

RAPS POWER OF RICH EMPLOYER

Woman Stockholder in Crane Company Scores Policy; Strike Is On.

Chicago, Aug. 13.—(L. N. S.)—The wealthy every year are "getting enormous sums of money from the labors of others without anything like commensurate returns to society for it."

In addition, the employers exercise a "power over the lives of the employees that is intolerable in modern society."

"The gradual assuming of control of their lives by the workers is and must be only a question of time."

These are not theories advanced by a soap box orator. On the contrary, they are the views of Frances R. Lillie, whose stock in the Crane company, a steel concern, nets her thousands of dollars a year, but whose income since July 10 has been materially reduced by a strike of 6500 workers at the Crane company, who are demanding wage increases of 50 per cent.

Mrs. Lillie expressed the views in a letter to John J. Kikulek, union organizer, who is directing the strike at the plant.

Mrs. Lillie's brother, Richard T. Crane Jr., present head of the Crane company, does not share his sister's views and has offered the men wage increases of 15 per cent in an effort to settle the strike. The workers today refused the offer, following receipt of the letter from Mrs. Lillie.

In concluding her letter to the workers, Mrs. Lillie said:

"There is no good and no generous deed of any member of the Crane family that at all will or should invalidate this conviction. As for those of the family who have done little but injure themselves and others by the use of this unearned money, the sooner they are good of society, their money is taken away from them the better."

EDITORS RESORT TO SUPERLATIVES

(Continued From Page One)

turquoise picture of Crater Lake, "the silent sea" set amidst the pinnacles and snow capped peaks of the Cascade mountains.

TRAIN IS DECORATED. The special train bearing Oregon's guests arrived at 9:45 o'clock this morning from Southern Oregon. The party was moved to the Great Northern train, which was beautifully decorated with flowers. After less than half an hour spent in transferring the party the Great Northern special moved out of the station for Tacoma, where they will be entertained until Thursday morning.

During the brief interval the visitors remained in Portland, various members of the party expressed their views of the southern trip. "Wonderful" was the watchword of the men, "charming" the word of the women.

"I want them to arrest me while I am yet in Portland, so I can stay in your magnificent state a little longer," exclaimed Mrs. C. L. Woodring, owner of a morning and evening paper at Peru, Indiana, and secretary of the Indiana Women's Press club of Indiana. "While I was in Southern Oregon I barely slept a wink, because I just couldn't close my eyes on Oregon's scenic wonders."

Willard E. Carpenter, publicity manager for the party from Lincoln, Neb., expressed his appreciation for the entertainment of the editors, saying: "We exclaimed over the wonders of the Canadian Rockies with their quick moving streams, but Crater Lake struck us deeper into the hearts of the members of our party. I believe there is only one place comparable to Crater Lake and that is the Columbia river highway, but they differ so that this comparison is hardly fair."

OCTOGENARIAN PLEASD. "I'll never be able to make the trip again," said F. M. Nills of Sioux Falls, S. D., who is 89 years of age and the oldest member of the party, "but Crater Lake and the Willamette valley were more than worth a trip across the country."

"Wonderful is all I can say," said George Schlosser of the Republican, Westington Falls, S. D. "But the boss of the party can tell you more. Schlosser then asked Will Wilkie, owner of the Gazette of Gray Eagle, Minn., and chairman of the transportation committee, for an expression.

"Until we get back to our typewriters and think it over, I can't possibly give a good description of the trip," said Wilkie. "We will boost for Oregon and some of us will come back, part of us have already picked out our future homes in Oregon."

At this remark, J. C. Gleisib of Le Mars, Iowa, A. R. Gardner of Kennewick, Wash., Edwin M. Conner of the Willapa Harbor Pilot and president of the Washington State Editorial Association, and B. C. Dow of Sioux Falls, S. D.

D. examined in union that this was the thought of the entire party.

TELETYPE DESCRIBED.

Carpenter then gave a description of the trip: "Our first experience on the trip that showed the wonderful hospitality of Oregonians was at Salem when aeroplanes hovered over the party and dropped a package addressed to Mrs. Guy U. Daniels, the president of the association. The package contained scores of wonderful Oregon roses.

"At Medford we had the time of our lives even if Fran M. Scott, general passenger agent of the Southern Pacific and some of the other members of the party did get salt in their coffee instead of sugar.

"On the way to Crater Lake, some of the automobiles went by the Medford-Crater Lake highway, but we went by way of Ashland over the Dead Indian road, skirting the Klamath valley.

"Both parties arrived at the lake at about the same time. Under a cloudy sky we obtained our first glimpse of the lake. I, for one, was speechless, and I wondered how the others were affected. For a long time no one spoke, and then there were exclamations and interrogations in sufficient amount to fill a whole newspaper.

"UNEQUALLED IN BEAUTY" "Following that were campfires, lunches and excursions in such a whirl that I have been unable to separate the various details into presentable form. We viewed the lake ruffled by the gentle breeze over the Dead Indian road, and then again under the full moon at night. Crater Lake is unequalled in beauty, and I have seen quite a little of the world's wonders.

"Some of us are coming back to Oregon when we have more time to spend, but if you convey our appreciation to the rest of the party, I think we will be telling the people at home what a wonderful country lies on the other side of the Rockies."

At 10:15 o'clock the train moved out of Portland on its way to Tacoma. Dinner is awaiting them at the Tacoma Commercial club and representatives from that city were in Portland to take care of the party. Following the dinner the party will be taken to Mount Rainier to remain for the night and the party will leave there Thursday morning for the return trip to their homes via the Canadian Pacific.

ASHLAND APPEALS TO VISITING EDITORS. Ashland, Aug. 13.—Wearily after the long drive, but made as children by a two day sojourn in the forest fastness and a night spent at nature's bluest lake, the visiting editors began streaming into Ashland at 5 o'clock Tuesday afternoon. They were met enthusiastically over their outing and the beauties of Ashland with its background of snow-tipped mountains, and, as befitted the occasion, lunch was served.

First they took a sulphur plunge or tub bath, and then as suited their pleasure they wandered over plaza and parks, drank the hot water and melted snow from piazza fountains, or jumped into cars for hurried spins over scenic drives. Oregon products were served and tables loaded with delicacies.

The women of Ashland, assisted by Mrs. Humphreys of Oregon, served. Tables were loaded with fruit. Short talks were made by E. E. Brodie, C. E. Ingalls and W. E. Hosmer.

G. W. Steel said this was the most satisfactory trip ever made to the lake. Mrs. Guy U. Hardy said that she and Mr. Hardy got up at 5 o'clock to see the sunrise, and it was the most glorious sight of her life. Mrs. Hawley said Mr. Hawley was wild after eating bear meat at Eagle creek and could not talk paper mills.

The governor said the trip was much easier than his first trip, which was made 30 years ago. Some of the party motored to Medford to catch the train there. The crowd was shown through the Chautauqua auditorium.

Viscount Grey May Be Ambassador to U.S. From England

London, Aug. 13.—It is confidently expected that within a few days the government will announce that Viscount Grey has accepted the post of British ambassador to the United States.

Viscount Grey has been for many months troubled by his failing eyesight. Some of the greatest British specialists have been in consultation over him and he has been subjected to a special course of treatment, so that recent reports that he was going blind have now been replaced by encouraging news.

The viscount, it appears, is not threatened with total blindness, but is suffering from what is known to the profession as central vision. When he wears colored glasses, with which he has become familiar, he can see sufficiently to walk about, and indeed, can go fishing and pursue ordinary pursuits as well as the average person. However, he cannot read print.

From a well informed source, it is learned that Viscount Grey the other day put the definite question to oculists as to whether, if he goes to the United States, his eyesight might get worse on account of the heavy work that would await him there. They replied in the negative, saying his sight would never be better but never worse.

Des Moines Car Men Strike Des Moines, Iowa, Aug. 13.—(U. P.)—Des Moines' transportation system was paralyzed when 60 employees of the street railway company went on strike. The carmen, recently granted a wage increase to 50 cents, 55 and 60 cents an hour, struck because no provision was made to give them back pay from March 1, under the new scale.

DANIELS IS SURE OF VISIT TO NORTH

Secretary Will Decide on Trip After His Return From Honolulu.

On Board Battleship New York, via East San Pedro, Cal., Aug. 13.—(U. P.)—With Secretary Daniels and his party aboard, the New York was well out from San Pedro early today, en route for Honolulu. The secretary was on the bridge when the New York moved away from its anchorage.

Daniels said he will wait until he reaches San Francisco to determine definitely whether he will visit the North-west.

The secretary said he plans to send the fleet back through the canal next year for a sham battle with the Atlantic fleet. The following year, he said, he will bring the Atlantic fleet to the Pacific for maneuvers.

When the New York left, G. W. Tew was found aboard as a stowaway. Tew said he wanted to enlist in the first "almost" paid in this way. It was found he could not read the optical chart at a distance of five feet.

"This is the fifth time I've been cured and then re-examined by the doctor ashore. I thought my eyes wouldn't bother down there in the fires."

League Indorsement Blocked by Radicals Seattle, Aug. 13.—(U. P.)—The Metal Trades Council here last night tabled a communication from the American Federation of Labor asking indorsement of the League of Nations, after Frank Turko, ultra radical, had declared that the covenant was "an international police force to shove down the throats of the workers something they do not want."

SAYS THEY PASSED CHECKS FOR \$3000

(Continued From Page One)

tion than the bill. Several Portland residents found their month's grocery bills "almost" paid in this way. At one store a \$35 check was cashed on the pretext that \$9 was being given through the store on the account of the Waverly Baby Home.

Both Sibley and Mrs. Fuller blame morphine for their downfall. Sibley declares that he must have 25 grains a day, and says it cannot be procured for less than \$1 per grain.

"When a man gets in the shape I am in he loses all self respect, manhood and everything else, and will even commit murder if necessary to secure the drug," Sibley said. "I have been using this stuff for 17 years. I served 10 months in the Nevada penitentiary for forging a \$1200 bank draft, but while I was there I used to buy the stuff from the guards. If I had been cured there I wouldn't have been here now. I understand I will not be able to get it at Salem, where I expect to go for this offense. I want to get cured and am willing to do five years in any of the recent house or garage robberies. "All I did was to hang paper," he said.

The first member of this group, Richard O'Keefe, was arrested Saturday by

LUCK DUE TO WOMAN How he had escaped both city and federal officials this long is a mystery to Sibley. Police declare Sibley's luck was due to the woman.

Sibley denied that he had taken part in any of the recent house or garage robberies. "All I did was to hang paper," he said.

The first member of this group, Richard O'Keefe, was arrested Saturday by

FORGED CHECKS THAT HE MIGHT OBTAIN MORPHINE

Eimer Sibley

the same officers. O'Keefe is said to have confessed to stealing checks from the state industrial accident commission and to forging them. Police are holding a large size, double pad, black checkbook containing 300 blank checks, an evidence against Sibley. It was secured from the United States National bank. Sibley told police he was afraid to pass checks on banks, because they were so well protected by house detectives.

League Indorsement Blocked by Radicals Seattle, Aug. 13.—(U. P.)—The Metal Trades Council here last night tabled a communication from the American Federation of Labor asking indorsement of the League of Nations, after Frank Turko, ultra radical, had declared that the covenant was "an international police force to shove down the throats of the workers something they do not want."

ANCIENT FIGURE OF WOMAN DISCOVERED

Crater Lake Curiosity Has Not Been Classified; May Be Petrification of Lava.

Medford, Aug. 13.—Tourists have a new wonder to view at Crater Lake national park in addition to that "mysterious sea of silence," according to reports.

Workmen in Crater lake national park recently discovered in the woods one-fourth of a mile from the road or trail the mysterious figure of a woman, an effigy or petrification which may be older than the mummies of Egypt and New Mexico and will merit the investigation of scholars.

The figure is that of a woman in a crouching position with both forearms lifted defensively before her face, and is reclining against a boulder. Few have yet seen the figure, but those who have are impressed with its appearance of weird antiquity.

It is believed she may have been a victim of the great cataclysm in which masses of lava from Mount Mazama were thrown over a wide area and were no doubt the cause of the immense quantities of petrified wood and incrustated plants, insects and wild life found in the preparation of agates and similar stones, in the far distant age before Crater lake existed.

This strange find is about 500 feet north from a road running westerly from the main Crater lake road, about one-fourth of a mile this side of the government engineers' camp.

Captain Huntington to Leave Captain Carlos Huntington, on special duty with the Portland army recruiting district, received orders Tuesday to be discharged at Camp Lewis, Wash.

State-Owned Car Is Stolen From in Front of Capitol

Salem, Aug. 13.—A large automobile belonging to the state highway department and used by State Highway Engineer Herbert S. Nunn was stolen from in front of the state house about 3 o'clock Tuesday afternoon. Nunn missed the car about 3:30, when he went for it with a party of newspaper men, whom he had promised to take on a tour of inspection of some of the Marion county work.

At that time, however, he blamed its disappearance to some of the men in the department, one of whom had a short time before inquired about a possibility of the use of a car for a short time. When the automobile failed to show up later in the evening, inquiry was started which revealed that it had been stolen. No trace of the car had been found this morning.

Gen. Pershing May Sail on Leviathan New York, Aug. 13.—(L. N. S.)—The U. S. transport Leviathan sailed on her final voyage as a troopship today and, according to a report circulated at the port of embarkation office in Hoboken, she will bring back General Pershing and his staff from France. The Leviathan will also bring a contingent of the First Division when she returns early in September. Upon her arrival she will be reconverted for passenger service.

AMERICAN VESSEL CALLING FOR HELP

Steamer Englewood Reported in Sinking Condition Off Mouth of Thames River.

London, Aug. 13.—(U. P.)—A Lloyd's dispatch from Dover today said that the steamship Englewood from New York had wireless from off Black Deep that she is sinking rapidly and asked that help be sent.

The Englewood is a war built vessel, having been completed in 1918. She is registered at New York. She is a 4500 ton steel screw steamer and is the property of the United States shipping board.

The Englewood left New York for Rotterdam July 29 with a general cargo. Black Deep is off the mouth of the Thames river.

Beauty Contest Scheduled Some pretty girls are going to picnic with Major General C. H. Martin Sunday. But she's got to be the prettiest of the many pretty girls who will attend a soldier's outing at Vancouver Barracks, Wash. The affair is staged by Colonel Koster of that post for the men of the post. Selection of the girl who is to lunch with the general will depend on the outcome of a beauty contest.

WORKS IN POISON OAK AND IVY WITHOUT FEAR "THE Laurel Hill Cemetery, of which I am superintendent," writes J. H. Brummett, of Springfield, Or., "is full of poison oak. I take it very easily. When I sent you for a bottle of Santeptic Lotion I had had poison oak for five months. I contracted being Santeptic as soon as I got it, and kept working in the poison oak. I am now entirely cured, and believe me, it certainly takes something even to help me. I had and have tried everything I or anybody else ever heard of, including all kinds of guaranteed remedies. Just simply time and money wasted. Santeptic certainly did the work."

Anybody who has ever experienced the tortures of poison oak or ivy will be grateful for the information that this extremely irritating annoyance is no longer to be feared. The pain, itching, fever and irritation disappear almost like magic after a few applications of Santeptic. Santeptic also kills and prevents other skin irritations, such as sunburn, windburn, chafing, fever and cold sores and insect bites. It is a remarkably soothing and healing lotion. Men use it after shaving, and the women for the complexion and for babies' tender skin. Santeptic is easily procured at most drug stores. If your dealer cannot supply it, send 50 cents, with his name, to the Ebenhart Laboratories, Portland, Or., for a full-size bottle, postpaid.—Adv.
