

OLCOTT APPOINTS TAX COMMISSION

Farrell, Hurlburt and Day Members of New Body; Advisory Power.

Salem, May 6.—Governor Olcott Monday announced appointment of J. D. Farrell, W. H. Hurlburt and L. N. Day as members of the tax supervising and conservation commission for Multnomah county, created by the 1919 legislature. The appointments were made by Governor Olcott on the recommendation of the taxpayers' committee of 100, of Multnomah county. No commission is allowed members of the commission, but \$2500 a year for clerical help and other assistance is available.

Multnomah county commissioners are required to furnish office room for the commission, either in the courthouse or at another convenient place, and the public is to have access to its records. An accurate account of public moneys expended during the year is required of the commission. Originally the bill provided that members should be elected by the legislature and that they should serve four years, their terms beginning the first day of April following their election, the first commission to be elected by the 1919 legislature. As it appears in the session laws, members are to be appointed by the governor, serve four years and take office on the first Monday in June.

The commission has advisory jurisdiction over all county school boards, common councils of municipalities, and all other public and quasi public corporations which have power to levy taxes upon county property.

No Vote on Herd Law Until 1920

Pendleton, May 6.—The referendum on the herd law enacted by the last legislature and applying to Umatilla county, cannot be voted upon until the next general election November 1920, according to a decision given by Attorney General Brown in answer to a request from District Attorney R. I. Keator.

Telegram of Success Finds Inventor Dead

Chicago, May 6.—(U. P.)—Success was a trifle tardy in coming to Henry Heald today from hanging. He had just sent a telegram to his father, who had just died, announcing that he had invented an automatic gas lighter and begged himself on advertising, was found dead in his room by a housekeeper, bearing a telegram calling for a large number of fixtures by a large gas

MRS. OLSON SAYS SHE WOULD GASP FOR HER BREATH

Four Years' Indigestion Relieved by Tanlac—Gains 25 Pounds.

"The past winter is the first one I have gone through in five years without a serious illness and I give Tanlac the credit for keeping me well," said Mrs. Dilena Olson, residing at 2435 Warsaw street, Seattle, a few days ago, in a statement in which she mentioned the gain in weight of 25 pounds. "For the past four years," she continued, "I had suffered terribly from indigestion and disordered kidneys. I would bloat so after eating that I would have to loosen my clothes and the gas would press on my heart until it would thump and beat so hard you could almost hear it. I dreaded to go upstairs as I was afraid I would never get to the top, and these spells would come on me even when I was not exerting myself in the least. Sometimes while sitting in a chair this awful palpitation would come on and I would simply have to gasp for breath. I was forced to live on the lightest kind of food—no meats or vegetables—just fruit and water. Many a time, after a very light meal, I have been seized with terrible gripping pains that would not draw me double, and I suffered almost constantly with headache. "My kidneys and bladder also bothered me a great deal and my back couldn't have hurt me much worse if someone had bent me with a stick. I also had rheumatic pains all through my body and there was a dull, aching pain in my arms and legs all the time. My complexion was pale and yellow and I had lost weight until I didn't look like myself. Naturally my nerves got into a frightfully shattered condition and I hardly knew what I was doing or what the greater part of the time I could not do one bit of my housework and was often right down in bed for a week or often a time. Then when the influenza epidemic came on I was taken down with this trouble and was left in worse condition than ever. "Then I began taking Tanlac, as it was so highly recommended, and it has built me up and put my whole system in good condition. My stomach is now in such a good condition that I can eat all kinds of meats and vegetables or just anything else, without suffering a particle from shortness of breath or any other disagreeable feelings afterwards, and my appetite is just fine. I can go up and down stairs now as easily as I ever could and all my headaches have left me entirely, and my kidneys never bother me at all. My nerves are strong and steady and I sleep every night like a child. My complexion is clear and healthy looking and I simply feel like a new person, have gained twenty-five pounds, weigh as well as my friends say I haven't looked so well in years. I will always praise Tanlac for giving me my health back. Tanlac is sold in Portland by The Owl Drug Co.—Adv.

Boy of Nehalem Is Pneumonia Victim

Nehalem, May 6.—James Reddaway, oldest son of Mr. and Mrs. W. M. Reddaway, died at his home in Nehalem Friday of pneumonia, following an attack of grip or influenza. He was born 18 years ago in this city and had resided here all his life. Three weeks ago he left for Alaska but took sick in Seattle and returned home. He is survived by his parents and a younger brother, Floyd.

Ten Months' School Term in Pendleton

Pendleton, May 6.—Instead of the nine months school session which has been the rule heretofore, Pendleton will have 10 months of school next year, according to the decision of the school board. This applies to both the grammar and high schools.

New York Suffers From Hottest May Day Ever Recorded

New York, May 6.—The hottest May day New York ever suffered from previously was like an afternoon's stroll in the shade compared to the one New York sweated under Monday. At 2:30 in the afternoon the thermometer registered 85 degrees, beginning its abrupt climb at 11 o'clock, when it was 78. The perspiring populace made a mad dash for the haberdashery emporiums and by noon Manhattan was blooming with straw "kellys" several days before the sartorial customs set for their appearance. But no courage was required today to wear these, and white flannels were reported to have been worn.

Thunder storms last evening broke the heat. Weds in Shoshone, Idaho. Freewater, May 6.—Miss Hazel Taylor, daughter of Mr. and Mrs. I. Taylor, was married in Shoshone, Idaho, to Burl Samuels, son of Mr. and Mrs. C. R. Samuels of Milton.

HAWLEY LEAVES FOR WASHINGTON

Believes Astoria Will Get Base for Americanization of Canal and Against Asiatics.

Salem, May 6.—Congressman W. C. Hawley left Monday afternoon for Washington, D. C., to attend the special session of congress which he believes will be called shortly. Before leaving, Mr. Hawley declared that he believed a fully equipped naval base will be established at Astoria and that river and harbor improvements for Western Oregon will be adopted as rapidly as reported favorably by engineers. "I intend to bring up again the matter of Americanization of the Panama canal," said Mr. Hawley. "American enterprise, engineers and money built the canal on American soil, and there is every reason in the world why it should be operated in the interest of American producers and shippers. "I will oppose immigration of Asiatic races to the Pacific coast, and believe an amendment to existing immigration laws should be made that will cause the selection of persons to be admitted into United States to be made by American consuls or through other American officials abroad, before they are allowed to embark for the United States."

AIRPLANES ARE HELD FOR PEACE SERVICE

Washington, May 6.—(U. P.)—The war department is holding at present a good supply of airplanes and aviation equipment, Acting Secretary Crowell announced Monday, so as to be ready to organize the air service to meet any possible peacetime army needs.

Sid Chapin in Collision. Atlantic City, N. J., May 6.—(U. P.)—Sid Chapin, brother of Charlie, narrowly escaped injury here Monday when an airplane in which he was riding along the ground collided with the automobile which had brought him to the field.

FOREIGN CONTRACTS TO BE AUTHORIZED

Shipping Board May Take Action to Allow for Work for Outside Concerns.

Washington, May 6.—(WASHINGTON BUREAU OF THE JOURNAL)—Chairman Hurley of the shipping board Monday confirmed information received by The Journal Saturday that steps are contemplated to permit steel shipyards to take contracts on foreign account. Details are not available and a formal statement of purpose may be expected later. Hurley merely indicated that plans along this line are expected to go through. The inference is drawn that the government will establish certain requirements to prevent interference with the American building program of big fast ships. Confidence is expressed in shipping board circles that American yards capable of efficient work on large types of vessels will be kept busy for a long time to come.

Secretary Baker To Witness Parade

Washington, May 6.—(U. P.)—Secretary of War Baker will remain over in New York to witness the parade of the 77th division. Acting Secretary of War Crowell stated Monday afternoon. He arrived at New York today on the transport George Washington, which entered the bay at 4:55 p. m.

Trial of Dr. Wilkins Set. Mineola, L. I., May 6.—(I. N. S.)—The trial of Dr. Walter Keene Wilkins, charged with the murder of his wife at Long Beach, was set Monday for the first Monday in June.

How You Can Make Hairs Quickly Disappear

(Helps to Beauty) Even a stubborn growth of hair will quickly vanish from the face, neck or arms after a single treatment with delatone. To remove the hair, make a stiff paste with a little powdered delatone and water, apply to hairy surface and after about 3 minutes rub off, wash the skin and it will be left free from hair or blemish. To avoid disappointment, be quite certain you get real delatone.—Adv.
