

# PERMANENT PEACE NOT SEEN UNTIL IRELAND IS FREED

President of Hibernian Society Auxiliary, Portland Visitor, Says Irish Opposed to League.

## DE VALERA COMING HERE

Mrs. McWhorter Declares Ireland Refused Industrial Growth by British System of Government.

Mrs. Mary McWhorter  
"No league of nations will insure lasting peace with Ireland left out, and there will be no peace until the Irish question is settled," declared Mrs. Mary F. McWhorter, who reached Portland this morning to foster the interests of Ireland's aspirations. Mrs. McWhorter is a woman of unusual personality. She has just returned from San Francisco, where she attended the convention of the ladies' auxiliary to the Ancient Order of Hibernians, of which she is national president.

Mrs. McWhorter continued: "Ireland is bitterly opposed to the League of Nations, first because it nullifies American, renders her secondary in the matter of preparedness and in the navy question, and, second, because the league excluded Ireland. In article 10 of the League of Nations treaty, it states that only nations now self-governing are admitted to the league. Ireland had looked to America for liberation."

**HAVE WAITED IN VAIN**  
"For 30 years the Irish people have abandoned physical force and calmly sent their representatives to the British parliament to see what would happen. And nothing happened. They hoped by moral suasion to win recognition. Young Ireland became impatient. It was not the laborers or the lower classes who started the foundation of the Sinn Fein party, as British propaganda would have it. It was the scholars and the students and the educated men, who could not stand the cruelty of overtaxation, the deadening effect of the business situation. Ireland has no industries left. Everything is agriculture. The only industry we have is the food factory at Cork, and the Irish people hold Henry Ford in high esteem, for he has had to fight the English parliament. There is no inducement to invest money in Ireland. England controls the banking system in Ireland and the matter of credits is crippled."

## DE VALERA COMING HERE

In speaking of the president of the Irish republic, Eamon de Valera, who was present at the San Francisco conference, Mrs. McWhorter stated that he was received with greatest enthusiasm in California and throughout the Western states. De Valera will be in Portland within the next six weeks to present the cause of the Irish republic, the United Irish society, of which Miss Anna Kearns is president. The party included Mrs. W. A. Eivers, Mrs. M. J. Driscoll, Mrs. J. P. Munly, Mrs. T. S. Hogan, Miss Katherine Dowd, Miss Elizabeth Gallagher, Miss Frances Deery, Miss Anna A. Dunn, Mrs. E. H. Deery and P. E. Sullivan.

Mrs. McWhorter will speak this evening at the Lincoln high school. She will be entertained at a banquet on Friday evening at the Portland hotel, where she is making her headquarters while in the city. She also addressed the teachers' institute at St. Mary's academy this afternoon.

## ADDITIONAL FIGHTERS FOR FIRE IN VICINITY OF ESTACADA WANTED

Forest Supervisor Telephones for 12 Men; Other Blazes Mostly Under Control.

Forest Supervisor T. H. Sherrard this morning telephoned for 12 additional men to be sent out to aid in fighting the forest fire on Hambone butte, in the vicinity of Estacada, which has been burning for several days at an average daily cost to the forest service of \$350. Sherrard has been in the vicinity of the fire for several days. Wednesday afternoon the scalers for a timber sale near Estacada were drafted to meet the fire emergency.

The fire situation is otherwise unchanged. Assistant District Forester C. J. Buech this morning returned from the Rainier fire which he has been helping to fight for several days. The fire is still beyond control. Two lightning fires are still burning in the Umpqua forest in Southern Oregon. The location and the severity of labor combined to enable the flames to spread over a considerable area before the men could reach them.

Fire fighting in other forests has been reduced to a patrol proposition. A. O. Waha, assistant district forester, says.

## Rains Put Out Fires

Butte, July 31.—(U. P.)—Heavy rains in this section have lessened the danger of forest fires. Local forestry officials reported today that all near-by blazes have been extinguished or are under complete control.

## Site of Coos Bay Shipyard Optioned; New Mill Probable

Marshfield, July 31.—An option to buy the site of the Coos Bay Shipbuilding company near the Smith mill was given Wednesday to A. E. Adelpberger and W. J. Conrad, representing eastern men who

own timber in this part of the state and who may start a new lumber mill on Coos bay.

If plans now considered are carried out, a mill with a capacity of 100,000 feet of lumber a day will be erected. The option is to buy the property for a sum in the neighborhood of \$50,000.

The Coos Bay Shipbuilding company was organized when the war started, was operated for two years by local capitalists and turned out 10 federal vessels, the last of which was recently launched.
