HAIR OFTEN RUINED BY CARELESS WASHING

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali.

The best thing for steady use is multi-fied coconut oil shampoo (which is pure and greaseless), and is better than anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in.

It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil.

The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get multi-fied coconut oil shampoo at any pharmacy. It's very cheap, and a few ounces will supply every member of the family for months.

ALLIANCE OF ITALY, GERMANY FEARED

New York, July 15.—(U. P.)—There is a certain amount of danger that the attitude of the allies will lead to such close relations between Germany and Italy that the latter country will come to look upon the Teutons as their staunchest friends.

MAYBE DR. ROBERG WAS AFTER JOB AND MAYBE HE WAS NOT

Salem, July 15.—Did Dr. David N. Roberg, secretary of the Oregon state board of health, aspire to the addition of a second "lucrative" office to the burden which he already bears, or was it merely idle curiosity which prompted him to inquire of the attorney-general's office as to whether the secretaryship of the state board of health and the venereal disease officer of the United States were both "lucrative" offices?
