. Agatha parochial school. The presentation will be made at 8 o'clock Thursday afternoon and will mark what the library staff believes is the first flag raising before a branch library in the city.

Reds Said to Be Gaining in Bavaria

Berlin, via London, April 30.—(L. N. S.)—The red guards (Bolshevik troops) are reported to be steadily winning by Bavaria and have captured about a dozen towns in their latest drive. It is feared that the shooting of Communist leader Schmitt at Nuremberg may cause trouble, for he was liked by the working classes. The soviet troops at Nuremberg have begun to erect barricades for their defense.

To Trade Prisoners For Hun Workers

Paris, April 30.—(L. N. S.)—Eight hundred thousand German prisoners of war will be exchanged for the equivalent to the same number of workers to assist in the restoration of the devastated portions of France and Belgium, under the terms of a treaty which was learned this afternoon.

Mooney's Wife to Speak in New York

New York, April 30.—(U. P.)—Mrs. Tom Mooney's wife of the labor leader convicted in San Francisco of perpetrating the preparedness parade outrage there, will address a large gathering of laborers tomorrow night. The meeting probably will take the form of a protest against Mooney's imprisonment.

Victory Bond Sales Over Billion Dollars

Washington, April 30.—(U. P.)—Sales of Victory notes today were officially reported as over \$4,000,000,000. The total is less than one quarter of the minimum for the country and today marks the end of one half of the campaign.

Military Controls State of Bavaria

Amsterdam, April 30.—(L. N. S.)—The entire state of Bavaria has been placed under martial law as the result of conflicts now raging between German government troops and the communists near Munich. Chautauqua Official Name—Gladstone, April 30.—Arthur Beattie, an attorney and recent arrival from Toledo, Kansas, has been chosen secretary of the Gladstone Chautauqua association to succeed Thomas A. Burke, who intended to take up other Chautauqua work.

LUMBER DEMAND FROM EUROPE TO KEEP MILLS OF NORTHWEST GOING

Foreign Trade Expert Declares Demand Will Continue for Next Five Years.

Lumber for export to western Europe will keep all the mills of Oregon and Washington working at capacity for the next five years, according to Roger E. Simmons, foreign trade expert for the department of commerce. Mr. Simmons returned recently from a tour of inspection of the lumber producing sections of Russia and Finland. Sixteen billion feet annually will be the lumber requirement of the countries of western Europe during the next five years, according to Mr. Simmons. The lumber industry of Russia, which formerly supplied 50 per cent of the European market, has been wrecked by the Bolsheviks and vast areas of timber were destroyed during the war. Russia, as a factor in the world market, will require at least five years for rehabilitation. Mr. Simmons went to Russia in June, 1917, as joint representative of the department of commerce and the National Lumber Manufacturers association and had abundant opportunity for observation. He was arrested by agents of the Bolshevik government and sentenced to a term of imprisonment, but was released after spending 11 days in prison. Mr. Simmons will address the lumbermen at a dinner at the Portland hotel and Thursday night will speak to the members of the Loyal Legion of Loggers and Lumbermen at their headquarters at Second and Stark streets.

PRICES TUMBLE IN CHICAGO CORN PIT

(Continued From Page One) over the east and Herbert Hoover's statement that the shipment of food to Europe would go in July. Traders believe there will be no food administration in existence after July 1, and that the market will be free to anticipate a stronger market. The hog market here was affected immediately. Following the Barnes announcement prices dropped 10 to 10c. They opened 10c lower today and the tendency was said to be lower. There was some reduction in wheat flour prices, but it was believed more a partial cause of the break in corn than an effect. Flour prices were expected to stand up for a time, as is reported to have little flour to offer. Increased demands for cash corn from the east, and Herbert Hoover's statement that the last special order of foodstuffs for Europe will leave in July, strengthened grain futures on the Chicago Board of Trade today. Traders interpreted Hoover's statement as meaning there will be no federal supervision of food after July. New buyers were also brought into the market by the heavy drop in prices during the past few days. Provisions followed grain.

WHEAT IS RELEASED FOR DOMESTIC TRADE

Minneapolis, April 30.—(U. P.)—Jainus Barnes, head of the United States Grain corporation, today ordered release of 160,000 bushels of wheat for domestic trade. The action follows his threat in St. Louis Tuesday to end profiteering and speculative grain hoarding. The wheat is owned by the government and stored here in warehouses. It is only a small portion of the government owned wheat held here and which Barnes believes will be sufficient to smash prices and end profiteering.

HEAVY REACTION IS RESULT IN NEW YORK

New York, April 30.—(U. P.)—The heaviest reaction the New York stock market has experienced in 10 days of unusual activity came during the second hour of trading today when declines ran to an average of three points. The break started with Steel common and spread through the industrials. Support was thin. Steel common broke through 98, for a loss of more than three points. Mexican Petroleum fell four. Royal Dutch dropped three. General Motors yielded nearly five points from the high. Last market traded. While the decline was on there were a few bright spots, such as Manhattan shirt, which touched a new high at 111. Rails were inactive.

Mooney's Wife to Speak in New York

New York, April 30.—(U. P.)—Mrs. Tom Mooney's wife of the labor leader convicted in San Francisco of perpetrating the preparedness parade outrage there, will address a large gathering of laborers tomorrow night. The meeting probably will take the form of a protest against Mooney's imprisonment.

Victory Bond Sales Over Billion Dollars

Washington, April 30.—(U. P.)—Sales of Victory notes today were officially reported as over \$4,000,000,000. The total is less than one quarter of the minimum for the country and today marks the end of one half of the campaign.

Military Controls State of Bavaria

Amsterdam, April 30.—(L. N. S.)—The entire state of Bavaria has been placed under martial law as the result of conflicts now raging between German government troops and the communists near Munich. Burke, who intended to take up other Chautauqua work.

Cable Service Is Improved but Delays Not All Removed

Delays in cable service to foreign countries have been minimized so that the following are announced as normal delays by the Western Union Telegraph company: "Service to Great Britain, Scandinavian countries, to Central and South America, and to Australia is without delay. Messages for France, Italy, Switzerland and Spain are being sent beyond London part way by post because of interruption of channel cables. Messages for the Far East via the Pacific are subject to about six days and via the Atlantic, from seven to eight days' delay."

ITALY IS UNITED IN DEMAND THAT FIUME MUST BE RETAINED

Formal Act of Annexation Cannot Be Long in Coming, Is Belief.

Special Cable to The Journal and The Chicago Daily News. (Copyright, 1919, by Chicago Daily News Co.) Naples, Italy, April 30.—Italy is united with a single flame. Never before, for united Italy, has the country been so united. Fiume, Italy, and Italian and Italians in the streets are calling for volunteers and manifesting their sentiment in a slogan translatable into "Fiume or I die." The Italian provisional government, General Grazioli, who naturally refused, while waiting for the formal act of annexation by the Italian government. This cannot be long in coming. Never before have modern Italians been so self-satisfied. The enthusiastic crowds which greeted Orlando applauded their representatives, yes, but they mostly applauded themselves. For Italy has done something "historic." Italy has practically defeated the most powerful ruler in the world and yet risks next to nothing. The newspapers carefully assure the people that a curb on the market, off the food supplies, the Jugo-Slav war, fight, but their chance of success unaided is zero. If President Wilson supported the Italian cause, the people would be less than their Paris delegates claimed, then the president erred. PEOPLE BECOME EXTREMISTS Today the people would go farther than the government. Today the people would go any length and can only be restrained by the government, unless the government acts prudently. Today's difference of opinion may easily become a breach so wide as to engulf not only the League of Nations, but the results of the allied victory. Perhaps this fact is understood by those who are most enthusiastic for the return of the delegates. It is necessary to remember that the Italian newspapers have during the conference constantly assured the country that it was pressing for the return of certain of acceptance. They have done everything possible to undermine confidence in the League of Nations. It is said by those who are well informed already broken his principles by permitting France to exploit the Saar basin, in recognizing Britain's rights in Egypt, in not pressing for the freedom of the seas and granting Danzig to the Poles. According to the Italian journals, all the other nations have realized their claims. ITALIANS NOT INFORMED The Italians are not informed concerning the real attitude of their delegates during the negotiations, nor the reason why President Wilson published his note. I believe that President Wilson failed completely to understand Italian psychology. The Italian is an inveterate bargainer, yet even Baron Sonnino must have seen the discrepancy between claiming Fiume on the principle of nationality and Dalmatia for defense. Consequently I believe that Italy would have yielded Dalmatia with proper guarantees for the Italians in the cities, but no government in Italy could concede Fiume and last 10 minutes. The Italian never Fiume because of Trieste, but every Italian has drunk in love for his Italian brothers there with his mother's milk. In this point lies a chance for a compromise. In the meantime the Italian newspapers are still time the Italian newspapers who in three days, in their opinion, passed from the most popular to the most unpopular man in the world. Naturally all the skeptical and former Germanophile writers are saying "I told you so." Even the greatest friends of the president believe him to have been led astray by the Jugo-Slav. An attempt is made to show that the American people are against President Wilson, and all the attacks on him in the American newspapers are sedulously quoted. Yet who shall say from the attitude of the Italians today what it will be tomorrow?

ASSAULT AND BATTERY CHARGE FILED AGAINST OWNERS BY TENANT

Landlords Ask That Similar Charge Be Placed Against Tenant.

H. J. Eisaman appeared today before Deputy District Attorney Dempsey and asked that a complaint charging assault and battery be sworn out against Charles Schultze and his sister, Mrs. Bertha Fick, owners of a house and lot in Hillside, occupied by Mr. Eisaman. Shortly after Mr. Eisaman's appearance in the district attorney's office Mr. Schultze and Mrs. Fick walked in and made a like charge against their tenant. The landlord and his sister bore signs of an affray. Their story was that they were beaten up by Eisaman because they had remonstrated with him for cutting up a log on their premises. Eisaman's tale was to the effect that while he was cutting up the log in question, Fick hit him over the head with a tin can and Schultze attacked him with a monkey wrench. The complaint was issued on behalf of the tenant.

Woman Sues Hotel

Lulu McCullough filed a \$5000 damage suit today against the Leroy hotel on George Taylor, the manager. Miss McCullough alleges that on April 20 she was unceremoniously ejected by Mr. Tackes on the grounds that her presence jeopardized the good reputation of the hotel.

San Francisco to Have Big Part in Trade With Orient

San Francisco, April 30.—(U. P.)—Expansion of the China Mail Steamship company and participation in transpacific trade through operation of four new big liners between San Francisco and the Orient is the plan of stockholders in China. Lo Lok Chal, head of the China Mail, is here today from China to confer with American stockholders. The proposed program includes construction of four large express steamers to maintain a weekly or bi-weekly service. All of these vessels will be of American registry. In addition, the company plans to operate scores of smaller steamers on the American and Asiatic coasts as feeders in getting business to compete with Japanese interests in transpacific business.

Women Will Phone Final Summons to Subscribe to Loan

As one of the big stunts of the whirlwind finish of the Victory push in Portland a great corps of girls and women is being marshaled under direction of Mrs. J. G. Frankel, president of the City Federation of Women's Clubs, to call 20,000 to 30,000 residents by telephone and remind them that the last chance to subscribe is at hand. Details of the stunt have not been fully worked out. That it will be carried through, however, was the assurance this morning of the publicity bureau. It is hoped to put a lot of "pep" into the winning campaign that will result in some new pledges and many increases by citizens who are enthusing over the prospect of being able to put Portland over the top as the first city on the Pacific coast to meet its quota.

CARTER'S LITTLE PILL FOR CONSTIPATION
Small Pill Small Dose Small Price
FOR CONSTIPATION
Have stood the test of time. Purely vegetable. Wonderfully quick to banish biliousness, headache, indigestion and to clear up all complexion. Genuine bears signature *Dr. J. C. Carter*

Portland Will Assist Rose Festival by Contributing \$2500

Business men led by Ira L. Riggs appealed to the council this morning for an appropriation of \$2500 toward the financing of the Victory Rose Festival, June 11, 12 and 13, but Commissioner Bigelow swung the tide to a compromise fund of \$2500, the amount the city has given past festivals. Mr. Riggs besought the council to double the appropriation this year, on the ground that the festival is to be not only a tribute to the rose, but a royal welcome to the returned service men. Mr. Riggs and his adherents said "Thank you," and the council moved on to the next order of business.

Eight-Hour Day for Express Employees Effective Thursday

Beginning Thursday morning, the office of the American Express company will open at 8:45 a. m. and close at 5:30 p. m. A recent ruling of the federal government granted the eight hour work day to employees of the company, and the hours of men employed in the Portland office will begin at 8:30. Overtime work will be paid as straight time for the first two hours, and time and one-half for all over two hours in any one work day. The new ruling affects about 250 employees in Portland and more than 125,000 throughout the country, according to Mr. Waring. Mr. Waring began his career as an employee of the American Express company in 1885, and declares that the hours worked by employees at that time ran from 12 to 14 a day, but that the volume of business handled per capita was not 50 per cent of the amount handled in eight hours today.

Card of Thanks

We wish to thank our friends for the kindness shown us during the illness and death of our beloved husband and father, also for the beautiful floral offerings. Mrs. J. D. Moody and family.

An Inferno of Flying Wheels.

GIANT BATTLESHIP GLIDES INTO WATER

Superdreadnaught Tennessee, the World's Largest Fighting Ship, Is Launched.

New York, April 30.—(L. N. S.)—The battleship Tennessee, the world's largest fighting ship, was successfully launched at the Brooklyn navy yard at 9:45 a. m. today. The giant superdreadnaught left the ways as gracefully as a swan, gained momentum as she glided downward and dipped into the East river with a tremendous splash to the roaring of hundreds of whistles from harbor craft and cheers of thousands of spectators. Miss Helen L. Roberts, pretty 18-year-old daughter of Governor A. H. Roberts of Tennessee, christened the "monster." Despite the fact that Tennessee is a dry state, and that both she and her father are ardent prohibitionists, champagne was used in the ceremony. She broke a bottle against the bow as the Tennessee slid off, and said: "I christen thee Tennessee." Sixty-five thousand persons saw the launching. Thousands were in the navy yard, other thousands were on roofs of buildings and factories near the yard and hundreds climbed cranes and derricks. Miss Roberts stood on a little platform which had been built for the launching party. She wore a white tailor-made gown of wool with black fur around the neck, a big picture hat trimmed with white fur and white ribbon, and carried an enormous bunch of American beauty roses. On the platform with her were her father, Assistant Secretary of the Navy Franklin D. Roosevelt, Rear Admiral James H. Glennon, commander of the Third navy district, and Captains A. W. Johnson, aide to the commandant, who was in charge of the launching. Navy tugs surrounded the Tennessee as she settled in the water and made her fast alongside the battleship New Mexico, where she will remain until completed. The Tennessee displaces 32,300 tons and represents several innovations in warship construction. She is said to be practically unsinkable and invulnerable against torpedo attack. Her main battery will consist of 13 14-inch guns in four turrets.

Edith G. Beck Sues Divorce

Edith G. Beck filed suit for divorce today from H. M. Beck. Alleging that other women and "dances" had broken up her home. Hans Loughrin charges Ross V. Loughrin with desertion.

Colds, Coughs and Grippe
BY DR. SAMUEL HAMILTON
Commonly the first symptom of a cold is a itching feeling, accompanied by sneezing or a tickling in the throat. The most frequent causes are getting wet or cold feet, or going from hot rooms suddenly into cold ones, catching cold from contact with other persons in crowded street cars or assemblies. Frequently there is an inner cause, namely, the stagnation of the blood, caused by constipation or biliousness. No one ever takes cold unless constipated or exhausted, and having what we call mal-nutrition, which is attended with impoverished blood and exhaustion of nerve force. There is a continual absorption of poisons into the system, nothing better than Castor Oil, or this there is called into sugar-coated pills, and sold in every drug store as Dr. Pierce's Pleasant Pellets. It is the common practice of every doctor in the land to give a good purgative in any case where he cannot be sure of what will develop. The first thing to do on the market fifty years ago. This contains no alcohol but does contain wild cherry bark, colchic, Oregon grape root, and other botanical extracts which are not only good for the system, but it offers a scientific method of treating the blood by improving the nutritive functions of the patient. The "Medical Discovery" accomplishes this by first restoring the enfeebled digestive organs, so that food of the natural tissue builder—will be digested and taken up and assimilated by the system. There is nothing better for diseases of the stomach, lungs and blood than this old remedy which every druggist keeps in liquid or tablet form.

The Miracle of Milk
DRINKING YOUR WAY TO HEALTH
Did you know that MILK is the greatest unpatented medicine, a truly scientific cure-all, a legitimate panacea for the conquest of more diseases than can be genuinely accredited to any other healing agent known to man? These are strong statements, but milk is a strong fluid, a life-giving, strength-building food medicine for the ailing adult as well as the helpless babe.
The milk diet, INTELLIGENTLY used, is a cure for anemia, constipation, indigestion, and all manner of diseases of the stomach, liver, kidneys, heart, bladder, etc. Rheumatism and many other ills for which no reliable medical cures are known, are being cured today by the right use of milk, the great food-medicine.
If you or any members of your family are among those 90% of the population that systematic examination shows to be other than in perfect health, then open it to yourself to get the **MILK DIET** of PHYSICAL CULTURE Magazine and learn from the pen of one of the world's most experienced physicians in milk diet, how to use milk. This article will surprise and amaze you. Read it by all means, and the skeptical and former Germanophile writers are saying "I told you so." Even the greatest friends of the president believe him to have been led astray by the Jugo-Slav. An attempt is made to show that the American people are against President Wilson, and all the attacks on him in the American newspapers are sedulously quoted. Yet who shall say from the attitude of the Italians today what it will be tomorrow?
