

SEATTLE AD MEN TO COME BY AIR

Convention Delegates Plan Flight Down Coast and Up Columbia River to Portland.

Seattle, June 5.—(I. N. S.)—Seattle delegates to the sixteenth annual convention of the Pacific Coast Advertising Men's association are going to "drop in on" Portland, where the gathering will be held June 8, 9, 10 and 11. These enterprising representatives of Seattle are going to make the trip to the Rose City by airplane, according to plans being arranged here today.

Just who is going to make the trip in one of the big airplanes manufactured in Seattle has not been divulged. It is known, however, that several of the members of the Seattle delegation from the publicity and advertising bureau of the Seattle Chamber of Commerce are making preparations to take wing Saturday or Sunday.

It is declared by those who ought to know that the trip is entirely feasible in the Seattle type of plane. The machine likely will be piloted by Eddie Hubbard, who has had years of experience in flying and who makes flights every day here.

The route, it is believed, will be by way of Olympia and then out to the coast in the vicinity of Grays Harbor. The plane then will follow the coast southward to the Columbia river and hovering over this stream will pass Vancouver, Wash., and then turn southward again, following the Willamette to the Portland water front.

The machine is a seaplane and for this reason will follow the water courses as far as possible. By rail the distance between Seattle and Portland is 182 miles, but by the path to be taken by the Seattle plane the distance will be more than 250 miles.

Formaldehyde Used In Suicide Attempt

Brownsville, June 5.—Word has come from Crawfordville, seven miles up the Calappa river, that Walter Frum, while temporarily deranged, drank a quantity of formaldehyde in an effort to commit suicide and later tried to shoot himself, but was prevented from doing so. A doctor was summoned from Brownsville and arrived at the Robert farm, where Frum was living, in time to save the young man.

Eugene Vote Heavy In Approval of Big University Building

Eugene, June 5.—Eugene put herself on record as strongly in favor of a greater university Tuesday when the voters of the city approved the city measure providing the raising of \$5000 for the women's building of the University of Oregon.

The majority returned by 19 of the 21 precincts was nearly four to one, the vote being 1029 for and 314 against. Eugene has already raised by subscription nearly \$25,000, the local citizens bending every effort toward the realization of the building.

Coos Vote Proves Landslide Against Watson and Philip

Marshfield, June 5.—Late returns show a landslide against County Judge Watson and County Commissioner Archie Philip in the recall election.

In the recall of the judge the vote was 2549 for and 1707 against, the recall, C. R. Wade, recall candidate, received 2138 votes, and Watson 1022 votes.

There were 2822 votes for and 1299 against the recall of Philip. Henry Kern, recall candidate, received 2418 and Philip 789 votes, a majority of 1623 against Philip.

Navy Personnel Will Be Reduced

Washington, June 5.—(I. N. S.)—The personnel of the navy will be reduced to 200,000 men by June 30, 1920, Secretary Daniels this afternoon informed the house naval affairs committee. The force of 250,000 he recently decided upon will be maintained only until October 1, and this number will have been reduced to 235,000 by January 1, 1920, the secretary said.

Army Headquarters At Treves Closes

Coblenz, June 5.—(U. P.)—American advance headquarters at Treves has been dissolved and Brigadier General Smith has been transferred to Coblenz. The Second division celebrated the anniversary of the battle of Belleau wood with games and fireworks. The Ninth and Twenty-third infantry regiments and the marines participated.

CARLOAD OF AUTOS LADEN WITH BOOZE REACHES MEDFORD

Sacks Full of Bottled Whiskey Turned Over to Authorities of County.

Medford, June 5.—A new whiskey smuggling wrinkle developed Wednesday when a Southern Pacific inspector and a representative of the Fruit & Hutton Auto Co., examined a freight car loaded with six automobiles consigned to the company from the factory in Oakland, Cal., and discovered therein six gunny sacks containing 100 quarts of whiskey.

The car arrived in the city the night before and the door seal was found broken. It is presumed that the whiskey smugglers, after the car was locked and sealed in Oakland, broke the door again en route, put in the whiskey consignment and closed the door again, intending to take the whiskey out when the car stopped in Oregon.

The automobile company turned the whiskey over to county authorities.

Bankers Elect Officers
Medford, June 5.—Group four of the Oregon Bankers' association at its annual meeting just ended here elected the following officers: Chairman, Leslie Rogers, cashier of the First National bank of Klamath Falls; vice president, George Blundberg, cashier of the First

What Causes Wrinkles? What's the Remedy?

Stop to consider what produces wrinkles and sagging of skin. Premature aging, malnutrition, etc. cause the flesh to shrink, lose its youthful plumpness and firmness. The skin then is too large for the flesh underneath; doesn't fit tightly and snugly as it used to—it wrinkles or sags.

It must be plain that if tighten the skin, make it fit the face perfectly in every place, will effectually remove the hateful wrinkles and bagginess. This is easily and harmlessly accomplished by dissolving in a ounce of powdered saxolite in a half pint of witch hazel and using the solution as a face wash. The ingredients you can get at any drug store. The results are surprising. The skin immediately tightens up, becoming firm and fresh as in youth. Every wrinkle and sag are affected at once.—Adv.

National bank of Grants Pass; secretary and treasurer, A. P. Apperson, assistant cashier of the First State & Savings bank of Klamath Falls. About 20 Southern Oregon bankers attended the meeting. Group four includes bankers of Jackson, Josephine, Klamath, Lake and Curry counties.

British Balloon to Try Atlantic Flight

London, June 5.—(I. N. S.)—The Great British dirigible balloon R-34 is expected to leave on her transatlantic flight next

week, arriving in Atlantic City on or about June 14, the Star stated today. Final preparations are being made for the flight at North Berwick, Scotland.

The Mission of Swift & Company

Swift & Company has become one of the large businesses of the world through continuing to meet the growing needs of a nation and a world.

Society has a right to ask how the increasing responsibilities and opportunities for usefulness which go with such growth are being used by the men who direct its affairs—and the men have the right to answer:

- To promote the production of live stock and perishables and increase the food supply;
- To reach more people with more and better meat;
- To make a fair competitive profit, in order to reimburse the 25,000 shareholders for the use of their capital, and to provide for the future development of the business;
- To reduce to a minimum the costs of preparing and distributing meat and to divide the benefits of efficiency with producer and consumer;
- To live and let live, winning greater business only through greater usefulness, with injury to nothing but incompetency, inefficiency, and waste; to deal justly, fairly, and frankly with all mankind.

These are the purposes and motives of the men who direct the policies and practices of Swift & Company.
