The Science of Food Selling

We know of no other problem ranking equal to this today. It has been and will always hold first place because it immediately affects more people than any other.

First to adopt the penny change—First to establish Cash and CARRY STORES—the 20th Century Grocery stores can rightfully be called Pioneer movers in the elimination of all unnecessary costs.

Our prices, which we are never ashamed of, are to be plainly seen in print in the papers, or on the goods in store.

Quotations are good for Saturday and Monday.
