

MORE AWARDS OF D. S. C. ARE MADE

Five Given Men in French Army and 19 to Members of American Expeditionary Force.

Washington, July 18.—(I. N. S.)—The latest awards of the distinguished service cross were to two officers, two enlisted men and one interpreter of the French army, and to seven officers and 12 enlisted men of the American army, all being decorated for extraordinary heroism in action in France, General Pershing called the war department today.

Americans who won the cross are: Captains Joseph M. Simpson, machine gun company, 357th infantry, 614 Van Ness street, San Antonio, Texas.

Zedda D. Lumley, medical corps, 357th infantry, Kampsville, Ill.

Lieutenant Frank J. Fisher (deceased), 355th infantry, 2910 North Fifth street, Kansas City, Mo.

Sergeants Marquis L. Dillard, company A, 354th infantry, Laddonia, Mo.

Ernest J. Charter, machine gun company, 357th infantry, Tower City, N. D.

Corporals John C. Duncan, company D, 354th infantry, Whiteside, Mo.

Harry M. Ward, company A, 354th infantry, Gregory, Landing, Mo.

Privates Almon E. Sprague, medical detachment, 355th infantry, Catawaba, Wis.

Thomas E. Grider, company C, 180th infantry, Danville, Ill.

Orval Wilcoxson, machine gun company, 357th infantry, Marietta, Okla.

Wade E. Jenkins, machine gun company, 357th infantry, Orlando, Okla.

Frear Doesn't Care What Stand Timber Men Take on Inquiry

Washington, July 18.—(WASHINGTON BUREAU OF THE JOURNAL)—Representative Frear made public a telegram sent to J. J. Donovan, timber operator of Seattle and Bellingham, declaring he has no statement concerning charges against Colonel Disque and spruce production affairs in the Northwest.

Frear tells Donovan he is "not prepared to accept any eulogies or defenses of anyone connected with the air service without investigation, and whether you welcome our investigation or not is immaterial to the committee."

Representative Frear, who heads the investigation on a sub-committee, declines to say whether he will go to the coast, but the belief prevails that Portland and Seattle will be visited.

Hawley Presents Arguments for the Raker Apple Bill

Washington, July 18.—(WASHINGTON BUREAU OF THE JOURNAL)—Representative Hawley appeared before the house committee on customs, weights and measures and presented arguments for the Raker apple box bill. This measure prescribes standards practically the same as the Oregon apple box and has the support of all western horticultural interests.

Washington, July 18.—Representative Hawley asked Surgeon General Ireland to investigate the charges of neglect of cases of soldiers at Mitchell hospital, Long Island, upon information furnished by Oregon and Washington soldiers, who say they have been permanently crippled because of inattention of nurses and surgeons and alleged insanitary conditions generally.

Washington, July 18.—Committee hearings on the berry and fruit juice taxes set for today have been postponed until Monday.

Parachute Jump By Olcott Sought For Fair Features

Eugene, July 18.—(U. P.)—That Lane county is taking Governor Olcott's aeronautical activities seriously is evidenced by the fact that the county fair board has extended the governor an invitation to make a parachute jump for the amusement of the crowd here next fall.

The fair board believes the event would be a good drawing card and all that delays the announcement of the feature is the consent of the thrill producer himself.

"We are counting on your well known nerve and audacity to prompt you to accept this invitation," the board states in its message.

No word has been received as yet from the governor.

Speeding Auto Hits Pole, Two Injured

Seaside, July 18.—At 3:30 o'clock this morning an automobile containing four men rushed down Twelfth avenue at 60 miles an hour, striking a telephone pole, breaking it off and hurling part of the pole 12 feet farther. Charles Whittiko, salesman for the Brown Shoe company of Astoria, sustained a fracture of the skull. Art Callahan's hand was badly cut and he was otherwise injured. After first aid by local doctors, the men were sent to the hospital in Astoria. The other two men fled and have not been found.

SUPPLIES SHOULD BE BROUGHT HOME

Transports and Cargo Ships Are Sailing With Ballast When Equipment Goes Cheaply.

Washington, July 18.—(WASHINGTON BUREAU OF THE JOURNAL)—A statement from the statistics branch of the general staff of the army says that only a small amount of engineering equipment in France, which is desired by the agricultural department for return to this country for road construction, is available, much of it having been sold or inventoried for sale to the French government.

Among the engineering officers recently returned from France there is a disposition to question the accuracy of this. They say that while inventories have been made for prospective sale, very little has actually been sold, and if sale is made it will be at a fraction of the value which would be secured by return of the equipment to this country.

It is further asserted that transports have been returning with water ballast for months when the ships could have carried some of the equipment piled up at depots in France. The war department is accused of failing to cooperate with the department of agriculture to the fullest extent in arranging for the return of this material.

However, this may be, the war department takes the position that no additional requests for return of equipment should be made save in most exceptional cases. Meantime the distributing of surplus material in the United States is going on, and thousands of trucks are being sent to the roadmakers. About 300 trucks have been ordered sent to Oregon, it is said.

FRUIT HELD 'GOAT' FOR RAILROADS

(Continued From Page One) portionately decrease, proved interesting to the many auditors at the hearing. The point was illustrated by reciting the owner of a store. If he sells one dozen shirts he must realize a greater gross profit therefrom than if he sells 1000 shirts. Therefore, as mileage increases, the per ton mile cost of shipments should decrease. EASTERN RATES LOWER The witness confined his testimony to fruit raising districts of Idaho, except in the case of several interesting

PRUNE SPECULATORS MUST CURTAIL PART OF EXPECTED PROFITS

Prices Named After Careful Study of Market, Says R. C. Paulus.

The California Prune and Apricot Growers' association yesterday announced the long looked for prices on their prunes. The prices cover the sale of 120,000,000 pounds of prunes, which had already been sold firm at opening prices.

Questioned on the subject, R. C. Paulus, manager of the Salem Fruit union, the largest Northwest association handling dried prunes, said: "The prices are issued on the regular 10-point selling basis, which begins with 80-85's as a basis; the prices being 30-40's, 16c bulk basis; 40-45's, 14c bulk basis; and 50-60's, 12c bulk basis. This does not mean that the above figures are the actual prices the prunes sold at.

STOMACH TROUBLES ARE DUE TO ACIDITY

Tells, Safe, Certain, Speedy Relief for Acid Indigestion. So-called stomach troubles, such as indigestion, gas, sourness, stomach-ache and inability to retain food are in probably nine cases out of ten, simply evidence that excessive secretion of acid is taking place in the stomach, causing the formation of gas and acid indigestion.

Gas distends the stomach and causes that full, oppressive, burning feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excess development or secretion of acid.

To stop or prevent this souring of the food contents of the stomach and to neutralize the acid, and make it bland and harmless, a teaspoonful of bisulphated magnesia, a good and effective corrector of acid stomach, should be taken in a quarter of a glass of hot or cold water after eating or whenever gas, sourness or acidity is felt. This sweetens the stomach and neutralizes the acidity in a few moments and is a perfectly harmless and inexpensive remedy to use.

ROADS' PROFITS SHOWN

Evidence of the profits reaped by Northwestern roads was submitted in part this morning. It was shown that the Union Pacific received a profit of something more than 10 per cent in 1918, and that much of this profit on freights was from the fruit industry.

The Northern Pacific, however, among the Northwestern carriers that profit from the fruit industry, paid large stock dividends last year, and in addition put much revenue from freights into its treasury.

Northwestern lines will be shown to have suffered very slightly during the war and to have borrowed a moderate sum while eastern roads were plunging head over heels into debt to continue in business. This will substantiate the contention that the carriers are not entitled to an increase in perishable freight rates.

It is possible that the hearing can be closed by Saturday night, but it will continue with a session Monday if necessary, it is said.

FRENCH WAR BRIDE APPEARS IN COURT TO OBTAIN SUPPORT

Clyde Raymond Barney Agrees to Carry Out Marriage Vows if Paroled.

In the presence of his 17-year-old French war bride, an indictment charging Clyde Raymond Barney, alias John Clyde O'Neil, with non-support, was returned this morning by the Multnomah county grand jury before Presiding Judge Gantenbein.

With the approval of the district attorney's office and the added recommendation of Henri Labbe, French consul in Portland, representing Mrs. Barney, attorneys for the husband asked that an immediate sentence and parole be given. They said that if Mr. Barney were released on parole he would take a position offered him by his father and furnish support to his wife.

Judge Gantenbein set the time for sentence this afternoon.

An indictment charging non-support was returned by the grand jury against Irwin F. Bidwell, A. A. Turner was indicted upon a charge of having stolen a boiler and engine from the shop of the Jacobson-Jensen company.

Rubber artificial eyes invented in France are said to have other advantages in addition to being more comfortable to wear than glass ones.

Son Shoots Mother To Death in Mishap

The Dalles, July 18.—When a gun in the hands of her son was accidentally discharged Wednesday afternoon in their home near Sheras bridge, the bullet, penetrating a wall, hit Mrs. Anna Rust in the forehead, inflicting a fatal wound. She died early Thursday morning. The gun had been taken out to kill a hawk and, as it was being put away again, in some manner it was discharged.

Fall Suits for Boys Are Coming In

This store is showing the new clothes for boys! Here are waistline and belted models in great array and—something you had not expected—nearly every suit has an extra pair of "knicks." That means longer wear—better appearance. Forehanded buying for boys now is in order. Vacation clothes! School clothes! Sunday clothes!
