Dr. Estella Ford Warner of Portland Unable to Reach Siberia Because of Weather.

THE most frequented spot in the whole of the Petrograd hotel, the Y. W. C. A. hostess house in Paris, is the corner of the office where the mail boxes are. Each room has a box and the occupant of every room is living away from her home so she watches the mail box

after every delivery.

But there are two women staying at the Petrograd who never go near their mail boxes. They are Miss Lillian Hull of Rochester, N. Y., and Dr. Estella Ford Warner of Portland, Or. The address they had given their friends and relatives a few weeks ago when they left America was Archangel, Russia. And that is where all their let-

ters are going. But they are in Paris and likely to be for some time. They were sent by the American Y. W. C. A. to join a party of five women who were leaving France for Russia. They got as far as England, but political and weather conditions of Russia prevented them getting passage to Russia. Consequently they all came back to France and joined the French staff

"In the course of time all our relatives and friends will have received word from us that we are not in Archangel, and in a few more weeks we may begin getting mail. But just now there's no use even looking in the box," said Miss
