URGENT RULE-MAKING

POWER BE GRANTED HIGH COURT OF U. S.

Members of Bar Association Are Asked to Present Matter in Favorable Light.

The committee on uniform judicial procedure of the American Bar association, of which Joseph N. Teal of Portland is a member, recommends that every member immediately request his senators and congressmen to assure the passage of the bill before congress giving to the supreme court of the United States the authority to make rules governing the entire procedure in cases at law to the same extent that it now has power to regulate the procedure in equity and admiralty and the bankruptcy courts.

The committee believes that the bill is the key that will unlock the door to a new era of scientific judicial relations. The report says: "The united bench and bar will cooperate in first constructing and then in perfecting a simple, correlated, scientific system of rules of procedure and practice for the federal courts."

In urging that a special committee be appointed to present to state legislatures the merit of making annual appropriations of small sums to defray the traveling expenses of judges, both federal and state, to meetings of the judicial section of the association, the report says: "It is desired to repeat that such an appropriation would be but a small premium to pay for insurance against diverse judicial opinions; for the promise of uniformity; and for the constant improvement in jurisprudence assured by an annual convention of appellate federal and state judges, justice as well as liberty must be assured in America. Liberty was won only through the sacrifice and privations of war; justice can be achieved only through the organized, vigilant and consecrated effort."

The committee on uniform judicial procedure comprises Thomas W. Shelton of Virginia, William Hoar and Paul C. Connecticut, Jacob M. Dickerson of Illinois, Frank Irvine of New York and Joseph N. Teal of Oregon.
