

RECORD OF EVERY SOLDIER OF STATE BEING COMPILED

State Librarian Cornelia Marvin in Charge of Work; Distribution of Medals Is Planned.

NOVEMBER 11 IS DATE SET

Every Effort Is Being Made to Make Compilation Complete; Schools Are Aiding in Work.

Salem, July 26.—The official record of every Oregon soldier serving in the world war is being compiled in the state library here, under the direction of State Librarian Cornelia Marvin, who was authorized to make the compilation by the recent legislature. From these records will be made the distribution of service medals, scheduled for November 11 next.

The work of compiling these records was begun last March, and, although it is not expected that the compilation will ever be complete, it is planned to have as complete as practical under the circumstances well before the first anniversary of the signing of the armistice.

Blanks have been sent out to every school district in the state, and county librarians are working in cooperation with Miss Marvin. The records will also be checked by school districts, of which there are more than 3000 in the state, in order that none of the Oregon men may be omitted.

Among other points to be covered in the compilation are the nativity of each individual, his occupation before the war, whether or not he saw foreign service, the manner of his entry into the service, whether by enlistment or draft, and his rank and honors in the service.

It is expected that the compilation will contain the names of at least 35,000 Oregon men. Numbers of photographs are also being received, and the record will eventually be published and kept on file in the permanent archives of the state library.

Aside from this, a compilation will be made of the names and record of all Oregon citizens serving in the world war other than combatant, such as Red Cross, Y. M. C. A., Y. W. C. A., K. of C., Salvation Army, and any other line of endeavor which was essentially a part of America's war program.

SEARCH IS MADE BUT NO TRACE FOUND OF LOST PORTLAND MAN

Lester St. Onge Last Seen Wednesday; Willamette Near Oregon City Dragged.

Oregon City, July 26.—Although a diligent search and dragging of the basin of the Willamette river, south of the Hawley Pulp & Paper company mill, was carried on all day by friends of Lester St. Onge, who has been missing since Wednesday, no trace of the man was found. The point where his fishing basket, book of files and license were found is not one that would be chosen by an expert. Among those searching is St. Onge's father-in-law, N. C. Hebert, 727 Ivan street, Portland, who said that St. Onge's married life has been pleasant and that he had seldom been away from home. St. Onge had been doing painting recently, receiving from \$8 to \$12 a day, and, according to Mr. Hebert, did not need seek employment in Oregon City, which was his errand when he was last seen. St. Onge is a member of Multnomah camp, Woodmen of the World, to which he transferred nearly a year ago from Pullman, Wash., where he lived for a time. He had also lived in Helena, Mont.

Members of the national guard, of which St. Onge was a member in Multnomah county, will come to Oregon City Sunday to aid in the search, it is said. At the point where he may possibly have been drowned the river is but four feet deep and the current is slight, making it improbable that, if the drowning occurred, the body could have been moved a great distance.

SHE SENT FOR HER MOTHER TO COME AND HELP

Mrs. Basnett Was So Run-Down She Couldn't Do Her Work—Gains Fifteen Pounds Taking Tanlac.

"A medicine that will do as much for a person as Tanlac has done for me, is certainly worth recommending to others," said Mrs. H. E. Basnett of 579 Marion avenue, Sellwood district, Portland, Or., to a Tanlac representative. "About a year ago I commenced to suffer with stomach trouble," continued Mrs. Basnett. "I began losing my appetite and didn't seem to relish a thing that I ate, and most of the time it just looked like even the little I would eat lodged right in my stomach, soured and filled me up so badly with gas that I suffered with terrible cramps and felt sometimes like I could hardly get my breath. I was troubled a lot with a dull ache in the small of my back and at times the muscles in my back pained me terribly whenever I so much as tried to stoop over, and I also suffered a good deal with blind, dizzy headaches. I always felt cold and chilly, even when near a fire, and I finally worried so much over my condition that I was almost a nervous wreck and couldn't sleep well and many a time I would just lie awake for more than half the night in perfect misery, and I got so awfully weak and run-down after a while that I couldn't do my housework and had to send for my mother to come and help me. I was certainly pad off and nothing I took in the way of medicines and treatments did me a particle of good in fact, I seemed to get worse all the time instead of better. "I then got to reading about Tanlac and what it was doing for others that seemed to be suffering like I was, so my husband decided that it might help me some and I began taking it, and today I am certainly feeling like a different person altogether. My appetite has come back to me and nothing I eat gives me a particle of trouble afterwards, because my stomach now feels as well as it ever did. All that pain I had in my back is gone completely and I can now do all my housework, even the washing, without a bit of trouble. I have actually gained about fifteen pounds in weight and am certainly very grateful to Tanlac for what it has done for me. I have told my friends about my experience with Tanlac and am only too glad to tell anyone what I think about it."

HELPLESS

Dr. B. E. Wright

and SUFFERING UNTOLD AGONY

A prominent Portland man suffering from rheumatism in its worst form was recently carried to the train and shipped to a hot spring.

At that resort the physician discovered that his teeth were badly affected and advised that they should be extracted.

The patient, when able to be moved, returned to Portland, had the teeth removed, the gums treated, and is now walking about without suffering a twinge of pain.

If this man had consulted a competent dentist in the first place he would have saved himself this dreadful agony, loss of time and money.

Where all of the upper or lower teeth must be removed your first concern should be to secure a plate that will as nearly as possible perform all of the functions of natural teeth and at the same time look natural.

I guarantee in every case the very best results in the fitting and placing of artificial teeth.

My experience and skill, recognized for the past 20 years, is at your disposal for a moderate fee. Better dental work, of every kind, you cannot secure anywhere.

COME and listen—and then compare! You will gauge all phonographs by a new standard after you have heard the Cheney.

For the Cheney utilizes new principles in acoustic science—in part it employs the basic idea of the pipe organ, modified by a tone amplification system which is far superior to the old "megaphone" method.

You hear no "needle scratch," no unmusical sounds—only the pure tones which the artist put into the record. The fidelity of the reproduction is astonishing.

The distinctive features which give the Cheney such tonal superiority are patented, and found only in the Cheney.

Cheney Cabinets are masterpieces of period design—they fittingly enshrine the superior Cheney tonal system.
