J. H, CLARK.

Epidemies and Barbers Portland, July 30 .- To the Editor of The Journal-There is some cause for

alarm in the city on account of the epidemics of scarlet fever and smallpox. Wars are nearly always followed by epidemics, and we have taken a great many precautions in our city; but our danger is not all over yet. A doctor and noted health authority who recently visited Portland, in speaking of the recent fever epidemic, said that one of the very best combatants of

these contagious diseases is the barber shop, because the barbers use lotions and antiseptic washes that are preventives. Returned soldlers say that whenever they were on long, weary one and two in series three. marches, weakened through deprivation

of food and also of soap and water Bolshevik cause may mark a new high they welcomed the sight of the little water mark of Bolshevik terribleness. barber shop. And they say that when The loss of Ekaterinburg is undeniably they were stationed where the barber severe blow to the forces that are deshops were accessible there was little the fruit juice tax before the ways and contagion, and that when they were ill means committee: Arthur M. Churchill in hospitals, these same ministrations not only hastened their recovery, but Almost in the heart of Europe

great many of the people live without berian railway. He is now forced back on the railway and continued Bolshevik the civilizing influences of soap and water or clean linen. In parts of Siberia and Poland, where there are no bathing appliances or barber shops, smallpox and typhus sweep away thousands upon thousands. It is necessary resistible advance against Kolchak. for us to make a deep study along these In time Ekaterinburg will again lines, because many of our boys have been exposed by association with men from these regions. It is too hard to rid the country of these epidemics after they get a foothold.

The Right System From the Eugene Register

Out of a motor trip of some 4000 miles and covering many states, the thing that most impressed E. J. Adams was the excellence of the carefully patrolled roads of Wisconsin. Back there, he says, they patrol their highways just as the rall-roads patrol their roadbeds, and the result is distinctly pleasing to the man Peuple Francais. who drives a car-which is rapidly coming to mean everyone. An automobile can be allowed to coast swiftly down hill, Mr. Adams reports, with the comforting certainty that there will be no racking holes at the bottom, and bridges can be crossed with no checking of nor-

ous in Wisconsin by their absence. That is what the patrol system does.

news first and relegating domestic and local news to the last page. Soon after the establishment of the Gazette, Dr. Renaudot was granted an exclusive monopoly of printing and selling news-

papers in France. The title of Gazette de France was first used in the middle of the eighteenth century. It has been published under that title ever since, with the exception of a brief period during the Revolution of 1848, when the name was temporarily changed to Le

Olden Oregon

Slavery Question Delayed Territorial Government in Oregon

It was not until two years after the settlement of the Oregon question between the United States and Great Britain that congress took action looking toward the formation of a territorial government in Oregon. The delay was caused by members from the Southern states, who objected to the anti-slavery clause in the proposed organic act. After a long and determined fight by the pro-slavery element the Oregon ter-ritorial bill became a law August 14,
