

OPERATORS READY FOR THEIR STRIKE

Federal Company Said to Have Met Demands of Union; 40,000 Going Out.

Chicago, June 10.—(U. P.)—Between 40,000 and 50,000 telegraphers will leave their keys at 3 a. m. tomorrow in answer to the call for a general strike, according to latest estimates in the hands of President S. J. Koenekamp of the Commercial Telegraphers' Union of America here today.

Koenekamp said this number might be decreased in some instances where reached with companies involved.

"I have no reason to anticipate settlement with any of the companies," Koenekamp said.

Reports that Clarence Mackay, president of the Postal Telegraph company and other associated companies, had sent a committee here to confer with him were declared by Koenekamp to be "news to him."

Koenekamp said the first break in the ranks of employers came last night when the Federal Telegraph company, a combination of wire and wireless systems on the Pacific coast and to Honolulu, signed the agreement granting the union demands.

It was estimated more than 6000 telegraphers will strike in Chicago alone.

MORE MONEY FOR THOSE WHO REFUSE TO STRIKE

New York, June 10.—(U. P.)—Joseph P. Hayes, president of the association of Western Union employees, announced that the corporation has decided to distribute \$1,000,000 in back pay among employees who do not go on strike. Hayes telegraphed all locals of the association that the Western Union would take this action "as soon as the present ill advised agitation is over."

The company, he said, is postponing this action now because it does not want to be accused of responding to strike influence.

Officials of the telegraphers' union declared this announcement was issued in an effort to induce the operators to remain at their keys.

LOS ANGELES SAYS POSTAL MAY MEET UNION'S DEMANDS

Los Angeles, June 10.—(U. P.)—Steps will be taken in San Francisco to have signed a formal agreement between the commercial telegraphers and the Federal Telegraph company, L. I. Marshall, international vice president of the telegraphers, announced.

Marshall said a verbal agreement under which the company granted the telegraphers' demand was reached yesterday, he had been advised.

Marshall said he believed the Postal Telegraph company also would meet the demands before the strike is called tomorrow morning.

"Sop." Says Koenekamp

Chicago, June 10.—(U. P.)—"A sop to the men" was the only comment made today by S. J. Koenekamp, president of the Commercial Telegraphers' union, when informed of the Western Union's offer of \$1,000,000 in back salaries to men who do not go on strike. Union officials expressed the belief that the offer of the company will not affect the general strike called for tomorrow morning.

Phone Strike Monday

San Francisco, June 10.—(U. P.)—

Simple Home Remedy For Wrinkled Faces

Thousands of the fair sex are spending fortunes in frantic efforts to remove the signs of premature age from their faces. Such women willingly pay almost any amount of money for worthless wrinkle removers, of which there are many.

If they only knew it, the most effective remedy imaginable is a simple, harmless face wash which can be made up at home in less than a minute. They have only to get an ounce of powdered azolette and half a pint of witch hazel at the drug store and mix the two. Apply this daily for a while as a refreshing lotion. The effect is almost magical. Even after the first treatment a marked improvement is noticed and the face has a snug, firm feeling that is most pleasing.—Adv.

SALVATIONISTS' NEW HEAD

Major John McBree, new commander of the Salvation Army in Portland, and Mrs. McBree, who is also prominent in Salvation Army work.

Special welcome will be accorded Major and Mrs. Eberhart Tuesday evening at 8 o'clock at the Salvation Army, 243 Ash street, all city corps uniting. Major and Mrs. Eberhart have come to the city to take charge of the army's social and industrial operations here. They have been Salvation Army officers for over 30 years. Their last appointment was in Seattle, where they have had charge of the army's social activities for the last 10 years.

Both Major and Mrs. Eberhart were highly successful in their work, as it attested by the long period that Major Eberhart was in charge at Seattle, which was of unusual duration. In Portland Major Eberhart will, it is stated, specialize on industrial social work. The reception tonight will be admiring and the general public will be welcome.

Only by meeting demands of the union can the nation wide strike of telephone workers called for Monday morning be averted, T. C. Robbins, district organizer for the International Brotherhood of Electrical Workers, declared today. He said strike committees have been appointed in all parts of the coast district by operators and electrical workers and plans made for a finish fight. Telephone company officials refuse to make a statement.

Several Week-End Thefts About City Reported to Police

The Imperial laundry at 255 Russell street was broken into Sunday evening by thieves who stole three sheets, a tablecloth and two bed spreads. The Easy Furniture store, near the laundry, at 562 Williams avenue, was also entered and a .38 caliber revolver and a flashlight stolen. Entrance was gained by unlocking the rear door.

Mrs. C. H. Talmer of 458 East Eighty-eighth street north reported during the night that her automobile had been robbed of three tires while parked in front of the house. The room of Miss Marie Cooper at 294 Yamhill street was entered during the night and a card case containing \$9 and a ring were stolen.

W. C. Wassler, staying at 630 Y. M. C. A., reported to the police that entrance had been gained to his room by a thief who stole his traveling bag and a suit of clothes.

Piano Bargains

OPTOMETRY CONGRESS CONVENES AT BENSON; LECTURES ARE HEARD

Vocational Training of Soldiers Gives Impetus to Science, Says Dr. Eberhardt.

"The keynote of optometric organizations," said Dr. John C. Eberhardt of Dayton, Ohio, in speaking of the purpose of the annual North Pacific congress of optometry at the Benson hotel, "is state supervision, and through license the establishment of high standards of efficiency and the protection of the public against incompetency and imposition."

Dr. Eberhardt, a member of the faculty of Ohio university, has arranged a series of lectures on optometric science, which he is delivering before the congress. The activities of the congress, which is composed of about 100 delegates from Washington, Idaho, California, Nevada and Oregon, are divided equally between sightseeing and study. The morning and evening sessions are devoted to lectures and discussions, while the afternoons are given over to the festival occasion.

"One great menace," continued Dr. Eberhardt, "is the traveling faker, who takes advantage of ignorance and by pretending to furnish glasses which will absorb such diseases as cataract assists his victims to premature blindness. It was to meet such unfortunate conditions that the organization of the science first began."

"The purpose of optometry from the inception was to advance the science which comprehends the non-medical practice in treating the eye, both in ex-

aminations and accurate fitting of glasses. The specific progress during the last 30 years has been in the development of scientific methods by the aid of which the examiner can definitely ascertain the vision conditions and prescribe suitable lenses. This is of particular value in the examination of the eyes of children. In many states there are laws requiring the examination of a child's eyes before admittance into the public schools."

A resolution was passed yesterday.

upon the death of Sir William Crookes of London, distinguished physicist, who contributed many vital instruments and discoveries to this science.

The congress was opened by an address of welcome from Dr. A. F. De Keyser, president of the association.

Monday night J. W. Jayne and S. A. Paris delivered two lectures, followed by Dr. Eberhardt, whose subject was "Muscular Anomalies and the Effect of the Prism Upon Human Stereoscope."

Dr. Eberhardt began the program this morning with a discussion of "Ocular Economics and Dynamics in Their Relation to the Correlated

Binnocular Functions," and at 8 p. m. he will talk on "Office Routine."

This afternoon will be devoted to trips about town, including a trip up the Columbia highway.

"Optometric Psychology" will be the subject of the Wednesday morning lecture, and "Unique Clinical Experiences" at the lecture at 8 p. m. The annual banquet will be held at 8 p. m. in the crystal room of the Benson hotel. Election of officers and general business session will take place at 10 p. m.

Included in the general committee on arrangements are: Drs. A. F. DeKey-

ser, Floyd B. Daryton and E. O. Matern.

It is planned to organize a Pacific coast association which will meet in Seattle next year. Gordon C. Corbaley, executive secretary of the Seattle Chamber of Commerce, is working in the interests of the coast organization.

Steamer is Redefined
New York, June 10.—(U. P.)—The steamer City of Savannah, which went ashore early today off the New Jersey coast, was refloated at dawn and is proceeding to this port. She is bringing passengers and merchandise.

You've no idea what cocoa beans cost these days

Ghirardelli's Ground Chocolate, as you know, is an ideal blend of cocoa and pure sugar. So you can see that the cocoa bean is the big essential in the manufacture of Ghirardelli's.

Within the last year, however, there has been such a tremendous increase in the price of cocoa beans that, today, they cost 100 per cent more. And don't forget that every other item of production has also increased.

That's why we have been compelled to advance the price of Ghirardelli's Ground Chocolate—now, as always, the favored chocolate in more than a million homes in the West.

At your grocer's—in 1/2 lb., 1 lb. and 3 lb. cans. Look for the Ghirardelli label on the Ghirardelli can.

Say "Gear-ar-delly"
