

### OREGON BANKERS TO BE ENTERTAINED IN CITY FESTIVAL WEEK

#### Theatre Party, River Trip, and Dancing to Feature Convention in Portland.

The entertainment program for the Oregon bankers' convention, to be held here June 13 and 14, was announced Wednesday by the entertainment committee, of which R. W. Schmeer, vice president of the United States National bank, is chairman. Arrangements will be made that the visitors may witness the best parts of the Rose Festival.

Plans of the committee provide for many affairs exclusively for the visiting bankers and their guests. Friday evening they will be entertained at a theatre party at the Alcazar. Saturday afternoon at 1 o'clock a trip through the harbor will be given to members and visiting ladies on the barge Swan. Buffet luncheon will be served on board and there will be music and dancing during the trip. Besides the entertainment features this trip will give the visiting bankers an excellent opportunity to view the shipbuilding development and recent harbor improvements, as well as the shipping facilities of the Portland harbor.

Saturday evening a banquet will be tendered the bankers at the Multnomah hotel. An elaborate dinner has been arranged for by the entertainment committee, which is composed of the following: H. W. Schmeer, chairman; P. A. Kinnoch, A. O. Jones, Walter M. Cook, T. Burtchell, C. B. Sewall and E. H. Sorenson.

Friday will be devoted to the business of the convention. Several prominent eastern financial men are on the list of speakers, which includes: Joseph Chapman, vice president of the Northwestern National bank of Minneapolis; Russel Lowry, vice president of the American National bank, San Francisco; LeRoy D. Merschon, president of the trust company section of the A. B. C. New York, and Isaac D. Hunt, vice president of Ladd & Tilton, E. G. Crawford of the United States National and J. L. Hartman of Hartman & Thompson, bankers, are president and secretary, respectively, of the Oregon Bankers association.

### World Wanderers Meet at Speakers' Table at Ad Club

World wanderers met at the speakers' table of the Portland Ad club Wednesday afternoon. Major William Whitfield had come across the Atlantic from military service in Europe and William D. Wheelwright across the Pacific from a protracted Oriental tour. Both were warmly welcomed.

Both members of the firm of Whitfield, Whitecomb & Co., responded to the call to arms, one winning the rank of major, the other of lieutenant colonel.

"But honor is due, too, to the man who kept the work going at home, and that in our case is William J. Phipps, who shouldered our duties together with his own," said Major Whitfield.

Frank McCrillis presided over a "dress rehearsal" of the Pacific Coast Advertising Men's convention which is to be held in Portland the first four days of next week. Harry Jennings, S. M. Moses and A. G. Clark won prizes for one-minute advertising talks.

### Multnomah County Not to Come Under Senate Bill No. 79

Multnomah county will not come under the provisions of senate bill No. 79, providing that the county treasurer shall be the ex-officio treasurer of all school district funds unless otherwise decided by the county commissioners. The county commissioners have notified the school board that because of the doubtful utility of the measure by reason of the long distance from the county seat of some districts, it would be impossible for the treasurer to manage within reasonable time the issuance of the warrants.

The city planning commission has notified the school board that after careful investigation it has found that the amount of the proposed school bond issue is conservative, sound and is a necessary expenditure. The bond issue will be voted upon June 21.

### BUILDING COMMITTEE IS EAGER TO FINISH CAMPAIGN FOR FUNDS

#### Call Sounds for All Workers Who Can Donate Time During Next Few Days.

With the Rose Festival and the Ad Club convention coming next week, the committee of alumni of the University of Oregon is eager to complete its canvass for the remainder of the fund necessary to assure the erection of the needed Woman's building on the campus of the university, this week if possible, and is accordingly calling for all the workers in the campaign that can be procured.

The headquarters of the drive are at the Oregon building, room 421, and the telephone number is Broadway 1017.

Among the memorial contributions that have been received are \$500 from Mrs. Frederick Eggers, in memory of her husband, lately deceased, and a contribution from the parents of Allyn Roberts, a graduate of the university who died a few months ago.

Gifts of \$100 each have been received from Mrs. H. C. Wortman, Mrs. Ralph Wilbur, Mrs. Harriet Lytle Vesale and Mrs. Charles Gray.

The total amount that must be raised by friends of the university is \$100,000, and of this about \$55,000 has been already donated. The remaining \$45,000 the committee feels "is ready and waiting if only sufficient workers can be secured to complete this canvass of friends of the university."

The state's appropriation of \$100,000 was all that could be apportioned to the building under the tax limitation, by the last legislature, and in order to secure the full \$200,000 necessary to erect the building the other half must be secured for at once by private contribution.

Colonel John Leader, of the department of military training in the university, addressed the Chamber of Commerce at the luncheon Monday in behalf of the canvass, and he will appear before various other organizations this week on a similar mission.

### Body of Boy Who Played on Raft in Pond Is Discovered

When members of a boys' organization known as the Junior Yanks were scouting along the river near Gibbs bottom Wednesday night, they came upon the body of Birdie Chaffield, the 12-year-old lad who has been missing from home since last Thursday. The body was partially submerged in a shallow pond, Frank Meeve of 721 Hood street, is "captain" of the Yanks, and he and two companions dragged the body to shore.

The lad was drowned about noon last Thursday while riding on a raft in the pond near the Coast Shipbuilding plant. His parents, Mr. and Mrs. Fred Chaffield of 625 Hood street, did not think their son had been drowned, so they reported him as "missing" to the police. Wednesday they went to Hood River and White Salmon to search through the berry fields, hoping to find him working there.

Early this morning the coroner had been unable to get in touch with them by wire. As the pond was not connected with the river the sun warmed the water, causing the body to decompose. The coroner said immediate burial would be necessary. Besides the parents a brother and sister survive.

### OREGON FARM LABOR SURVEY UNDERTAKEN BY STATE CHAMBER

#### Information as to Men Needed and Wages Wanted for Use in Eastern States.

Believing that the farm labor situation in Oregon demands the utmost attention and cooperation of everybody in the state, the Oregon State Chamber of Commerce is sending letters to all commercial bodies asking them to study their local conditions and return data to the chamber headquarters.

George Quayle, secretary of the organization, says it is not the intention to start a labor bureau, but that as a state matter the chamber can render much valuable assistance in giving out information of the labor situation in this state and in Eastern states.

Commercial organizations are asked to appoint committees to survey the prospective labor situation this fall, estimate the additional help necessary when required, probable wage scale and such information as may be helpful.

Temporary headquarters of the state chamber have been taken up in the Oregon exhibit room on the first floor of the Oregon building, where visitors will be welcomed. Mr. Quayle says people from various sections attending either the Rose Festival, bankers' convention or Ad club convention next week will find the headquarters valuable as an information center.

## Diamond SQUEEGEE-TREAD Tires

### Europeans marvel at American Corporations

All Europe realizes now that American business men, turned soldiers, simply applied methods of American business to war-winning. No wonder that now Foreign Nations marvel at American corporations—not only at their efficient big scale methods, but their economies.

Justly—for American business men scrutinize every penny. When they buy tires, they study values and compare prices. Corporations all over the country are concentrating on Diamonds—the people in this town who buy tires thoughtfully, calculatingly, are buying Diamonds.

For Diamonds are giving thousands of extra miles—at LESS THAN AVERAGE COST. Let us present some comparative figures to you.
