Shipments Would Work Permanency for Company Now Seeking Cargo for Europe.

Rates on hox shooks from Portland to European paints direct, which have been sought by the Columbia Pacific Shipping Co., as agent for Williams, Diamond & Co., ship operators, have been received from the shipping board. The quotation of the freights is deemed of much importance to the port because of the number of inquiries which have been made by local exporters.

With the question of rates established it will now be in order for the local concerns to place large orders for shipments of the shooks out of this port the countries overseas are foreseen here, and incidentally the assurance of such

Thus far no shipments of this kind have been made overseas, although Portland exporters have dispatched car-goes of shooks to the Hawaiian islands. A. C. Stubbe, manager of the Columhia Pacific Shipping company, stated today that he was pleased to know that the shipping board had finally an-nounced its rates on the shipments of shooks, and he added that such shipments would work for the permanency Portland-European line cargoes for which are now being sought in Portland and adjacent territory, with the idea of sending the first vessel out of port for Europe some time during the present month.

GRAIN SETTLEMENT FAILS

Strikers Are Firm in Demands for 80 Cents an Hour, increase of 5 Cents.

Efforts to reach a settlement of the grain handlers' strike failed at a joint meeting of the dock operators and the union leaders at the Merchants Exchange today. During the meeting sharp words were exchanged between the opposing factions, the strikers being firm in their demands for 80 cents an hour, an increase of five cents over the present wage scale. Representatives of the Seattle grain handlers attended the meeting.

In their desire to have the strike set-tied so that the grain ships could be leaded here without delay the dock ep-erators had offered to refer the whole matter to the Oregon state board of conciliation.

The dock operators are also firm in

their demand that the Portland rates shall not be higher than those paid on Puget sound, and their position has the support of Max H. Houser, vice president of the grain corporation of the administration, and president of Port of Portland.

Cargo From Hold of West Harlan. The new \$800 ton steel steamer Mount Evans has been assigned by the division of operations to receive the wheat to be transferred from the hold of the steamer West Harlan, which is preparing to go on the drydeck for repairs.

The work of transferring the grain will require several days. Immediately after the cargo has been removed the damaged ship will be put on the drydeck for repairs of the damage sustained when the steamer, while proceeding to sea recently, ran onto a rock bottom in the Columbia river when the steering the Columbia river when the steering gear failed, causing the vessel to sheer toward the Washington shore. The damage to the steel plates is con-fined to the forefoot of the ship.
