

DAIRY AND MILK INSPECTORS WILL MEET THIS WEEK

Annual Convention Will Be Opened With Address of Welcome by Mayor G. L. Baker.

LONG PROGRAM PLANNED

Sessions to End With Banquet at Portland Hotel and Trip Over Columbia Highway.

The Pacific Northwest Association of Dairy and Milk Inspectors will open its annual convention at the Portland hotel Thursday morning, with an address of welcome by Mayor George L. Baker.

Membership in the association includes milk and dairy specialists from Oregon, Washington, Idaho and Montana.

J. E. Dorman in charge of western dairy investigation for the U. S. bureau of animal husbandry, will give some factory health officer, will speak on "The Unregulated Dairy—A Health Menace."

Talks will also be given by J. D. Mickie, state dairy and food commissioner, and P. M. Brandt, professor of dairy husbandry, Oregon Agricultural college.

OTHER ADDRESSES SCHEDULED

Thursday afternoon, W. V. S. Robb of the Hollywood farm near Seattle, representing the Milk Dealers' association, will criticize dairy and milk inspection as conducted in the Northwest; C. F. Hoyt, market milk specialist of the department of agriculture, will talk on "Some Practical Things the Inspectors' Association Might Do," and Dr. R. A. Button, chief dairy inspector at Tacoma, will tell of his city's experience in milk inspection.

PROGRAM FOR FRIDAY

Addresses will be given at Friday's session by John M. Mann, Portland's commissioner of public utilities; Dr. R. J. Donohue, chief of dairy and livestock in Washington; Dr. F. E. Smith, chief dairy and milk inspector at Seattle; Dr. F. E. Moore of Portland and P. S. Lucas, assistant professor of dairy manufacturing at O. A. C., in the morning.

In the afternoon Dr. John B. Anderson, commissioner of health for Washington; A. E. Westcott, president of Oregon State Dairymen's association; Dr. W. H. Lytle, state veterinarian, and E. G. Woodard, professor of dairy husbandry at Washington State college, will give addresses on subjects of interest to the profession.

A banquet will be served at the Portland hotel Friday night and on Saturday the convention will end after a trip over the Columbia highway.

Churchmen Oppose View of President

St. Louis, May 21.—(U. P.)—Expressions of regret that a "ruling elder" and "fellow churchman" should recommend to congress repeal of part of the war-time prohibition act was contained

Look out for your health this Spring!

My father is sixty-nine, while I'm only forty-five. Yet during our jaunt this Spring, his strength and agility seemed as good as mine and his wind much better. And my wife certainly has more "off days" than my mother. Comparatively speaking, the older folks are in considerably better condition than we younger ones. They have taken Gude's Pepto-Mangan regularly for a good many years. It helped them so much that I believe I'll try a bottle this Spring and persuade my wife to try it, too.

Gude's Pepto-Mangan

"The Red Blood Builder"

People of all ages whose falling health is due to poor blood should by all means try this splendid general tonic, appetizer, blood purifier and reconstructive. It supplies the blood with just the elements it needs. It braces up, boosts up, tones up the system, breaks up, increases the number of red blood cells and their capacity to carry nourishment to every cell and tissue. Gude's Pepto-Mangan is easy to digest, exceedingly pleasant to taste. Poor-blooded and run-down people, universally endorsed and prescribed by the medical profession.

FRIENDLY WARNING
 There is only one Pepto-Mangan and that is Gude's. Hold in bottle and package as shown. Beware of cheap imitations, sold by drug stores everywhere.

Pepto-Mangan is made only by M. J. BREITENBACH CO. Manufacturing Chemists, New York

PROFITEERING AND ESPIONAGE HIT AT BY GRANGE HEAD

Anarchy and Bolshevism Also Denounced by C. E. Spence in Opening 46th Convention.

SUBSIDIZED PRESS DANGER

State Master Urges Cooperation Among Farmers and Suggests Many Possible Betterments.

Hillsboro, May 21.—The menace of the espionage measures, of profiteering and anarchy and Bolshevism were pointed out by State Master C. E. Spence at the forty-sixth annual session of the Oregon State Grange, which opened here Tuesday.

The dock commission selected a site subject to extraordinary switching charges and involving excessive loss of time to workmen going to and from the terminal when by securing one of several other available sites close to the city the switching costs and delays could have been avoided.

The elevator was authorized by the people with the expectation that it would be vital to help handle the grain until after subsideance had given no assurance the elevator will be ready for 1919 wheat or even for the crop of 1920.

Support of the proposition that the site was not tested sufficiently is contained in the majority report of the advisory engineers employed by the dock commission after the subsidence of the grain elevator buildings began.

"From a study of the test piles we find from the information furnished us that there were 14 driven. These were fairly well distributed over the surrounding area.

Attention is called to the fact that these test piles ranged in length from 49 feet 4 inches to 101 feet and that the penetration of these piles went to a maximum of 78.8 feet or to an elevation of minus 70 feet.

"In several instances that even with these long piles the penetration under the last blow of the hammer which hammer was falling as much as 25 feet was too great to warrant the conclusions under these circumstances that piles of even this length would safely carry the load of 25 tons each through a soil of this character when grouped as closely as they were under these structures.

We find that the piles as actually driven under the storage annex (elevator bins) range from 40 to 45 feet in length and we were unable to understand why this length of pile was selected rather than a longer length.

"It is our opinion that the test piles driven should have indicated the necessity for a further investigation as to the bearing power of the soil upon which the buildings were to be erected.

"In addition to the test piles driven there were certain borings made to determine the character of the subsoil. These borings were not made, however, until after the subsidence was known to have started and the information which these borings furnished was not conclusive largely because of the way in which the samples were removed from the pipes, but we feel that they were sufficient to indicate a subsoil of considerable fluidity which again would seem to indicate the necessity of obtaining more information."

LOSS TIME CLAIMED

he believes unassailable proof supports the following:

The grain elevator was placed without proper preliminary testing of the foundation; the commission and its engineer were warned that borings should be made in advance, but borings were not made until after subsidence had commenced and then showed a considerable degree of fluidity in the soil under the elevator.

The dock commission transacted all important matters, including the purchase of the site and the consideration of the report of the advisory engineers, at public meetings from which even newspaper representatives were excluded.

The elevator was authorized by the people with the expectation that it would be vital to help handle the grain until after subsideance had given no assurance the elevator will be ready for 1919 wheat or even for the crop of 1920.

Support of the proposition that the site was not tested sufficiently is contained in the majority report of the advisory engineers employed by the dock commission after the subsidence of the grain elevator buildings began.

"Safety Islands" Authorized for City by Council

Silent policemen, properly known as "safety islands," will be tried out on outlying streets in Portland with the hope that they will prove effective in controlling traffic in such districts.

The city council this morning authorized experiments with two "safety islands" and they will be installed at outlying intersections at once.

SUFFRAGE CARRIED BY VOTE OF 304 TO 89

Paired—Green, Vermont, against, with Graham of Pennsylvania and Sullivan of New York for; Ramsey of New Jersey, against, with Scully of New Jersey and Dooling of New York for.

The following were recorded as absent: Kreider, Pennsylvania; Brumbaugh, Ohio; Burke, Pennsylvania; Caldwell, New York; Caraway, Arkansas; Conolly, Texas; Crago, Pennsylvania; Du-

pre, Louisiana; Edmonds, Pennsylvania; Gallivan, Massachusetts; Glynn, Connecticut; Gould, New York; Hammill, New Jersey; Radcliffe, New Jersey; Humphreys, Mississippi; James, Michigan; Kahn, California; Kelly, Pennsylvania; Larsen, Georgia; Lee, Georgia; McPherson, Missouri; Morin, Pennsylvania; Olney, Massachusetts; Quinn, Massachusetts; Snel, New York; Thompson, Oklahoma; Dale, Vermont; Smith, Idaho, and Gillett, Massachusetts.

CHAMP CLARK CHEERED
 The most bitter opposition was offered by Representative Fecht of Pennsylvania who charged that the resolution "was fostered and forced" by representatives from Western states.

"I pity the men who come from Pennsylvania, New York and Ohio, who have to vote for this amendment," said Fecht. "They are not for it, but they are forced to vote for it by political exigencies."

Champ Clark was given a long ovation from both sides of the chamber when he spoke in favor of the amendment.

"I do not believe that woman suffrage is going to precipitate the millennium," the former speaker said, "nor do I believe it is going to damage the American institutions to such an extent as some of its opponents believe it will. I believe that my wife and daughters are as fit to vote as any man and I would be ashamed to raise a daughter that wasn't."

Representative Mann, who has engineered the present drive for suffrage, spoke but a few minutes.

Large numbers of women began to fill the galleries of the house early this morning. Despite the efforts of doorkeepers and guards, women smuggled lunches into the galleries and came prepared to stay in the galleries until the measure was finally passed.

Representative Little of Kansas opened the debate for those favoring the amend-

Train to Be Reestablished

Messages were received by railroad officials in Portland reaffirming the establishment of the Broadway limited on the Pennsylvania lines, the first train to leave Chicago May 25. The administration decreed that this train should be replaced some time ago but a counter-order for which there was no explanation rescinded that order.

"Listen!" says the Good Judge

"And remember it, too." The better the quality of your chew, the more you'll enjoy it.

You'll get more out of your tobacco money, too—you'll save part of it for something else. A small chew of this quality tobacco tastes good—and it lasts and lasts.

CITY WILL APPEAL IN FIVE CASES

(Continued From Page One)

er the city could adopt a policy of refusing to pay more than the assessed valuation. They could not do this, was the answer.

"If people want to do the right thing they can make a reasonable offer similar to that made by the O. W. R. & N. in the Marquam gulch cases," asserted the mayor. "The company made us an offer, we made them one at the same time, and they accepted it."

"I suggest that we warn people that we will take no more property unless the price is just," Commissioner Bigelow heatedly stated. "If we file this appeal I am of the opinion that people will make us reasonable offers."

MAYOR COMMENDS JOURNAL
 "I believe we should appeal, but we must have the Marquam gulch property," the mayor explained. "We already have part and we must complete the job. Furthermore, it is the gateway to Terwilliger boulevard. And here I want to commend the Journal for bringing the matter to the attention of the council and condemning it for waiting so long. But the council is anxious for constructive criticism."

The city will appeal the following verdicts rendered by a jury for Marquam gulch property.

House and lot owned by Sabatino and Maria Petrecco, \$4100.
 East 80 feet of lot 4, block 72, Caruthers addition, owned by Luigi and Ermilda Buzzelli, \$3400.
 Parcel No. 7, owned by Gustav Scheel and Rosina Medie, \$6000.

Lot 5, block 72, Caruthers addition, owned by C. P. Smith, Tony Donatate, Rose Donatate and V. A. Avery, \$2250.
 West 26 feet lot 4, block 72, owned by Leonard and Marie DiCristoforo, \$3500.

Plan Presented to Save Liberty Bond Holders From Loss

Washington, May 21.—(U. N. S.)—A plan to save from loss subscribers to Liberty loan bonds who may be forced to sell was presented by Representative Husted of New York, in a bill introduced in the house today.

The secretary of the treasury was directed by the bill to exchange for bonds of the Liberty loan issues, except the first issue, unconverted, and the Victory loan, a long term bond free from all taxes, except estate and inheritance taxes, bearing interest at 3% per cent per annum. The exchange privilege is to be restricted in amount.

Chicago Tribune Agrees
 Chicago, May 21.—(U. N. S.)—Chicago Tribune—"We agree with the president that congress should repeal the law."
