—Aside from the timeliness and the character of the merchandise of this sale, women will recognize frocks worth very much more.

—Frocks of the style, quality and attractiveness of these have been selling right along for much, much more and they certainly are worth more than double the price we are asking for them in this seasonable sale tomorrow.

—The variety in style, material and color is surprising—not to say bewildering.

—There are organdies—cool, crisp and flower-like in their dainty pastel shades—and some, too, are all white. Volles, both plain, dotted, and foulard prints, cotton crepe de chimes, and white nets, lovely enough for a bride.

—The net frocks are particularly charming in their simplicity of style—frills, tucks and, on some, satin ribbon sashes are the only trimmings. The other dresses are designed on becomingly slender lines with cool bell sleeves, long, short or three-quarter length. Some have cuffs and collars of crisp organdy, and more trendy models introduce Georgette in contrasting shades. Each model has its own characteristic style touch to make it individual. White, plain colors, prints and combinations.

Another Shipment of Much Wanted White Flannel Skirts
