

CAPTAIN KANZLER WILL BE JUDGE IF COURT LAW HOLDS

New Head of Domestic Relations Court for Multnomah County Picked by Governor Olcott.

SAW SERVICE OVERSEAS

Appointment Hinges on Opinion by Attorney General as to Validity of Legislative Act.

Salem, May 30.—Captain Jacob Kanzler will be Governor Olcott's choice for judge of the new court of domestic relations for Multnomah county, the governor announced Thursday night, providing the press reports of the recommendations of the Multnomah county circuit judges are verified by the official report of Thursday's proceedings. The appointment, however, will be held in abeyance, pending the receipt of an opinion from Attorney General Brown relative to the constitutionality and validity of the law enacted by the recent legislature creating the new court which has been questioned by District Attorney Evans of Multnomah county. The governor has asked the attorney general for an opinion on the law and in the event the opinion upholds the law the appointment will follow immediately.

PRICE ADVANCE IN SEVERAL GRADES OF LUMBER ANNOUNCED

If Quotations Are Fully Set by Sales an Increase of 43c Per 1000 Will Result.

Advance price on seven of the 27 index items of West Coast lumber manufacture was announced in quotations issued to the trade Thursday afternoon by a number of the leading mills of Oregon and Washington.

Officials of the West Coast Lumbermen's association, in analyzing the new price situation, find that should the new quotations be fully established in subsequent sales, they would represent an advance of 43 cents per thousand feet in the total output of typical fir logs.

The association's analysis takes the known yield of typical fir log in its various grade segregations and applies the new quotations on the seven affected items, averaging this with the prevailing price return on the contents of the entire log, including the 20 items not advanced. An advance of 43 cents per thousand feet is thereby determined for the log's return at such time as the new prices may be established in actual sales.

According to R. B. Allen, secretary-manager of the West Coast Lumbermen's association, the reason for this advance is the shortage of available stocks at the mills and the growing demand for 1x4 and 1x6 slash grain flooring, 3/4x4 and 1x4 ceiling, 1x6 drop siding, corn cribbing and boards in 8 inch, 10 inch and 12 inch widths.

The new advance in price is in addition to the rise involved in the application of discount sheet No. 4, recently issued by the mills of Oregon and Washington.
