Washington, July 20.—(WASHING-TON BUREAU OF THE JOURNAL.)— At the request of Representative Mc-Arthur, the coast and geodetic survey has begun the revision of the navigation harts of the Columbia river bar and of the channel from Portland to the sea. hese revised charts will show all the atest soundings taken from the United States engineer's office at Portland, blue prints of which have just reached

A cursory examination of these blue ints shows a minimum depth of 42 eet of water on the bar for the width f 2500 feet at mean low water, and an mobstructed channel of 30 feet from the bar to Portland. The channel soundings represent mean low water and do not include tides or flood waters. The charts also show that the channel is of ufficient width to accommodate the argest ships in the navy with ample passing room.

"Government officials in general and naval officers in particular have told me that the river is dangerous to navigation because of shallow water at the bar and in the channel. Their opinons have not been based upon observation, but upon hearsay—upon persistent falsehoods circulated by rival commercial interests. MERIDEN TAKES SALMON

Six Hundred Cases Included in Cargo of Ship on Her Malden Voyage. Six hundred cases of Columbia river-salmon are included in the cargo manifest of the new steel steamer Meriden, which sailed from Portland Tuesday night on her maiden voyage to Honolulu. The canned fish was supplied by the Columbia River Packers' association.

On her outward voyage the Meriden will stop at Bellingham, Wash., to take on additional cargo for the Matson Navigation company, operators of the ship. The Columbia Pacific Shipping company of Portland represented the Matson line in the dispatch of the steamer from this city.

CRESAP IS ASSIGNED

Portland Built Vessel Is Taken Over by Pacific Steamship Company. Assignment of the new wooden steamer Cresap to the Pacific Steamship company was announced today by C. D. Kennedy, chief of the division of operations of the Emergency Fleet corporation. The Cresap, which is a 4000 to vessel built by the Peninsula Shipbuilding company, is another unit in the fleet of vessels which is now engaged in carrying railroad ties. Her destination will be the United Kingdom. The ties will be loaded at the Inman-Poulsen mill of this city, which means that local interests will be benefited by the shipment. Bi-nesia Stops Stomach Trouble Or Money Back

INSTANT RELIEF GUARANTEED

Recently a writer on the treatment of stomach troubles, who has claimed that practically all stomach trouble is due to acidity, decided to put his theory into the test. Every sufferer from stomach trouble was told to take a teaspoonful of pure Bi-nesis or 2 or 3 of the 5 grain tablets in a little water immediately after eating or whenever pain was felt. The test completely vindicated his theory; for immediate relief was indicated in nearly every one of the first hundred reports received, showing conclusively that the trouble had been due to stomach acid which, as is well known, is instantly neutralized by Bi-nesia. Since making this test, the well-known manufacturing chemists who have specialized in preparing pure Bi-nesis exclusively for stomach use have arranged to place in every package of genuine Bi-nesia either tablet or powder form a binding guarantee contract of satisfaction or money back, proof positive of their belief that nearly every so-called dyspeptic is really suffering from acidity and their confidence that genuine Bi-nesis will instantly neutralize stomach acid, stop food fermentation and thus relieve the troubles caused thereby—Adv.

Stamp for Text of Their Sermons on Day.

Ministers of the gospel throughout the city and state have taken kindly to ganda that immediately preceded the the idea of a "thrift Sunday" at least once a month and it is probable that the last Sunday in each month will hereafter be "thrift Sunday" in Oregon churches. The suggestion was made in letters

sent to state ministers by Mrs. A. R. Innes, associate state director of War Savings Stamps activities, and replies received indicate that the idea meets with general approval. "We will cooperate to the limit of our abilities" is the gist of the answers. The plan is for ministers to upon thrift and its relation to the government's War Savings Stamps and Thrift Stamp securities, as a sermon topic, or at least to make mention of the W. S. S. campaign during the ser-

mon on the last Sunday of each month. The government is striving this year to make the War Savings Stamps campaign more of an educational feature han a stamp selling proposition, and it realized that the pulpit offers one of the best agencies for the release of bis educational propaganda. Thrift Stamp holders and prospectiv urchasers of War Savings Stamps are being reminded from War Savings

Stamp headquarters that Friday is the irst day of the month, and that on that day the price of War Savings Stamps will advance to \$4.19. Thrift stamps should be exchanged for War Savings Stamps before Friday if the July price of the "baby bonds," \$4.18, be realized to advantage.

AMMUNITION FOUND IN HOMES Search of many houses, including those occupied by both negroes and white men, has revealed barricades and quantities of ammunition. Negroes on the south side are reported to have obtained army rifles of the Springfield type and an investigation of how the blacks got them is being made. The riots have had their effect upon he industrial life of the city. Many industries employing negroes have been compelled to close or curtail their operations as the blacks have not appeared for work. City playgrounds where both white and black children have played have been ordered closed The stockyards particularly have been affected as many negroes are em-ployed there and it is the stockyards district that has been the scene of some of the most violent fighting.

GOVERNMENT UNDERTAKES SWEEPING INVESTIGATION

Washington, July 30 .- (I. N. S.)-The widespread race riots in various parts of the United States are under investigation by the United States government. Trusted agents of the de

other localities, culminating in the present rioting in Chicago. The inquiry now under foot is designed to determine these facts: First-Whether there actually exists a regularly organized body whose object it is to stir up racial hatred in order to emphasize apparent unrest in the United States.
