Grain Never in Better Condition Than at Present Time.

By Hyman H. Cohen

A visit through that portion of the Willam-tte valley to Salem on both sides of the Villamette river by the Market Editor shows erhaps the best grain prospects that section has nown for many a year. Wheat oats and re-Prices Are Generally Reduced by F. O. The cherry crop is badly spotted. Some sections show few cherries on the trees while in other sections the crop looks normal.

The apple crop situation in the valley is wonderful to behold. Even in the neglected orchards the bearing is extremely heavy and where the orchards have been taken care of the fruit is of good size and apparently free from disease. from disease.

Prunes are short everywhere in the sections visited and there is no likelihood that the output will be more than 50 per cent of a year ago. Valley holdings of hogs are increasing but there is a shortage of cattle. om disease.
