Research Club Is Sponsor For Benefit Tea

By Velia Winner

THE beautiful home of Mrs. John Shull in Irvington was on Friday afternoon the scene of the third of the benefit affairs which the Portland Woman's Research club is giving to raise its pledge of $500 for the woman's building to be erected on the campus of the University of Oregon. Mrs. D. M. Watson was general chairman of the committee and much credit is due her for the large crowd, brilliant program and general success of the afternoon, from which $60 was realized. The early hours of the afternoon were given over to cards, and afterward a musical program was given. Mrs. Frank A. Bell, a concert pianist of unusual ability, delighted everyone with her playing. Mitylene Fraker Stites, contralto, sang delightfully and Mrs. Edwin A. Wetmore was heard in wonderful concert numbers. During the tea hour, Mrs. Donald Spencer entertained the company with a group of French songs.

During the social hour tea and cake were served. Those serving in the dining room were Mrs. J. G. Bennett, Mrs. Frank W. Clifford, Mrs. Francis Van Tine, Mrs. Edwin Wheat, Mrs. E. F. Robinson, Mrs. Clyde Evans, Mrs. E. F. Mullay, Mrs. A. G. Fleishman, Mrs. A. D. Frost, Mrs. J. C. English. The tea table was centered with lovely Ophelia rose buds and Queen Anne's lace and in the spacious reception rooms baskets of lovely summer flowers were used. The club probably will give two other summer affairs in the interest of its pledge to this popular fund.

One of the smaller, but none-the-less delightful, benefit affairs for the woman's building of the University of Oregon, was that given Friday afternoon by Mrs. G. B. McLeod and Mrs. M. H. Lamond, the affair being given at Mrs. McLeod's home in Irvington. Three tables were arranged for the game of bridge and Mrs. William Felton carried off the prize. Friday being Mrs. McLeod's birthday, a feature of the dainty refreshments was a beautiful birthday cake ablaze with just the correct number of candles. Each guest blow out one, at the same time making a happy wish for the honoree. Mrs. John Claire Monteith spoke informally concerning the proposed woman's building during the social hour. The rooms were graced with rare iris and other summer flowers and greenery.

The address given by President Aurelia Reinhardt of Mills college before the Credit Men's association on Wednesday evening marked the climax of all the fine addresses she has given in Portland and vicinity. It was a most eloquent plea, that business men should cooperate with educators in working for the higher credits of life—honor, justice, generosity and humane cooperation for universal good—as being of value far beyond the possession of mere material riches. Dr. Reinhardt will leave tonight at 11 o'clock for her home in California. Many friends newly made by the force and grace of her personality are regretting her departure.

War Mothers to Be Composed of Mothers of Vets

By Etta Squier Seley

SALEM, July 12.—When the mothers o' men start to do things—things are done. Why? Well, simply because when it is a question of doing for those most dear to the mother heart, there are no obstacles to stop the effort to show love and loyalty. If obstacles arise—and they often do—some way will be found around or over or under or through them, but the accomplishment will be attained.

And now we have with us the American War Mothers. The first unit was tablished in Salem, January 28, Governor Withycombe appointing Mrs. R. J. Hendricks state war mother.

The officers of this unit are: Mrs. John Carson, president; Mrs. Fred Stewart, vice president; Mrs. Etta Squier Seley, secretary; Mrs. James Matthews, treasurer; Mrs. Edwin Sherwood, historian, and Mesdames Daniel Fry and T. W. Davies, auditors.

A unit has been recently established in Portland, from which much good is expected.

During the war, the attention of all loyal women has been given in a large measure to Red Cross work. Now that the boys are returning, other needs arise. The war camp community service meets some of these, but the more intimate touch is felt in the work of the War Mothers.

What is a War Mother? One who has had one or more sons in the service, and who indorses the principles of the organization. And the principles are best embodied in three words: Loving, appreciative helpfulness. Every service man is to feel that at all times he is free to talk things over with a war mother, and that she will never be bored, but will see that the best effort is put forth for his welfare.

At Salem the unit started without so much as a postage stamp to its financial credit. There are no dues, all funds being earned or being unsolicited donations. The business men, colleges and citizens in general have been most generous in their support, and at the present writing the unit has a creditable showing for the few months of its existence.

On the court house lawn two large poppy beds have been prepared and are being cared for, and there, a little later, when all the Marion county boys are accounted for, will be raised a fitting permanent memorial in honor of those who have not returned to us.

The formal home coming celebration was held July 3, 4 and 5, and the city was host to all service men. The Salvation Army, Knights of Columbus and Y. M. C. A. conducted huts where goodies were to be had at any hour for the asking. The Victory parade was a most pleasing spectacle. Detachments of Portland and McMinnville national guard arrived, and with a motorcycle squad, augmented the local turnout of returned service men of all branches. The Goddess of Liberty, Miss Margaret White, and her maids of honor were enthroned on the Cherrian float which recently captured the first prize at the Rose Festival. A color platoon carrying the flags of 18 allied nations received much applause, as did the various groups of soldiers, sailors and marines. The G. A. R. and Relief corps exhibited attractive floats, as did a large number of industrial and fraternal organizations, with a goodly number of foreign-American war veterans in line, the story of three wars was forcibly brought home.

About 1000 men marched, and approximately 600 of these were guests of the War Mothers at a banquet at the armory the night of the Fourth. That was a sight worth seeing. Six hundred hungry, happy boys returned from the perils of war, feted and served by happy mothers and sisters.

Did they appreciate the effort made to welcome them? They did. If you could have heard the cheers for the mothers which, fairly made the solid walls of the armory tremble, you would have said, yes, they understand what is behind all these delicious things to eat. They understand that their mothers have proved themselves good soldiers during the war and know that they are still on duty to help in the readjustment taking place everywhere.

Do not think that the War Mothers will figure merely in celebrations and memorials. Their work is already assuming the practical side of helpfulness. Families needing attention are being looked after, and the Salem unit is now arranging to adopt a French orphan as an additional responsibility.

The general aim of the organization everywhere will be to meet such local needs as may present themselves, and to have always an open heart for the boys who gave themselves so freely for the good of the world.

That Oregon women are coming into their own in the field of education, science and invention, was interestingly attested by the clinics and demonstrations given during the past week at the twenty-third annual meeting of the Oregon State Dental association, when Dr. Maude M. Tanner, one of Portland's prominent women dentists, attracted much attention with her clinic demonstrating her latest invention known as the Tanner post. This new post which is made of gold, has been worked out to reinforce porcelain restorations and broken down teeth where formerly gold and cement were used for minimizing and strengthening restorations, the porcelain of itself not being strong enough to meet all the requirements of biting and mastication. The main feature of the post is a loop or eye like a needle through which the porcelain is threaded, thus clinching it and making it doubly strong. The clinic was given with the aid of a little 3-year-old boy, whose four upper front teeth, having decayed, had been thus built up.

Dr. Tanner also displayed her adjustable paper cap and apron, which is so fashioned that it can be made into a cap, apron, bib, head rest cover, surgical table cover or hand towel, and can further be utilized in surgical work in hospitals, Pullman chair cars, barber shops and for caps and aprons for nursemaids and waitresses, in fact, its uses seem innumerable. The principal claims for the device is that it is individual, sanitary and economical.

That education is the first requisite in improving the health and conditions of the mouth, is the belief of Dr. Tanner and to this end she is engaged in the writing of five books on mouth hygiene, the first two of which have already been published, "The Mouth and Teeth" for the upper grammar and junior high school grades, and "Billy Forget-me-not" for the second and third grades. Of this latter book 1200 have been contracted for by the Portland school board.

The Stamp Collector

The full dawn of peace in Europe appears in an era replete with activities which are as fascinating for stamp collectors as any which have ever been known in the nearly eighty years of philatelic history. The world war was responsible for the production of approximately 4000 varieties of postage stamps actually printed between August 1, 1914, and November 11, 1918, by governments in all quarters of the globe, and collectors had come to look upon that stretch of years as the most interesting period, philatelically, ever experienced. But the days of the armistice, ushering in the period of reconstruction, are becoming equally significant in this respect, for within the past sight months the new born nations of Europe have put forth more than seven hundred varieties of, franking adhesives—and this prolific production has only begun. The standard postage stamp album of 1920, now being prepared for publication in December, will require many new pages to accommodate all these issues of the reconstruction days, and the volume will include names which have never before been found within its covers—among them Czecho-Slovakia, German Austria, Hungarian republic, Jugo-Slavia, Lithuania, Republic of Poland, Republic of Finland, Esthonia, Italian Austria, Fiume, Lettonia, Transylvania, Udine and Ukrania.

It meets every Wednesday night in its own hall and is celebrated for its fraternal deeds and for its ceremonious degree work.

Omega Rebekah lodge was instituted January 22, 1895, and has a devoted membership. It is a sister lodge to Orient and many of its members are wives and daughters of Orient members.

The new noble grand of Orient lodge, N. P. Oakerman, has been an Odd Fellow since February 24, 1875, when he joined Cosmopolitan lodge No. 194 of San Francisco. Three years later he transferred to Montezuma lodge of Hillsboro, Or., and has been a member of Orient lodge since 1916. Montezuma lodge presented him with a veteran jewel when he had been a member of the order 40 years. Brother Oakerman has been farmer and building contractor and is now retired and resides at 858 East Eight street north.

WALL IS GLAD HE TOOK ADVICE OF HIS FRIEND

What Portland Man Needed Was An All Around Building Up And Tanlac Did That Very Thing.

"I needed a general all 'round building up and Tanlac has done that very thing," said A. D. Wall of 429 East Harrison street, Portland, Or., while in the Owl Drug Store recently. Mr. Wall is employed by the Cutter Manufacturing company in Portland and is in charge of the wood working department.

"Up to about a year ago I had always been pretty strong and healthy," continued Mr. Wall, "but at that time I just seemed to lose my appetite entirely and what little I did force myself to eat didn't appear to do me any good, because my entire system got terribly run-down and I was troubled with a tired, draggy feeling most all the time. When I would get home at nights from work I just felt all tired and worn-out and, as this wasn't a natural way for me to feel, I got to looking about for something that would help me.

"I had been reading about Tanlac and what it was doing for others who seemed to be troubled like I was, and a friend of mine also told me I ought to try it, as it had done him so much good. He said he had been down flat of his back for several months with rheumatism, but that Tanlac had certainly put him back on his feet again, so I decided I would get a bottle and see what it would do for me, and I am sure glad I did, because after I started in to take it I began to pick up right away. I kept right on taking it and now I've got a fine appetite and relish everything I eat just like I used to and what I eat does me good, too. I just think Tanlac is the best thing I ever came across and my wife thinks the same, because she suffered terribly with rheumatism in her arms and shoulders, but since she has been taking Tanlac I never hear her complain a bit. I have told lots of my friends about Tanlac and I know a number of them who are taking it on my recommendation, and I will gladly tell anyone what it did for me."

Tanlac is sold in Portland by the Owl Drug Co.—Adv.

LUXURIANT HAIR FOR YOU?

Of course you desire it. Then read of this wonderful hair elixir, KOTALKO

Worry no more about your hair, Miss, Mrs. or Sir! Throw away those liquid lotions that are only drying your scalp and doing no good whatsoever. Don't shampoo the natural oils out of your hair. There's a hair elixir that is meeting with increasing favor, for it is altogether different from the scented lotions, emulsions and washes. It is Kotalko, compounded from the Vital Elements of the hair and including twelve ingredients, one of which is the genuine bear oil, which you have heard of as marvelous in fertilizing hair.

Mr. Kotalko is compounded on the principle that aided Nature in giving me a full growth of hair when I was bald (see the picture below) and it is doing wonders for others—men, women and children.

I could fill this whole paper with copies of testimonials from persons who endorse Kotalko. The enthusiasm is great when a person finds, after all the lies told, that Kotalko is just what Nature needed to aid in producing a splendid growth of hair.

You may now obtain the genuine Kotalko under my guarantee at the drug store, or the druggist will get it for you, but take nothing else that is said to be "just as good," for you will then only delay your use of Kotalko. Or, if you want first to prove Kotalko, send for a Testing Box which will come to you by mail promptly in a plainly wrapped package. Enclose only 10 cents, silver or stamps, in your letter.

Satisfy yourself. You want to stop falling hair, eliminate dandruff, strengthen and cleanse renewed growth of strong and silk-like hair, or cover that bald spot with hair. Buy KOTALKO at the druggist's; or get the dime testing box by mail NOW, simply once or twice daily—watch in your mirror! Address:
