

# OBJECTIONS TO PACT WITH FRANCE RISING IN SENATE

### American-Anglo-French Alliance Displeases Senators, Including Hitchcock, League Leader.

### M'NARY IS AGAINST MOVE

### Says France Might Take Advantage, but Congress Would Decide as the Occasion Arose.

Washington, July 5.—Indications that the American-Anglo-French alliance will encounter formidable opposition in the senate became more pronounced as a result of conferences among senators of both parties. Senator Borah of Idaho, who is unreservedly against it, went so far as to say that he questioned whether President Wilson would ever submit the treaty to the senate. He declared it to be the most impudent proposal ever submitted to an American congress.

### HITCHCOCK IS OPPOSED

From the Democratic side of the senate came objections from Senator Hitchcock, who is leading the fight for the League of Nations. Senator Hitchcock pointed out a number of serious faults in the treaty, which he said might make it necessary for him to oppose it.

### FRENCH VIEW REALIZED

"Of course we can see good reason for such an alliance," Senator Hitchcock said, "particularly as when it is proposed by the fear of another attack by Germany. France fears that even with the League of Nations established, she would be in danger unless Germany knew in advance that any outbreak by her would bring the help of England and the United States."

### ABUSE BY FRANCE FEARED

"This gives an entirely free rein to France. I believe it might be used by France to goad Germany into making an attack. France might be continually harassing Germany in this direction with a view to bringing on a conflict which would involve the other parties to the treaty."

### CONGRESS WOULD DECIDE

"If an attack upon France took place in the future, it would be the duty of the congress then to determine whether the congress should refuse to go to France's assistance. That would end the matter at once and the question of the constitutionality of the alliance would not enter at all. Congress would always have the right to interpret the treaty and to exercise its judgment as to whether the occasion demanded the aid of the United States."

### McNARY ALSO OPPOSED

"Therefore I am unable to agree with those who say a treaty of this kind would be binding upon our future congress. Each congress would determine the question for itself whenever the occasion arose."

### BELGIUM WANTS TO BE MADE PARTY TO ALLIANCE

Brussels, July 5.—A strong movement is afoot here urging Belgium's admission to, or inclusion in, the Franco-British-American alliance for the protection of France in case of a future attack on that country by Germany.

### Ratification of the Treaty on Monday, Is Berlin Forecast

Copenhagen, July 5.—The German national assembly will ratify the peace treaty Monday afternoon, according to the forecast from Berlin late tonight. The ratification resolution will be introduced by Chancellor Gustav Adolf Bauer and Hermann Mueller, the foreign minister with Dr. Bell signed the pact at Versailles a week ago today.

The Bauer cabinet discussed the ratification at a long conference this morning, the Berlin dispatch adds.

# Moro Hotel Burns to Ground, Due to Overheated Range

Moro, July 5.—The Moro hotel, owned by W. C. Rutledge, was completely destroyed by fire on the afternoon of July 4, starting about 2 o'clock in the ceiling of the kitchen over the range, when no one was present. It is thought to have been caused from an overheated range.

When discovered the heat was so intense nothing was saved from the second story portion of the building. Nearly all the furniture downstairs was saved. The family was attending the celebration at Grass Valley. Rutledge was shaving himself when told the building was on fire.

The damage was confined to the Moro hotel building and the Webb annex, used by the hotel upstairs, and by the Farmers State bank and offices on W. 4th, Reading downstairs. The Maxwell building, adjoining the hotel on the south, lost half its roof and the side near the hotel was burned through in places.

The hotel was insured for \$3500, but the loss is more than \$4000 above the insurance. The Maxwell building was insured for \$1000 and the insurance will cover the loss. The Webb building was also insured but the amount is not known.

The Farmers State bank will open for business Monday in the telephone office in the Moro Trading company building, where it will remain until it builds a new building.

# Home Economics Expert Will Take Advanced Course

Medford, July 5.—Miss Anne McCormick of Lebanon, the best known woman in Jackson county, through having served here for two years as home demonstration agent since her graduation from the Oregon Agricultural college in the home economics course, has resigned. She will leave in September to take a course in advanced economics at Columbia university, New York, but will retain the position until her successor has been appointed and arrives here, where it will be before July. During the first year of her service here she divided her time equally between Jackson and Josephine counties.

### Artie Made Councilman

Medford, July 5.—Richard F. Antie, cashier of the Farmers & Fruit Growers' bank, has been elected by the city council to fill the vacancy in that body caused by the recent resignation of Dr. J. J. Emmmons after two years of service.

It is stated that in the Peto district of Yucatan, 2000 Mayo Indians have joined the ranks of Felix Diaz' rebel army.

# WAR LORD'S TRIAL GREAT, ABSORBING TOPIC IN ENGLAND

### Subject Has Wiped Everything Except Flight of R-34 Off Front Pages of Newspapers.

### IMMEDIATE ACTION WANTED

### Proceedings Will Be in English but Would Be Translated Into Other Languages, Is Report.

London, July 5.—Nothing has fired British imagination as much in years as the announcement by Premier Lloyd George that the ex-kaiser will soon be tried in London. It is the sole topic of discussion everywhere and the wish seems wholehearted and unanimous throughout Britain that the ex-monarch be brought to justice without delay. The subject has wiped everything except news of the R-34 from the front pages of London newspapers, which print columns of conjecture and comment.

Opinion is divided as to whether Holland will release the ex-kaiser, but J. C. Vandevor, a prominent Dutch editor, thinks there will be no trouble in bringing about the defendant's extradition. Dispatches from Holland tend to strengthen the view that while there may be a show of resistance on legal and international grounds, the Netherlands government will eventually deliver its unwilling guest into his judges' hands.

### JUDGE NOTED JURIST

Meanwhile interest here centers around the personality of the son of a Manchester iron master, Lord Sumner of Ipswich, who has suddenly jumped into fame as the probable chief judge of the ex-monarch. He is the pride of the English bench. He became judge at the age of 50 and is now 58. He is an ardent golf player, of quiet disposition and noted for a keen sense of humor.

Lord Sumner is unusually young looking. He is a leading authority on international law and was of much aid to the allied peace makers in the drafting of the reparations clauses.

Public opinion is, of course, anxious for immediate trial of the former monarch, but it is unlikely the proceedings will actually begin before winter, possibly not until early next year, for the British

# Youths Pilfer Coin From Cash Register At Laundry Firm

Youths have been making repeated incursions into the till of the Crystal Laundry company during the past few weeks, according to the report submitted to the police by the manager of that concern.

Entrance to the office of the laundry at 250 1/2 Alder street has been gained through the aperture in the door intended for bundles received after hours. The hole is not large enough to admit the passage of a full grown man, and the officers of the laundry are convinced that the depredations are the work of a band of juvenile burglars. Small amounts have been taken from the cash drawer on each raid.

### President of 'Irish Republic' Coming to San Francisco Soon

San Francisco, July 5.—Eamonn De Valera, president of the "Irish republic," will reach San Francisco July 17 and address the national convention of the Ancient Order of Hibernians, according to a telegram received tonight by convention authorities from De Valera's secretary.

While here, De Valera will unveil a statue of Robert Emmet.

# Sinn Feiners Can Not Make Lasting Peace, Says Paper

London, July 5.—"No sensible Irishman believes the Sinn Fein hotbeds can evolve lasting political peace in Ireland," says the Daily Express editorially. "Irishmen are no fools. They know that Irish prosperity is bound up with their association with England."

"The government proposes to upset convention and tackle the problem of political evolution in the United Kingdom."

"What is more important there is an intimation that the great outstanding political blot on our home landscape—Ireland—will at last be cleansed."

### Police Seek Assaulter

Police are investigating the report of an attempted attack on a young girl at East Seventy-ninth and Siskiyou streets by a foreigner, supposed to be a Greek. A description of the man was given by the parents of the young woman but nothing is known of him other than that person who recognized having seen such a man in that neighborhood Saturday morning believed him to be a foreigner.

# Injuries Fatal to Man Long in Oregon

Medford, June 8.—John Wade, 64 years old, well-known resident of Central Point for 39 years and a resident of Oregon for 25 years, died today from injuries received Friday in a runaway accident near Central Point. He is survived by his mother, three sisters and two brothers.

### Autoist Killed

Sloux City, Iowa, July 5.—(U. P.)—Roy W. Roberts, 30, was instantly killed here today when an automobile in which he was riding collided with a tree. His skull was crushed. The car, which was going at high speed, ran over a bulldog, overturning the car.

# Davis Is Named to Manage Medford City Departments

Medford, July 5.—Charles W. Davis, former councilman, who since last October has been government labor immigration inspector and who returned here several days ago, has been named Mayor C. E. Gates and the city council to the position of what practically amounts to city manager, succeeding to all the positions held by Olin Arnsperger, who recently resigned, except that of city engineer, which position the council decided to leave vacant and only to employ an engineer temporarily as the city needs his services. Davis, who assumed the position today, is now in charge of the water system, lighting and lesser departments and is also the city purchasing agent. The position pays \$150 per month.

# RENDER YOURSELF IMMUNE FROM OAK OR IVY POISONING

MIDSUMMER is the time when poison oak and poison ivy are most to be dreaded by those who are susceptible to their malignity. The irritation and perspiration induced by outdoor exercise render the skin exceedingly susceptible to infection, even though one may not come in direct contact with these beautiful but to be dreaded plants. There are many serious records where results from oak or ivy poisoning have been most serious. If you have reason to believe that you have been exposed, or if you purpose a trip where poison oak or ivy abound, use Santiseptic Lotion on the face, hands and other parts of the body likely to be affected. If the infection already has taken place, apply Santiseptic to the affected parts, and you will receive almost instant relief from the pain and the itching, and in a short time the inflammation and fever will disappear, leaving your skin in its normal condition. We cannot too strongly recommend Santiseptic in such cases. Its use will unquestionably relieve and prevent much pain and discomfort, and even more serious results. Santiseptic also relieves the irritation caused by the bites of stinging insects, such as mosquitoes, fleas and other insects; it allays prickly heat, chafing, etc. Once you have tried Santiseptic you will find it insures skin comfort, sanitation and health. It is available at all drug stores. If your druggist cannot supply it, send 50 cents, with his name, to the Ebermont Laboratories, Portland, Or., for a full-size bottle, postpaid.—Adv.

# Take Good Care of Your Eyes

Our Ophthalmoscope and Retinoscope is one of the most scientific eye-testing instruments in the world. With it we can detect error of vision instantly.

There is no function of the human construction more important than good eyesight; none more generally neglected.

Eyes stand for a lot of hard usage—overworked nerves, abused muscles, strained accommodation. The condition of your eyes in later years will show the care you have given them at the time they need it.

Proper glasses—fitted at the right time—not only give you better vision, but relieve the pressure on your nerves and give you comfort, ease and efficiency besides.

The Thompson Optical Institute will give you the utmost in eye help—scientific, sane and sensible.

# SAVE YOUR EYES

Complete lens-grinding factory on premises.

## Thompson Optical Institute

Eyesight Specialists

Portland's Largest, Most Modern, Best Equipped, Exclusive Optical Establishment.

209-10-11 Carbett Building, Fifth and Morrison—SINCE 1903
