

### AUDIT OF SCHOOL DISTRICT BOOKS STRICTLY LEGAL

State Law Provides That County Auditor Check Up Accounts Once Each Year, Says Attorney

COST ESTIMATED AT \$2500

Two Members of Board Known to Be in Favor of Ordering Work Completed as Soon as Possible

Directors of the school board are legally authorized to request the county auditor to make or cause to be made an audit of the books of the school district, according to an opinion rendered Saturday by Deputy District Attorney Samuel H. Pierce. This is expressly provided for in a state statute, Pierce affirms, which directs that the audit be made at least once a year by the county auditor upon the request of the school directors.

County Auditor Martin was unable to state positively Saturday what the cost of making an audit of the books of the school clerk's office for a period of five years would amount to, but said in all probability it would cost at least \$2500 for the actual checking of the figures. This sum might be considerably increased, however, he stated, if it were necessary to employ legal advice on any of the questions.

That two directors at the next meeting of the school board Monday evening will be in favor of having the audit made was indicated Saturday by the statements of George B. Thomas and A. C. Newill. Newill has favored the proposal from the first and made the motion that it be taken up at the meeting of the board. Director Thomas favored the resolution but said before adopting it he would like to have an opinion from the district attorney's office as to the legality of the expenditure.

Speaking of the matter Saturday in view of Pierce's opinion, Thomas said he would support the measure at the meeting Monday and do everything in his power to have it passed.

"I am heartily in favor of having this audit made," said Thomas, "and from a business standpoint it seems to me it should have been made long ago. The way things are now there is absolutely no check on the records of the school district and the school clerk's office. The monthly audit made now by the county auditor is only a perfunctory checking of the balances and does not take place until all the transactions have been completed."

The request for an audit was made at the last meeting of the school board by J. N. Teal and L. C. Goldsmith, representing the Taxpayers' league. They urged that the directors order it done as a matter of common sense business policy. This motion was made by Director Newill and seconded by Director Thomas Thursday failed to pass when Director Orton voted to refer the question to the finance committee. Chairman Sommer and Director Plummer were absent.

### Industrial Club of Corbett Plans for September 13 Fair

Leaders and workers of the Corbett Industrial club and representatives from Hurlburt, Springdale and the Pleasant View districts gathered at the Union high school at Corbett Friday night and discussed plans for the local fair to be held in the high school September 12. Committees were appointed to take charge of the fair arrangements.

It was decided that exhibits would be placed for inspection from 12 to 3 o'clock on the 12th and then gradings would be made and a program carried out. The best of the exhibits will be picked out and sent to Gresham for the county fair, to be held the following week.

To care for expense incurred by decorations, ribbon prizes and cartage, a committee was appointed to sell ice cream and light refreshments. This is the first fair of its kind to be held in Corbett.

### Oaks Park Will Be Open Thursday to Portland Orphans

Mrs. A. R. Mattingly, 269 Fourteenth street, will be in charge of the event, assisted by members of the Parent-Teacher association and matrons of various philanthropic institutions. Every arrangement has been made by John F. Cordray, manager of the Oaks, for the entertainment of his guests and the outing promises to surpass similar events of previous years.

Children attending the Thursday picnic must provide their lunches but all other entertainment will be furnished free.
