

BARRED DOORS ARE TORN FROM HINGES IN RAID BY POLICE

Acting Under Personal Orders From Mayor Baker, Police Clean Out Resorts.

SEVERAL ARRESTS ARE MADE

Signalling Devices Are Torn Out and Plate Glass and Interior Fittings Are Smashed.

Acting on the personal orders of Mayor Baker Wednesday night, 20 policemen armed with crowbars, sledge hammers, fire axes and chisels, descended on Chinatown, on the gambling resorts in so-called social clubs in office buildings, and on negro resorts in the north end, and inaugurated a campaign for the enforcement of the new "barred door" ordinance. A score of heavy barred doors were torn down in Chinatown, the interior of the Manchester club, in the Manchester building, 85 1/2 Fifth street, was wrecked, buzzers and signalling devices were torn out and dozens of persons arrested for violating the new ordinance.

After a long conversation with Chief Johnson, the plain clothes men, who had been looking for the sign of the evening, suddenly sprang to activity. One detail led by Chief Johnson and Lieutenant Thatcher visited the Manchester club, battered their way through barred doors, smashed plate glass doors and interior fittings, and arrested the proprietor, and two employees.

CHINATOWN VISITED

Those arrested here were Clarence Blaser, Frank Stone and Frank Miller. Other details, led by Sergeant Clement and officers familiar with the location and dens of Chinatown, visited that section. In Chinatown the work was particularly sensational. Crowbars were piled, heavy sledge hammers swung and chisels and hacksaws employed in the work of tearing the offending doors from their hinges. Details of trustees from the city jail worked at loading the doors into the patrol wagon and a heavy truck. Automobiles were used in carrying the proprietors of the resorts to the police station. Residents of Chinatown stood about on Fourth street, shrugged their shoulders and watched the work of destruction with little apparent interest.

The Chinese places raided included those of Lee Kee, 107 1/2 North Fourth street; Lee Yeak, 97 North Fourth street; Guey Hee, 85 North Fourth street; San Long, 101 North Fourth street; Sue Jim, 17 North Fourth street; Jim Lee, 39 North Fourth street; Lee Yoo, 41 North Fourth street; Kooing Mow Hing, 63 Second street; Chung Kae, 31 North Fourth street; Ah Sing, 87 1/2 Second street; Ah Sing, 91 Second street; G. Chin, 31 Second street; Ah Chin, 35 Second street; Ti Sing, 81 Second street; Stanley, 31 Second street; Ma Lin, 91 Second street; Wing Lee, 93 Second street, and Ti Lee, 95 Second street.

All defendants are out on \$50 bail each.

MANY DOORS CAPTURED

The garage at police headquarters this morning was piled high with doors torn from hinges in these resorts. Nothing but doors was disturbed during the raids, but the collection of these in a motley.

Chief Johnson was planning to start for The Dalles with detectives to help round up the Washougal bank robbers when the mayor ordered the gambling house raids.

The Flow of Meat

Two-thirds of the live stock in the United States has to be raised in the West.

One-half of the consumers of meat live in the East.

In other words, most of the live stock is one or two thousand miles distant from most of the people who need it in the form of food.

Fifty years ago, when live stock was raised close to every consuming center, the country butcher could handle the job after a fashion.

But the job got too big.

Now millions of animals have to be moved hundreds of miles to millions of people. Somewhere on the way they have to be turned into meat.

The packers solved the problem. They set up plants where the "live haul" and the "meat haul" were in the right balance. They eliminated waste. They built up distributing systems—refrigerator cars, refrigerating plants, branch houses. They saved time, money and meat everywhere. The stockraiser benefited in better markets and higher prices; the consumer, in better meat and lower prices.

As the country grew, the packers had to grow, or break down. Because of its present size and efficiency, Swift & Company is able to perform its part in this service at a fraction of a cent per pound profit.
