

PRETTY PAGEANT CHARMINGLY TOLD PORTLAND'S RISE

Laurelhurst Park Setting for Historical Story Presented in Song, Music and Dances.

MANY WITNESS SPECTACLE

Characters Cleverly Delineated Epochs in the History of the City From Date of Founding.

In an enchanted setting of tall ferns and flowers blooming and the soft breeze of a summer night, the historical pageant of Portland was presented on Thursday evening at Laurelhurst park for the pleasure of thousands of spectators who were seated on the hillside surrounding the improvised stage. The story was told with music and song and dance, and although to those hundreds who witnessed the pageant from a distance to far removed that they were unable to hear the music it was so successfully portrayed that the throng watched with eager interest throughout the entire performance.

The broad steps at the entrance to the park formed an impressive setting for the dancers and the various characters as the story was told, beginning with the fairy dances of the day when the world was young and wood sprites danced through the forest shades. The brightly tinted gowns of the little folk through Portland's playgrounds, seemed to flit about against the green background of the shrubbery like butterflies. The impressive prologue of the pageant written by Ada Losh Rose and the story of the pageant were read by Mayor Baker, who stood upon a platform erected near the foot of the steps. A white throne was placed for the fairy queen, Miss Katherine Laidlaw, and the queen of Portland, against a background of greenery where the bewitching little fairies danced through the mazes of the scarf dance, the garland dance, the dance of the fairy princess and the fairies and their queen.

Then came the story of the red man and his camp, with the glowing fires about the teepees and the old Indian dances. The arrival of Lewis and Clark with a realistic Indian council of the braves and the departure of the dusky-eyed Indian maid, Sacajawea, as a guide across the mountains. Chief Untongasbow was portrayed by Howard Hopmirk. Other Indian braves were: John

DANCERS STREET ROOMS RAIDED

Chinese Suspected of Conducting Secret Lottery Game; Four Men Arrested.

"Open up or we will blow her up!" But the stullen Chinese refused to admit ownership by divulging the combination of a safe suspected of containing lottery paraphernalia, which had been found in his rooms at 339 Flanders street, Thursday afternoon, and after the police party had been called, the whole outfit, including two Chinamen, two negroes, the safe and the arresting officers were loaded up for a run to police headquarters.

Moy Ham and Lee Sing were accused of conducting a lottery, and George Mullen and Ira Jackson, who were both in the Chinese apartment, were accused of visiting a lottery. The quartet were lodged in the city jail pending trial before Judge Rossman today.

WILL RETURN SOUTH
Speler will return to San Francisco August 31 to confer with the officials, making the trip to Portland to take up some business affairs during the intervening time until he again needed. He will take a bar and river pilot south with him upon his return. Appointment of the pilots is being made by the Port of Portland commission.

Many Aid Baby Home

Mrs. D. C. Burns, president of the Waverly Baby Home; Mrs. F. C. Knapp, director, and Mrs. L. M. Sheppard, financial secretary, are gaining many new life memberships to aid in constructing the new building. Already several thousand dollars have been obtained in this manner, the committee reports. The new building is to cost \$70,000.

JAPAN WOULD BALK

Shantung to Japan would be less in number than the convention of 1915. Williams said he believed that Japan would fulfill its promise to restore Shantung to China, except for the concession of a "square miles" at the port of Kiau-Chau.

IRISH WILL HAVE HEARING BEFORE SENATE COMMITTEE

Washington, Aug. 22.—(U. P.)—Declination of the senate foreign relations committee to lengthen the hearing on the treaty still further by granting a hearing to Greek, Irish and Egyptian and mid-European representatives threatened today to renew the agitation for signing the treaty out of the committee's hands.

MONROE DOCTRINE SAVED BY ALLIES, SAYS LONDON

London, Aug. 22.—(U. P.)—Revived interest in the League of Nations and in the proceedings at the peace conference has resulted here from President Wilson's speech at the senate foreign relations committee.

The allies' concealment of secret treaties strengthened Wilson's moral position, says the Manchester Guardian, which wonders why the president did not use his position more fully. The paper supposes he was forced to make such a statement because of the acceptance of some very unfavorable point or the possible breaking up of the peace conference. It hopes the price of all the treaties is the acceptance of the League of Nations, which will not be lost.

The Daily Graphic, commenting on Wilson's conference with the senators, says the Manchester Guardian is correct in the difficulty over article X which should weigh heavily on America. Had it not been for the endurance and sacrifices of the allies, the editorial declares, the Monroe doctrine would not be much today "besides a sweet memory controlled by Germany."

HOOPER TOLD THE ALLIED COUNCIL ARCHDUKE MUST GO

Paris, Aug. 22.—(I. N. S.)—Herbert Hoover's urgent representations to the supreme council to depose Archduke Joseph as head of the Hungarian government to prevent the Hungarians from getting a foothold in the country was today termed "the most sensational bombshell which has been thrown into the peace conference since the departure of President Wilson."

It is understood that Mr. Hoover convinced both Premier Clemenceau and A. J. Balfour, British foreign secretary, of the correctness of his position. The supreme council has already sent a note to the allied generals in Budapest acquainting them with the decision of the conference not to recognize any of the Hapsburgs.

American delegates denied Mr. Hoover's charge that delay in taking action against Archduke Joseph was due to Washington. Frank L. Polk, who succeeded Secretary Lansing on the delegation, has assumed full responsibility for the action of the American peace

KOREA MAY HAVE SELF GOVERNMENT

Military Rule to Be Gradually Replaced by Civil Control, Says Japanese Document.

Plans of Japan to extend local self-government to Korea, as announced recently by the imperial government in a rescript, are detailed in an official copy of this rescript, received here Thursday by Japanese Consul Sugimura.

The rescript explains the gradual abolition of military rule replaced by civil control for the purpose of extending local self-government to Koreans. It announces the regret of Premier Hara over the retirement of Marshal Hasegawa, governor-general of Korea, and of Yamagata, director-general of administration, and the appointment in their places of Baron Saito and Mr. Midson.

"It should be noted that the existent administrative system of Korea is not meant to be of a permanent or unalterable nature, and that it embodies provisional arrangements calculated to meet the passing needs of the transitory period until the final goal of independence is reached. It is the policy of the government is now decided to carry out various reforms in Korea and its fixed determination to forward the progress of the country in order that it all differences between Korea and Japan proper in matters of education, industry and the civil service may finally be altogether obliterated.

"The government is, moreover, confidently looking forward to the eventual adoption in Korea of a system of provincial and municipal administration similar to that in operation in Japan proper, so far as circumstances will permit. For a speedy attainment of the objective one naturally cannot rely solely on the force of origin and machinery; a great deal must necessarily depend upon the efforts of the Koreans themselves towards their own uplifting."

Fine for Skin Exposed to Sun or Flying Dirt

"These days the face needs special care and attention. Flying sand and dirt, the beating sun, are severe on any skin. Their despoiling effects are best overcome by the application of pure melonized wax. This keeps skin and pores in a cleanly condition, the complexion beautifully white and spotless. Reddened, tanned, freckled and roughened cuticle are actually absorbed by it. One ounce of melonized wax, obtainable at any drugstore, is sufficient to completely remove all such complexion troubles. It is used like cold cream, allowed to remain on overnight, and washed off in the morning."

Poor Woman Makes Sacrifice

"For years I have doctored for indigestion and severe bloating with gas, all my money had gone for doctors and medicine which did me no good. I had lost all faith in medicines and as I have to work hard for the few dollars I earn, was afraid to risk any more money. A year ago my neighbor told me to try Mayr's Wonderful Remedy. I have found it to be the best medicine in the world and am glad I made the sacrifice." It is a simple, harmless preparation that removes the catarrh mucus from the intestinal tract and allows the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One does not convince or money refunded.—At all drugstores.—(Adv.)

PROFESSOR WILLIAMS TESTIFIES AT CAPITOL

(Continued From Page One)

non in which he stated that "No half-way decisions were conceivable." Williams read the address he referred to into the Record. He said that the basis of his opposition to the Shantung settlement was that it violated the "14 points" and especially the right of self-determination enunciated by the president. Williams said he had discussed two alternatives with President Wilson at Versailles, on the transfer to Japan of German rights in Shantung, or the carrying out of the convention as concluded in 1915 between Japan and China.

BOUND BY TREATY

"The president told me that unfortunately the British and French governments had been enticed into certain engagements with Japan by which German rights in Shantung were to be transferred to Japan.

"I then suggested to the president a blanket article for insertion in the treaty whereby Germany was to renounce all rights in China, which would revert to China, but since the port of Kiau-Chau and the railways and mines of Shantung which Germany had seized by an act of piracy were in the possession of Japan, they should be transferred to China by Japan.
